HOLDINGS LTD.)

Applicant.)

Opposition No. _____

Mark: QIK)
Serial No.: 77/812,590)

NOTICE OF OPPOSITION

QlikTech International AB (“QlikTech” or “Opposer”), an Aktiebolag organized under the laws of Sweden, located and doing business at Science Park Ideon S-223, 70 Lund, SWEDEN, believes that it will be damaged by the registration on the Principal Register of the mark QIK, shown in Application Serial No. 77/812,590, owned by Skype Ireland Technologies Holdings Limited (“Applicant”), a Delaware corporation located at 811 Hamilton Street, Redwood City, California, 94063, and hereby opposes the same upon the following grounds. This Notice of Opposition has been timely filed, Opposer having been granted extensions of time in which to oppose, which expires on May 22, 2011.

COUNT I: LIKELIHOOD OF CONFUSION

1. Applicant has filed Application Serial No. 77/812,590 (“Application ‘590”) which seeks to obtain a registration on the Principal Register for the mark QIK for use in connection with “Downloadable application software for mobile phones, namely, downloadable or embedded software for video sharing from mobile devices; Downloadable application software

for mobile phones namely, downloadable or embedded software for live video sharing from mobile devices; Downloadable application software for mobile phones, namely, downloadable or embedded software for multimedia sharing from mobile devices; Downloadable application software for mobile phones, namely, downloadable or embedded software for multimedia sharing from mobile devices via truncated domain addresses and URLs, all of the aforesaid in the field of camera-enabled mobile devices and video cameras” in International Class 9.

2. Application '590 was filed on August 25, 2009, and claims a date of first use of the QIK mark in commerce as of July 31, 2007.

3. Application '590 was published in the Official Gazette of November 23, 2010.

4. Prior to filing Application '590, prior to any date of first use in commerce alleged by Applicant, and since at least as early as 1995, QlikTech established global headquarters in the U.S. through a wholly owned subsidiary, previously known as QlikTech, Inc. and currently known as Qlik Technologies, Inc.

5. Prior to filing Application '590, prior to any date of first use in commerce alleged by Applicant, and since at least as early as 1999, QlikTech adopted and began using the mark QLIK in connection with “Computer Software for accessing and analyzing database information” in International Class 09; and since at least as early as 2004, stored computer software programs for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; computer software systems comprising computers and software for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources” in International Class 9; “database management services, namely, input, processing, control of information selected for

databases” in International Class 35; and “computer programming, excluding programming for computer and video game software; design of computer software for business intelligence; maintenance, updating and improvement of computer software for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; research and development services regarding new business software products; consultant services regarding computer software systems for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; electronic data processing (EDP) consultant, namely, computer consultation in the field of electronic data processing; computer systems analysis; hiring-out of computer hardware and computer equipment, namely, rental of computer hardware and computer equipment” in International Class 42, all provided by QlikTech in interstate commerce throughout the United States. QlikTech is the owner of common law rights to the mark QLIK by virtue of its continuous and exclusive use of such goods and services in interstate commerce within the United States since as early as March 23, 1999.

6. On December 10, 2002, QlikTech received USPTO Registration No. 2,657,563 for the mark QLIK in connection with “Computer Software for accessing and analyzing database information” in International Class 9. See Exhibit A, a true and accurate copy of QlikTech’s registration certificate printed from the United States Trademark Document Retrieval (TDR) database, attached hereto and incorporated herein.

7. On July 11, 2006, QlikTech received USPTO Registration No. 3,114,427, based on International Registration No. 0839118, under section 66(a) of the Lanham Act, 15 U.S.C. § 1141(f)(a), with a priority date of May 14, 2004, for the mark QLIK in connection with “stored

computer software programs for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; computer software systems comprising computers and software for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources” in International Class 9; “database management services, namely, input, processing, control of information selected for databases” in International Class 35; and “computer programming, excluding programming for computer and video game software; design of computer software for business intelligence; maintenance, updating and improvement of computer software for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; research and development services regarding new business software products; consultant services regarding computer software systems for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; electronic data processing (EDP) consultant, namely, computer consultation in the field of electronic data processing; computer systems analysis; hiring-out of computer hardware and computer equipment, namely, rental of computer hardware and computer equipment” in International Class 42. See Exhibit B, a true and accurate copy of QlikTech’s registration certificate printed from the United States Trademark Document Retrieval (TDR) database, attached hereto and incorporated herein.

8. Prior to filing Application ‘590, prior to any date of first use in commerce alleged by Applicant, and since at least as early as 1994, QlikTech adopted and began using the mark QLIKTECH in connection with “computer software development, maintenance, and installation;

technical support services, namely, troubleshooting of computer software problems” in International Class 42; and since at least as early as 2004, “Recorded computer programs for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources” in International Class 9; “Providing of training, namely, computer education training” in International Class 41; and “Scientific and industrial research; computer programming” in International Class 42, all provided by QlikTech in interstate commerce throughout the United States. QlikTech is the owner of common law rights to the mark QLIKTECH by virtue of its continuous and exclusive use of such goods and services in interstate commerce within the United States since as early as January 30, 1995.

9. On June 22, 2004, QlikTech received USPTO Registration No. 2,855,677 for the mark QLIKTECH in connection with “computer software development, maintenance, and installation; technical support services, namely, troubleshooting of computer software problems” in International Class 42. See Exhibit C, a true and accurate copy of QlikTech’s registration certificate printed from the United States Trademark Document Retrieval (TDR) database, attached hereto and incorporated herein.

10. On May 16, 2006, QlikTech received USPTO Registration No. 3,093,386, based on International Registration No. 0840505, under section 66(a) of the Lanham Act, 15 U.S.C. § 1141(f)(a), with a priority date of Nov. 11, 2004, for the mark QLIKTECH in connection with “Recorded computer programs for combining, analyzing, and creating reports of business information, namely sales, accounts receivable, real estate, and purchasing information, derived from one or more sources” in International Class 9; “Providing of training, namely, computer education training” in International Class 41; and “Scientific and industrial research; computer

programming” in International Class 42. See Exhibit D, a true and accurate copy of QlikTech’s registration certificate printed from the United States Trademark Document Retrieval (TDR) database, attached hereto and incorporated herein.

11. Prior to filing Application ‘590, prior to any date of first use in commerce alleged by Applicant, and since at least as early as 1994, QlikTech adopted and began using the mark QLIKVIEW in connection with “Computer software using program logic, with no indexing, for accessing, analyzing and combining database information from variant relational databases in the field of business intelligence” in International Class 09, and since at least as early as 1995, in connection with “Input, processing, control, and/or retrieval of business information in databases for others; Processing and/or control of computerized business information; Retrieval of computerized business information; Data processing services, namely, processing computerized data, databases, and data file management relating to business management; Computerized retrieval of business information,” in International Class 35, and “Computer programming, excluding programming for computer and video game software; Design of computer software for business intelligence; Maintenance, updating and improvement of computer software for combining, analyzing, and creating reports of business information, namely, sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; Research and development services regarding new business software products; Consultant services regarding computer software systems for combining, analyzing, and creating reports of business information, namely, sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; Computer systems analysis; computer consultation in the field of electronic data processing,” in International Class 42, provided by QlikTech in interstate commerce throughout the United States. QlikTech is the owner of common law rights to the

mark QLIKVIEW by virtue of its continuous and exclusive use of such goods in interstate commerce within the United States since as early as January 30, 1995, and its continuous and exclusive use of such services in interstate commerce within the United States since as early as September 1, 1995.

12. On August 17, 2004, QlikTech received USPTO Registration No. 2,873,638 for the mark QLIKVIEW in connection with “Computer software using program logic, with no indexing, for accessing, analyzing and combining database information from variant relational databases in the field of business intelligence” in International Class 9. See Exhibit E, a true and accurate copy of QlikTech’s registration certificate printed from the United States Trademark Document Retrieval (TDR) database, attached hereto and incorporated herein.

13. On May 19, 2009, QlikTech received USPTO Registration No. 3,623,488 for the mark QLIKVIEW in connection with “Input, processing, control, and/or retrieval of business information in databases for others; Processing and/or control of computerized business information; Retrieval of computerized business information; Data processing services, namely, processing computerized data, databases, and data file management relating to business management; Computerized retrieval of business information” in International Class 35, and “Computer programming, excluding programming for computer and video game software; Design of computer software for business intelligence; Maintenance, updating and improvement of computer software for combining, analyzing, and creating reports of business information, namely, sales, accounts receivable, real estate, and purchasing information, derived from one or more sources; Research and development services regarding new business software products; Consultant services regarding computer software systems for combining, analyzing, and creating reports of business information, namely, sales, accounts receivable, real estate, and purchasing

information, derived from one or more sources; Computer systems analysis; computer consultation in the field of electronic data processing” in International Class 42. See Exhibit F, a true and accurate copy of QlikTech’s registration certificate printed from the Trademark Document Retrieval (TDR) database, attached hereto and incorporated herein.

14. Applicant’s date of filing and alleged date of first use in commerce are subsequent to the dates of first use in commerce in QlikTech’s Registration Nos. 2,657,563, 3,114,427, 2,855,677, 2,873,638 and 3,093,386.

15. QlikTech has invested great time, effort, and resources in the development of its QLIK, QLIKTECH, and QLIKVIEW marks (collectively, the “Qlik Marks”), and QlikTech has developed valuable goodwill in its family of marks. The unique goods and services listed in QlikTech’s Registration Nos. 2,657,563, 3,114,427, 2,855,677, 2,873,638 and 3,093,386, and the goods and services that are collateral and related to such goods and services (the “Goods and Services”), have become widely recognized as emanating from QlikTech and as maintaining only the highest quality standards.

16. The Goods and Services under the Qlik Marks are also designed to be used with mobile telephones and mobile Internet devices.

17. QlikTech has enjoyed substantial sales of the Goods and Services under the Qlik Marks in the United States.

18. QlikTech has expended substantial sums on advertising, marketing, and promoting its Goods and Services under the Qlik Marks. The Qlik Marks have been used in television broadcasts and commercials, in print advertisements, on the Internet, on the software products that QlikTech sells and distributes to its customers and in numerous signs, banners, and promotional materials at events serviced by QlikTech.

19. By virtue of the extensive advertising, marketing, promotion and sales of QlikTech's Goods and Services under the Qlik Marks, and the high quality and standards of those Goods and Services, the Qlik Marks have come to represent valuable goodwill associated with QlikTech, and QlikTech has gained a most valuable reputation for its Qlik Marks.

20. The goods for which Applicant seeks registration in Application '590 are substantially similar to the QlikTech Goods and Services. Applicant is offering software related goods, applications and mobile phone services that are substantially similar to the software goods and services of QlikTech.

21. The QIK mark is nearly identical to and confusingly similar to the Qlik Marks.

22. Applicant's goods are likely to be sold to the same consumers and in the same channels of trade as QlikTech's Goods and Services.

23. Applicant is likely to advertise in some of the same media and use advertisements that are substantially similar to those of QlikTech.

24. Any use of the mark QIK by Applicant is without the consent of QlikTech.

25. If Applicant is granted registration of its proposed QIK mark, it will obtain the *prima facie* exclusive right to use such mark, and such registration will impair, diminish and dilute QlikTech's goodwill and rights in its Qlik Marks, causing QlikTech irreparable injury.

26. Applicant's use and Application for the QIK mark has been with constructive notice of QlikTech's prior use of and registration of the Qlik Marks.

27. Applicant's proposed QIK mark is confusingly similar to QlikTech's Qlik Marks, and use of the QIK mark by Applicant on the goods specified in Application '590 is likely to cause confusion, mistake or deception that Applicant's goods are endorsed, sponsored, or

approved by QlikTech within the meaning of section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d).

28. If Applicant is permitted to register its mark for the goods specified in Application '590, QlikTech will be damaged by reason of the confusion and similarity between Applicant's mark and QlikTech's Qlik Marks. Customers familiar with QlikTech's Qlik Marks would be likely to buy Applicant's goods because of the confusion, and QlikTech would lose sales as a result. Any defect, objection, or fault found with Applicant's goods marketed under its mark would necessarily reflect upon and injure the reputation which QlikTech has established for its Goods and Services marketed under its marks.

PRAYER FOR RELIEF

WHEREFORE, QlikTech prays that:

1. Application Serial No. 77/812,590 be rejected and that registration of the mark QIK for the goods specified therein be refused.

QlikTech hereby gives notice under Rule 2.122(d) of the Rules of Practice that after hearing and in any appeal on this opposition proceeding, it will rely on its registrations which are annexed as Exhibits A, B, C, D, E and F to this Notice of Opposition as evidence in support of this Notice of Opposition.
