Opposition No. 91197827

Maryville Data Systems, Inc.

v.

Utility Solutions, LLC

In response to the Board's September 13, 2011 order, the parties, on September 28, 2011 filed applicant's proposed amendment to its application Serial No. 77902616, with opposer's consent, and opposer's withdrawal of the opposition with prejudice. The amendment comports with the amendment filed in related Opposition No. 91196322.

By the proposed amendment applicant seeks to change the recitation of services in International Class 35 **from** "business management and business consulting services provided exclusively to the public utilities and energy industries" to "business management and business consulting services provided exclusively to the public utilities and public energy industries."

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer

consents thereto, it is approved and entered. See Trademark Rule 2.133(a).

The contingency in opposer's withdrawal having now been met, the opposition is dismissed with prejudice.
