MOTION TO AMEND APPLICATION WITH CONSENT

Pursuant to Section 514.02 of the Trademark Trial and Appeal Board Manual of Procedure, Applicant, SecurLinx Holding Corporation, hereby moves to amend the recitation of goods in the above-referenced Application Serial No. 77/561,677. This Motion is made with the consent of the other party in the proceeding, TeleTracking Technologies, Inc. (“Opposer”), who has agreed to withdraw without prejudice the above referenced Opposition contingent upon the entry of the amendment.

Pursuant to 37 C.F.R. §2.133(a), Applicant hereby requests to amend its Application Serial No. 77/561,677 as follows:

Delete the identification of goods in its entirety and substitute therefor the following:
“Computer software for use in extraction, analysis, and comparison of biometric information

regarding individuals derived from documents, pictures, and databases; **all for safety and security purposes.**” in International Class 009. **(Proposed Amendment).**

The amendment is submitted in connection with Opposition No. 91190326. Applicant respectfully submits that the proposed amendment merely limits the scope of the identification of goods. Applicant further submits that the identification of goods, as amended, is sufficiently definite to allow others to understand the nature of the Applicant’s goods, to allow proper classification of such goods, and to adequately define the parameters of the goods offered by Applicant pursuant to T.M.E.P. §§805 and 1402. Opposer has consented to Applicant’s proposed amendment.

For the foregoing reasons, Applicant respectfully requests that the Board approve the Proposed Amendment.
