v.

Michael Jackson

Proceeding: 91187950

Defendant: Michael Jackson

I, Michael Jackson the applicant in response to opposition 91187950 would like to show cause why judgment by default should not be entered due to issues with the U.S. Postal Service not on behalf of the applicant. New Correspondence Address has been updated via ESTTA, and applicant responds to the requested discovery within thirty days of the date of the boards decision. Applicant also contacted the Trademark Trial and Appeal Board to verify information and status. Applicant argues that the motion for default judgment should be denied, because applicant was diligent in complying with the board's order, and the untimely service of discovery responses was due to a delay in receiving certain information from a third party Licensee. Thank You for your consideration and have a blessed day.
