The following information is presented to help you manage your credit card processing account. Thank you for your business and we look forward to being a part of your continued success.

The following Visa USA and MasterCard International changes were announced for all acquirers nationwide and will go into effect April 2004.
- Visa and MasterCard have introduced a new off-line debit structure whereby off-line debit rates for non-qualified transactions will now be assessed separately from rates for non-qualified credit card transactions.
- Visa will implement new interchange levels for Commercial Card (Business Corporate and Purchasing) Level II and Level III. Commercial Cards will no longer fall into the consumer card rate structure.
- MasterCard will implement new off-line debit categories: Small Ticket, Auto Fuel Dispenser, Service Stations, Restaurants, and Emerging Market
- MasterCard will introduce a new consumer credit card and corporate card interchange fee structure and rate.

Specific details regarding these changes and the increased rates will be mailed directly to you. If you have questions, please contact the customer service number listed on your statement.

Several debit networks have recently announced fee changes. Listed below is a list of Interchange and Pass-through fees for each debit network.
Effective 03/01/04:
- Accel Retail Interchange: 0.60% of sale + $0.13, capped at $0.48.
- Accel Supermarket Interchange: $0.22
- AFFN Interchange: $0.21

Effective 04/01/04: Maestro fees are now based on a tiered pricing structure.
- Maestro Convenience Stores Interchange: 0.65% of sales (exclusive of cash back) + $0.15, capped at $0.48
- Maestro Retail Interchange: 0.65% of sales (exclusive of cash back) + $0.15, capped at $0.48
- Maestro Supermarket Interchange: $0.25

Effective April 3, 2004, Visa will eliminate the second chargeback cycle. This change is part of the chargeback re-engineering program, Visa RED, which is an ongoing initiative to streamline and simplify the dispute process. Merchants will experience faster resolution time frames and fewer media retrieval requests due to the new Visa Resolve Online tool. This tool allows issuing banks to view retrieval information without going to the merchant or processor to request a copy of transaction documentation.

The following information is presented to help you manage your credit card processing account. Thank you for your business and we look forward to being a part of your continued success.

Effective January 1, 2004, if you process transactions in California, Louisiana, Maine, Colorado, New Jersey, Arkansas, Utah, or New Mexico, your state now requires all merchants to truncate cardholders' account number information. You are responsible for ensuring your credit card processing equipment suppresses all but the last four digits of the cardholder account number and the entire expiration date on the cardholder copy of all transaction receipts generated from electronic terminals (including cardholder activated). In addition to state laws, Federal truncation legislation was passed on December 4, 2003. The federal legislation will preempt state laws beginning January 1, 2005 for point-of-sale devices in use on or after this date. State laws still apply and may be enforced until federal legislation becomes effective. This information is provided to you as a courtesy; however, it is your responsibility to seek professional legal advice, if necessary, to ensure you are in compliance with applicable state law. If you have non-legal questions, please call 1-800-430-3292.

Attention Pulse Debit Network Merchants: Effective April 1, 2004, Pulse will institute a Tiered Debit Network Fee Structure, based on individual merchant Pulse volume. No change will be made to the interchange fee at this time.

Billable Trans/Month	Network Fee
1-100,000	$0.06
100,001 - 200,000	$0.05
200,001 - 300,000	$0.045
300,001 - 1 million	$0.04
1,000,001 - 2 million	$0.03
2,000,001 - 3 million	$0.025
3,000,000 - 4 million	$0.02
4,000,000 - 5 million	$0.015
Over 5 million	$0.01

Effective April 3, 2004, Visa will eliminate the second chargeback cycle. This change is part of the chargeback re-engineering program, Visa RED, which is an ongoing initiative to streamline and simplify the dispute process. Merchants will experience faster resolution time frames and fewer media retrieval requests due to the new Visa Resolve Online tool. This tool allows issuing banks to view retrieval information without going to the merchant or processor to request a copy of transaction documentation. For more information on the Visa RED project, please see the merchant communications portion of our website at www.wellsfargo.com/existingmerchant

The following information is presented to help you manage your credit card processing account. Thank you for your business and we look forward to being a part of your continued success.

In an effort to reduce credit card fraud and protect cardholder account information, effective June 1, 2004 for Arizona and July 1, 2004 for Washington, Kansas and Ohio, legislation passed requiring all merchants to truncate cardholders' account information. As a result of this legislation, you need to ensure your merchant card equipment suppresses all but the last four digits of the cardholder account number and the entire expiration date on the CARDHOLDER COPY of all transaction receipts generated from electronic (including cardholder activated) terminals. In addition to state laws, Federal truncation legislation was passed on December 4, 2003. The federal legislation will preempt state laws beginning January 1, 2005 for point-of-sale devices in use on or after this date. State laws still apply and may be enforced until federal legislation becomes effective. This information is provided to you as a courtesy; however, it is your responsibility to seek professional legal advice, if necessary, to ensure you are in compliance with applicable state law. If you have non-legal questions, please call 1-800-430-3292.

Visa Operating Regulation stipulates that any merchant who chooses to accept Visa cards must:
1) accept any valid Visa card in its acceptance category that a cardholder properly presents for payment
2) permit the cardholder to choose the method of payment he or she wishes to use
3) honor the cardholder's request to use a Visa card in the merchant's acceptance category but bears a mark representing another payment service. another payment choice may be suggested, but only if the cardholder agrees to pay with another form of payment may the transaction be processed as something other than a Visa transaction.
Merchants may encourage cardholders to use their preferred payment method but it is the consumer's choice. Please contact the customer service number on your statement if you have any questions.

The following information is presented to help you manage your credit card processing account. Thank you for your business and we look forward to being a part of your continued success.

IMPORTANT INFORMATION ABOUT YOUR MERCHANT ACCOUNT! Merchant Services inadvertently under-billed your merchant account for transactions processed in April 2004. Your May statement reflects debits for the under-billed April transactions. We apologize for any inconvenience this may have caused. Please contact the customer service number on your statement with any questions.

In an effort to reduce credit card fraud and protect cardholder account information, effective June 1, 2004 for Arizona and July 1, 2004 for Washington, Kansas and Ohio, legislation passed requiring all merchants to truncate cardholders' account information. As a result of this legislation, you need to ensure your merchant card equipment suppresses all but the last four digits of the cardholder account number and the entire expiration date on the CARDHOLDER COPY of all transaction receipts generated from electronic (including cardholder activated) terminals. In addition to state laws, Federal truncation legislation was passed on December 4, 2003. The federal legislation will preempt state laws beginning January 1, 2005 for point-of-sale devices in use on or after this date. State laws still apply and may be enforced until federal legislation becomes effective. This information is provided to you as a courtesy; however, it is your responsibility to seek professional legal advice, if necessary, to ensure you are in compliance with applicable state law. If you have non-legal questions, please call 1-800-430-3292.

ATTENTION all NYCE Debit Network Merchants. Effective July 1, 2004, the NYCE Network will institute revised POS Interchange fees. The network will also implement a new classification, "Mid Tier" Supermarket. The new interchange fees are:
- NYCE QSR Interchange: 0.50% of sale + $0.0975, capped at $0.4875
- NYCE Retail Interchange: 0.65% of sale + $0.1375, capped at $0.6875
- NYCE Fuel: 0.65% of sale + $0.1575, capped $0.7075
- NYCE Supermarket: $0.2775

For any questions regarding these increases, please contact the customer service number on your statement.

The following information is presented to help you manage your credit card processing account. Thank you for your business and we look forward to being a part of your continued success.

In an effort to reduce credit card fraud and protect cardholder account information, effective January 1, 2005, Missouri, Idaho, Delaware, Illinois, and Connecticut passed legislation requiring all merchants to truncate cardholders account information. As a result of this legislation, you need ensure your merchant card equipment suppresses all but the last four digits of the cardholder account number and the entire expiration date on the CARDHOLDER COPY of all transaction receipts generated from electronic (including cardholder activated) terminals. In addition to state laws, Federal truncation legislation was passed on December 4, 2003. Federal legislation will preempt state laws beginning January 1, 2005 for point-of-sale devices in use on or after this date. State laws still apply and may be enforced until federal legislation becomes effective. Point-of-sale devices in use today or put into use prior to January 1, 2005 must be compliant by December 4, 2006. This information is provided to you as a courtesy; however, it is your responsibility to seek professional legal advice, if necessary, to ensure you are in compliance with applicable state law. If you have non-legal questions, please call 1-800-430-3292.

Have you considered compliance with the Visa Cardholder Information Security Program (CISP)? The Visa CISP defines a standard of due card and enforcement for protecting Visa cardholder data. The CISP security requirements, when fully implemented, provide a well-armed defense against data exposure and compromise. Mandated since June 2001, CISP compliance is required to all merchants and service providers that store, process, or transmit Visa cardholder data. To find out what your company must do to comply, visit www.visa.com/cisp.

Effective October 2004, MasterCard Corporate Large Ticket transactions will require level III data in addition to level II data. A Large Ticket transaction must be at least $3,000 and made by a MasterCard Corporate/Purchasing card. Level 3 minimum requirements include product code, customer code, item description and quantity, item unit of measure, extended item amount, tax amount and debit or credit indicator. Currently, merchants need only to submit level II data for Corp Large Ticket. Please make note of this change.

The following information is presented to help you manage your credit card processing account. Thank you for your business and we look forward to being a part of your continued success.

In an effort to reduce credit card fraud and protect cardholder account information, effective January 1, 2005, Missouri, Idaho, Delaware, Illinois, and Connecticut passed legislation requiring all merchants to truncate cardholder's account information. As a result of this legislation, you need to ensure your merchant card equipment suppresses all but the last four digits of the cardholder's account number and the entire expiration date on the CARDHOLDER COPY of all transaction receipts generated from electronic (including cardholder activated) terminals. In addition to State laws, Federal truncation legislation was passed on December 4, 2003. Federal legislation will preempt State laws beginning January 1, 2005 for point-of-sale devices in use on or after this date. State laws still apply and may be enforced until Federal legislation becomes effective. Point-of-sale devices in use today or put into use prior to January 1, 2005 must be compliant by December 4, 2006. This information is provided to you as a courtesy; however, it is your responsibility to seek professional legal advice, if necessary, to ensure you are in compliance with applicable State law. If you have non-legal questions, please call 1-800-430-3292.

Diners Club has entered into an alliance with MasterCard. Starting November 8, 2004, Diners Club will begin reissuing their cards with both the MasterCard and Diners Club logos. When accepted for payment, these cards will be processed and settled as your MasterCard credit cards are today, and will be assessed at your current MasterCard rate. If you accept MasterCard and Diners Club today, continue to accept both cards. If you don't accept Diners Club and do accept MasterCard today, we recommend that when the card is present, you train your staff to look for a MasterCard logo on any Diners Club card. If a MasterCard logo is on the card (front or back), you must accept the card. If you have questions, please contact the customer service number on this statement. The following amends your existing merchant agreement: When accepted for payment, the new co-branded Diners Club cards with the MasterCard logo will now be authorized, settled, and priced as your MasterCard credit cards are today.

Have you considered compliance with the Visa Cardholder Information Security Program (CISP)? The Visa CISP defines a standard of due card and enforcement for protecting Visa cardholder data. Mandated since June 2001, CISP compliance is required of all merchants and service providers that store, process, or transmit Visa cardholder data. To find out what your company must do to comply, visit WWW.visa.com/cisp.

Effective October 1, 2004, MasterCard will require level III data for transactions greater than $3,000 to qualify for the U.S. Corporate Large Ticket interchange rate. Level III data includes level II data (sales tax and customer code) and line item detail (product code, item description and quantity, item unit of measure, extended item amount, and debit or credit indicator). By providing the required data, your transactions will clear at the best possible rate. Failure to provide level III data may result in higher fees. If your terminal cannot provide level III data and you accept qualifying U.S. Corporate Large Ticket transactions, please call the customer service number on this statement to receive terminal software upgrade information.

VISA AND MASTERCARD HAVE MANDATED THAT IN AN EFFORT TO MAINTAIN CARDHOLDER SECURITY, ALL ELECTRONICALLY PRINTED CUSTOMER RECEIPTS TRUNCATE ALL BUT THE LAST FOUR DIGITS OF THE CARDHOLDER CREDIT CARD NUMBER AND SUPPRESS THE EXPIRATION DATE. HPS MEETS THE REQUIREMENTS FOR ALL TERMINALS SHIPPED SINCE JULY 2002 AND UPDATES MERCHANT'S SOFTWARE WHEN POSSIBLE. IF YOUR CUSTOMER RECEIPTS DO NOT MEET THE MANDATES PUT IN PLACE BY THE ASSOCIATION S OR IN SOME CASES SPECIFIC STATE LAWS, CONTACT HEARTLAND AT 1866-240-4284 FOR DETAILS ON HOW TO BECOME COMPLIANT WITH THE REGULATIONS. IF YOU USE A POS SYSTEM PROVIDED AND MAINTAINED BY A THIRD PARTY VENDOR, YOU WILL NEED TO CONTACT THE VENDOR DIRECTLY FOR SOFTWARE UPDATES.

Important Messages

Contact your local Heartland Servicing Relationship Manager to find out how you can view more customized statement information online at the HPS Merchant Center. Visit the Heartland Merchant Center at www.e-hps.com.

In an effort to maintain cardholder security, Visa and MasterCard have mandated that all electronically printed customer receipts truncate all but the last four or five digits of the cardholder credit card number and suppress the exipration date. HPS meets the requirements for all terminals shipped since July 2002 and updates merchant's terminal software when possible. If your customer receipts do not meet the mandate put in place by the Associations or in some cases specific state laws, contact Heartland at 1-866-438-1991, for details on how to secure compliance with regulations. If you use a POS system provided and maintained by a third party vendor and want details on how to meet the compliance regulations, contact your vendor directly for software requirements and software updates.

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

CPS / Hotel & Car Rent CP Db - Visa debit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS / Hotel & Car Rent CNP Db - Visa debit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

MasterCard Top 10 Interchange Definitions

Restaurant Debit- Swiped MasterCard debit card sale at a restaurant merchant where batch is settled within 2 days of the authorization date. Merchants qualifying in this rate category are exempt from any authorization tolerance.

Merit I - Credit card sale where batch is settled within 3 days (9 days for Airline Transactions). There is a 10% authorization tolerance except for restaurants and bars (SIC codes 5812, 5813, and 5814). This is where Touchtone/Dial pay transactions will qualify.

Merit III – Swiped MasterCard credit or debit card sale where the batch is settled within 2 days of authorization date. There is an authorization tolerance of 10% except for bars and fast food restaurants, which are exempt.

Key Entered - Credit card sale at a retail or restaurant merchant that is key-entered and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of sale.

Convenience Purchases - Swiped MasterCard credit or debit card sale at a fast food restaurant, miscellaneous food store, service station, automated fuel dispenser, or movie theatre where batch is settled within 2 days of the authorization date.

Small Ticket Debit- Swiped MasterCard debit card sale at a restaurant, miscellaneous food store, movie theatre, parking lot/garage, commuter transport, taxi, or video rental merchant where batch is settled within 2 days of the authorization date and transaction amount is less than or equal to $15.00.

Corporate T&E Rate I - MasterCard Corporate credit card sale at an airline, car rental, lodging, passenger railway, and restaurant merchant where batch is settled within 3 days of the authorization date and additional transaction detail information must be provided.

Corporate Data Rate I - MasterCard Corporate credit card sale at any merchant other than a Travel and Entertainment (T&E) merchant where batch is settled within 3 days of the authorization date and merchant provides postal and state code.

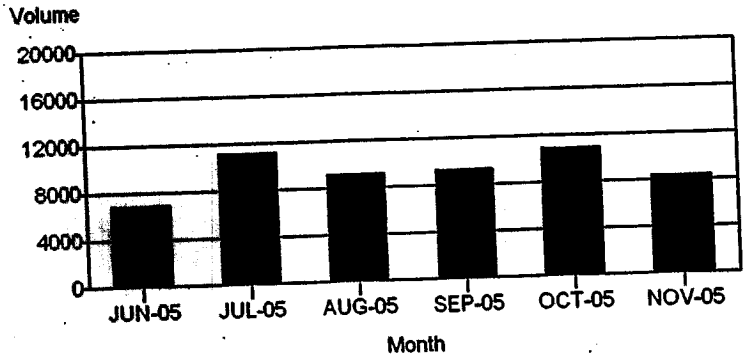

Petroleum Service Station Debit - MasterCard debit card sale at a service station merchant (SIC code 5541) where batch is settled within 2 days of the authorization date and cardholder signature is required.

Petroleum CAT/AFD Debit- Swiped MasterCard debit card sale at a service station pump (SIC code 5542) where batch is settled within 2 days of the authorization date.

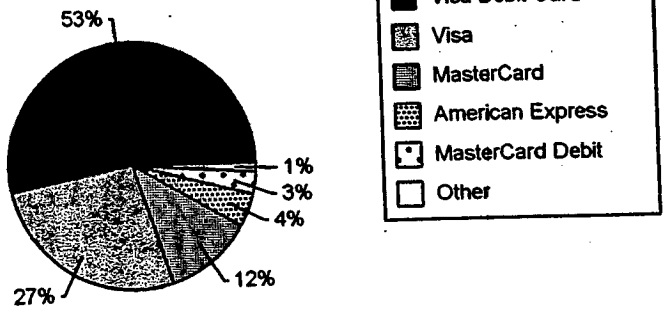

Note: For more Visa and MasterCard Interchange Qualification Definitions, visit the HPS Merchant Center at www.e-hps.com

Lost/Left Behind Credit Cards...What to do.

During the busy holiday season customers are more prone to leave their credit card at a merchant location. There are procedures that you should follow in the event a card is not claimed within a week. These procedures also apply to cards you are instructed to "hold" and take from a customer.

- Cut card in half, between magnetic stripe and signature line, not through numbers if possible.
- Tape the two halves to a piece of paper.
- Note your DBA and Heartland ID on paper.
- Note "left behind" date (and any suspicions).

Mail to: Heartland Payment Systems
Compliance Department

Important Messages

Contact your local Heartland Servicing Relationship Manager to find out how you can view more customized statement information online at the HPS Merchant Center. Visit the Heartland Merchant Center at www.e-hps.com.

In an effort to maintain cardholder security, Visa and MasterCard have mandated that all electronically printed customer receipts truncate all but the last four or five digits of the cardholder credit card number and suppress the expiration date. HPS meets the requirements for all terminals shipped since July 2002 and updates merchant s terminal software when possible. If your customer receipts do not meet the mandate put in place by the Associations or in some cases specific state laws, contact Heartland at 1-866-438-1991, for details on how to secure compliance with regulations. If you use a POS system provided and maintained by a third party vendor and want details on how to meet the compliance regulations, contact your vendor directly for software requirements and software updates.

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

CPS / Hotel & Car Rent CP Db - Visa debit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS / Hotel & Car Rent CNP Db - Visa debit card sale at a hotel or car rental merchant where card is manually entered. NEW @ HEARTLAND

Giving Gift Cards Just Got Easier

Plastic gift cards have taken the lead over paper gift certificates, giving recipients the flexibility to spend at their discretion--buying what they want, when they want. Used like a credit card, gift cards increase sales, keep cash value in store, and build brand awareness. Gift cards can also be customized for your business.

Gift cards are easy to carry and sell, and are supported on most POS terminals. Call us about gift card services.

Happy Holidays from Heartland.

Updated Visa Card Design & Security for 2006

The new Visa Brand Mark and card will be introduced to customers and merchants in January 2006. Updated Visa security features will accompany the new cards, using some of the latest technology to keep merchants and customers safe from fraud and abuse of Visa services. Some of these security features include:

- **The Dove Hologram:** Moved to the back of the card and integrated into a holographic magnetic security stripe.
- **Three-digit Security Code:** Moved to the signature panel and embedded in the card plastic for easier reading.
- **New Visa Brand Mark:** Appears in blue and gold on white panel. Transition to the new brand will be made available to merchants in January, with an overall, effective transition period of five years for merchants.

Hints & Tips

Wishing you and your business a happy and prosperous New Yea

This notice only affects merchants who accept PIN-Based debit cards

AFFN debit network has announced fee adjustments effective March 1, 2006. These debit fee adjustments are assessed to all US banks and processors. As provided for in our agreement, this rate adjustment will be passed along to you. Heartland Payment Systems is committed to fairly and competitively passing through this rate adjustment. Please contact customer service at 888-963-3600 opt. 2 with any questions. The new debit network fees are as follows:

Non-supermarket $0.10 + 0.55% + $0.03 (switch fee)- maximum fee of $0.53

Supermarket $0.14 + $0.03 (switch fee)

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Fraud Warning: Overseas Abuse of TDD Services

Hints & Tips

At an alarming rate, overseas entities (primarily originating from Ghana, Nigeria, and Indonesia) are abusing expanded operator-assisted services for Telecommunication Devices for the Deaf (TDDs). In the typical scam, large orders are placed through a third-party operator, with bogus or stolen credit card information. The resulting damage to merchants may include devastating chargebacks and permanent loss of labor and inventory. Warning signs to be aware of include orders via hearing-impaired operator calls, faxes, or emails, product shipment requests to the above-referenced areas, and the multiple decline of applicable credit cards. If you feel you have been a victim of these abuses or suspect a recent or current order, please contact our Loss Prevention Department before shipment, at 888-798-3133 ext. 1620.

Deposit Detail

Important Messages

Contact your local Heartland Servicing Relationship Manager to find out how you can view more customized statement information online at the HPS Merchant Center. Visit the Heartland Merchant Center at www.e-hps.com.

Typically MasterCard International and Visa U.S.A. announce interchange fee adjustments in February that are effective in April. As of our printing deadline, we have not received a completed list of these adjustments. Any fee adjustments will be assessed to all U.S. Banks and Processors. As provided for in your Merchant Agreement, the rate adjustments incurred by HPS will be passed directly along to you effective April 1, 2006. Once HPS has been notified of all the adjustments, more detailed information will be mailed to you.

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

CPS / Hotel & Car Rent CP Db - Visa debit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS / Hotel & Car Rent CNP Db - Visa debit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

MasterCard Top 10 Interchange Definitions

Restaurant Debit- Swiped MasterCard debit card sale at a restaurant merchant where batch is settled within 2 days of the authorization date. Merchants qualifying in this rate category are exempt from any authorization tolerance.

Merit I - Credit card sale where batch is settled within 3 days (9 days for Airline Transactions). There is a 10% authorization tolerance except for restaurants and bars (SIC codes 5812, 5813, and 5814). This is where Touchtone/Dial pay transactions will qualify.

Merit III – Swiped MasterCard credit or debit card sale where the batch is settled within 2 days of authorization date. There is an authorization tolerance of 10% except for bars and fast food restaurants, which are exempt.

Key Entered - Credit card sale at a retail or restaurant merchant that is key-entered and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of sale.

Convenience Purchases - Swiped MasterCard credit or debit card sale at a fast food restaurant, miscellaneous food store, service station, automated fuel dispenser, or movie theatre where batch is settled within 2 days of the authorization date.

Small Ticket Debit- Swiped MasterCard debit card sale at a restaurant, miscellaneous food store, movie theatre, parking lot/garage, commuter transport, taxi, or video rental merchant where batch is settled within 2 days of the authorization date and transaction amount is less than or equal to $15.00.

Corporate T&E Rate I - MasterCard Corporate credit card sale at an airline, car rental, lodging, passenger railway, and restaurant merchant where batch is settled within 3 days of the authorization date and additional transaction detail information must be provided.

Corporate Data Rate I - MasterCard Corporate credit card sale at any merchant other than a Travel and Entertainment (T&E) merchant where batch is settled within 3 days of the authorization date and merchant provides postal and state code.

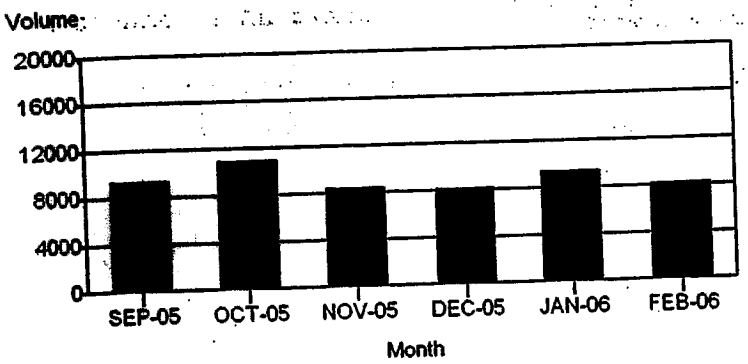

Petroleum Service Station Debit - MasterCard debit card sale at a service station merchant (SIC code 5541) where batch is settled within 2 days of the authorization date and cardholder signature is required.

Petroleum CAT/AFD Debit- Swiped MasterCard debit card sale at a service station pump (SIC code 5542) where batch is settled within 2 days of the authorization date.

3 Best Tips for Processing Bank Change Requests

Hints & Tips

In order to process your bank change request in a timely manner, please consider these tips:

1. The bank change request must be signed and the signature on the request must match the signature on your merchant account.
2. You must provide a voided check. If you do not have a voided check, the banking account information must be stated on bank letterhead and signed by a bank representative.
3. You will need to provide the correct MID.

Having all three of these items greatly increases our ability to process the request within 24 hours of your preferred date of change.

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

CPS / Hotel & Car Rent CP Db - Visa debit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS / Hotel & Car Rent CNP Db - Visa debit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

MasterCard Top 10 Interchange Definitions

Restaurant Debit- Swiped MasterCard debit card sale at a restaurant merchant where batch is settled within 2 days of the authorization date. Merchants qualifying in this rate category are exempt from any authorization tolerance.

Merit I - Credit card sale where batch is settled within 3 days (9 days for Airline Transactions). There is a 10% authorization tolerance except for restaurants and bars (SIC codes 5812, 5813, and 5814). This is where Touchtone/Dial pay transactions will qualify.

Merit III – Swiped MasterCard credit or debit card sale where the batch is settled within 2 days of authorization date. There is an authorization tolerance of 10% except for bars and fast food restaurants, which are exempt.

Key Entered - Credit card sale at a retail or restaurant merchant that is key-entered and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of sale.

Convenience Purchases - Swiped MasterCard credit or debit card sale at a fast food restaurant, miscellaneous food store, service station, automated fuel dispenser, or movie theatre where batch is settled within 2 days of the authorization date.

Small Ticket Debit- Swiped MasterCard debit card sale at a restaurant, miscellaneous food store, movie theatre, parking lot/garage, commuter transport, taxi, or video rental merchant where batch is settled within 2 days of the authorization date and transaction amount is less than or equal to $15.00.

Corporate T&E Rate I - MasterCard Corporate credit card sale at an airline, car rental, lodging, passenger railway, and restaurant merchant where batch is settled within 3 days of the authorization date and additional transaction detail information must be provided.

Corporate Data Rate I - MasterCard Corporate credit card sale at any merchant other than a Travel and Entertainment (T&E) merchant where batch is settled within 3 days of the authorization date and merchant provides postal and state code.

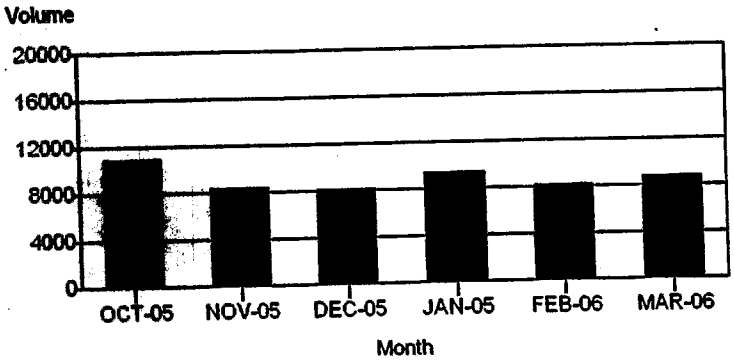

Petroleum Service Station Debit - MasterCard debit card sale at a service station merchant (SIC code 5541) where batch is settled within 2 days of the authorization date and cardholder signature is required.

Petroleum CAT/AFD Debit- Swiped MasterCard debit card sale at a service station pump (SIC code 5542) where batch is settled within 2 days of the authorization date.

NEW @ HEARTLAND

Changing Interchange

Effective April 7, 2006, both Visa and MasterCard increased their Interchange Rate and Fee Schedule for some categories, anywhere from 1 to 10 basis points. In addition, both card associations reduced Small Ticket debit by 5 basis points. A basis point equals 0.01%, so 1 basis point increase for a $100 transaction would equate to $0.01.

IF YOU HAVE FURTHER QUESTIONS, PLEASE CONTACT YOUR LOCAL RELATIONSHIP MANAGER OR CUSTOMER SERVICE:

Heartland Payment Systems

2006 Interchange Overview & Your Statement:

Hints & Tips

VISA: Visa is revising their corporate credit card interchange fee program from one category to three categories. Visa is reducing the CPS/Small Ticket Debit rate.

MASTERCARD: MasterCard is increasing the rates for a selected group of Corporate, Consumer, and World credit card fee programs. MasterCard is also reducing the Small Ticket Debit rate.

In addition to the 2006 Card Association changes, the statement you receive in May (April transactions) will show two additional line items: one line for Interchange fees assessed on transactions submitted through April 6, and a second line for the new fees assessed beginning April 7.

In the April 2006 association fee adjustment notification that was mailed to you, World MasterCard Restaurant +0.01% was omitted in error.

Shazam debit network has announced the below fee adjustments effective July 1, 2006. These debit fee adjustments are assessed to all U.S. banks and processors. As provided in our merchant agreement, these rate adjustments will be passed along you. Heartland Payment Systems is committed to fairly and competitively passing through these rate adjustments.

The new debit network fees which includes Shazam's switch fee of $0.03, are as follows:

RETAIL BASE - $0.27

SUPERMARKET BASE - $0.19

Please contact Customer Service at 888-963-3600 with any questions regarding the Shazam debit network fee adjustments.

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

CPS / Hotel & Car Rent CP Db - Visa debit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS / Hotel & Car Rent CNP Db - Visa debit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

MasterCard Top 10 Interchange Definitions

Restaurant Debit- Swiped MasterCard debit card sale at a restaurant merchant where batch is settled within 2 days of the authorization date. Merchants qualifying in this rate category are exempt from any authorization tolerance.

Merit I - Credit card sale where batch is settled within 3 days (9 days for Airline Transactions). There is a 10% authorization tolerance except for restaurants and bars (SIC codes 5812, 5813, and 5814). This is where Touchtone/Dial pay transactions will qualify.

Merit III – Swiped MasterCard credit or debit card sale where the batch is settled within 2 days of authorization date. There is an authorization tolerance of 10% except for bars and fast food restaurants, which are exempt.

Key Entered - Credit card sale at a retail or restaurant merchant that is key-entered and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of sale.

Convenience Purchases - Swiped MasterCard credit or debit card sale at a fast food restaurant, miscellaneous food store, service station, automated fuel dispenser, or movie theatre where batch is settled within 2 days of the authorization date.

Security Measures To Protect Your Business

If your cardholder information is compromised, your business may be fined thousands of dollars by Card Associations such as Visa and MasterCard. Your best defense against credit card data theft is to maintain strict security measures such as:

- Making sure your POS system and software don't store any information from credit or debit cards when a card transaction is swiped. Contact your POS system dealer to ensure your system is up to date.
- Ensuring the cardholder's receipt does not include the card's expiration date and only includes the last 4 or 5 digits of the card number.
- Storing your merchant receipt copies in a safe, secure location and destroying any non-essential receipts.

More information about security requirements and how to protect your customers' data is available online at: **www.visa.com/cisp**, or contact us at: **888-963-3600, Option 1, Option 2**

Important Messages

Contact your local Heartland Servicing Relationship Manager to find out how you can view more customized statement information online at the HPS Merchant Center. Visit the Heartland Merchant Center at www.e-hps.com.

Important! To further protect your privacy, HPS has changed the information that will be requested when a merchant contacts HPS to inquire about any of the following account information: 1. Current pricing, 2. Batch detail, 3. Credit card numbers, 4. Monthly statements, 5. ACH records, 6. Card adds, or 7. Internet user IDs. Beginning May 2006, when calling Heartland to request sensitive information about your account, you will be asked to provide 2 of the following 3 items: 1. Last two digits of the social security number on file for the account, 2. Full federal tax ID, or 3. Bank routing number (ABA) or bank deposit number (DDA).

Visa Top 10 Interchange Definitions

CPS / Retail Credit - Visa credit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Retail Debit - Visa debit card sale at a retail merchant other than a restaurant, supermarket, or service station where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date, and only one authorization per transaction is allowed. This is the most common category for merchants that perform face-to-face transactions.

CPS / Restaurant Credit - Visa credit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Restaurant Debit - Visa debit card sale at a restaurant merchant where card is swiped and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale and purchase date must be within 1 day of the authorization date. Restaurant merchants are exempt from any authorization tolerance, in order to process tips without downgrading.

CPS / Card Not Present Credit - Visa credit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS / Card Not Present Debit - Visa debit card sale where card is not swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder are not present at the time of the sale and purchase date must be within 1 day of the authorization date. The transaction must include: the purchase date, which is the ship date (up to seven days from authorization); the customer service telephone number; the URL or an e-mail address; the order number; mail/telephone order; e-commerce indicator; and total amount authorized. Most transactions require Address Verification to be performed, while some do not. Address Verification is required to qualify if the transaction is the first of a recurring payment or if the time between payments is longer than one year.

CPS/Hotel -Car Rent CP Credit - Visa credit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS/Hotel -Car Rent CNP Credit - Visa credit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator. Magnetic stripe data and signature are not required. Transaction must clear in two days and include the following industry-specific data: purchase date must be the same as the hotel check-out date / car return date, hotel check-in or car check-out date, market-specific authorization data indicator, folio/room number or rental agreement number, total authorized amount, and indicators for ancillary charges and no shows, if applicable.

CPS / Hotel & Car Rent CP Db - Visa debit card sale at a hotel or car rental merchant where card is swiped or scanned and batch is settled within 2 days of the authorization date. Card and cardholder must be present at the time of the sale, purchase date must be within 1 day of the authorization date, and additional transaction detail data must be provided. In addition, the hotel stay or length of rental must be one or more days, signature must be obtained, and the POS terminal application must be equipped to provide data including: hotel check-in or car check-out date, folio/room number or rental agreement number, total authorized amount, indicators for ancillary charges and market-specific authorization data.

CPS / Hotel & Car Rent CNP Db - Visa debit card sale at a hotel or car rental merchant where card is manually entered. This program applies to those hotel and car rental merchants that process advance deposits, no-shows, or other key-entered transactions, in which the hotel stay or length of rental is more than one day and the POS terminal application is equipped to provide the additional industry-specific data for the program. It allows for multiple authorizations with authorization increments and reversals, if needed to meet amount tolerance requirements, estimated length of hotel stay or car rental, and preferred customer indicator.
