Opposition No. 91196939

Corr Wireless  
Communications, LLC

v.

Switch Communications Group  
LLC

**Cheryl Butler, Attorney, Trademark Trial and Appeal Board:**

On February 23, 2011, applicant filed a proposed amendment to its application Serial No. 85001365, with opposer's consent.

By the proposed amendment applicant seeks to change the identification of services **from**

providing telecommunications connections to the Internet; providing telecommunications services, namely, electronic, digital and wireless transmission of video, voice and data; voice over Internet protocol (VoIP) telephone services; local and long distance telephone services

**to**

providing telecommunications connections to the Internet; providing telecommunications services, namely, electronic and digital transmission of data, but expressly excluding wireless telephone, data and broadband services provided over the cellular spectrum, the advanced wireless services spectrum, the personal communications services spectrum, and the 700 MHz terrestrial spectrum licensed by the Federal Communications Commission.

The amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and opposer consents thereto. See Trademark Rule 2.133(a). However, it is not acceptable because it include the name of another entity (the Federal Communications Commision). If accurate, applicant may substitute the terminology with "a federal governmental agency."

Insofar as the parties are interested in settling this matter, proceedings remain suspended and applicant is allowed until **THIRTY DAYS** from the mailing date of this order to submit an acceptable amendment with opposer's consent.
