Opposition No. 91197673

Mission Health System, Inc.

v.

Leadway (HK) Limited

On March 28, 2011, the parties filed applicant's proposed amendment to its application Serial No. 77918511, with opposer's consent, and opposer's withdrawal of the opposition, contingent upon entry of the amendment.

By the proposed amendment applicant seeks to change the identification of goods **from** "Medical diagnostic apparatuses for use in immunoassays, and clinical chemistry analyzers" **to** "Medical diagnostic apparatuses, namely immunoassays and clinical chemistry analyzers for medical office use."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed in accordance with the agreement between the parties.
