Opposition No. 91184628

Aquatrols Corporation of  
America, Inc.

v.

AlzChem Trostberg GmbH

On December 1, 2008, the parties filed applicant's proposed amendment to its application Serial No. 77254724, with opposer's consent, and opposer's withdrawal without prejudice of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to change the identification of goods in International Class 1 **from**

chemicals for industrial purposes; chemical products for industrial purposes, namely, aqueous solutions of the sodium salt of 2-hydroxy-4,6-dichloro-1,3,5-triazine as cross-linking agents for polymeric compounds

**to**

chemicals for industrial purposes, not used, marketed, distributed or sold in the agricultural field, turf field and/or horticultural field; chemical products for industrial purposes, namely, aqueous solutions of the sodium salt of 2-hydroxy-4,6-dichloro-1,3,5-triazine as cross-linking agents for polymeric compounds, not used,

marketed, distributed or sold in the agricultural field,  
turf field and/or horticultural field.<sup>1</sup>

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed without prejudice.
