Motion, with Consent by the Opposer, to Amend Application

This application amendment is the subject of a single inter partes proceeding before the Board and is therefore governed by 37 CFR § 2.133. This amendment is submitted with the opposer's consent, and now requires the Board's approval.

The proposed amendment is in accordance with the applicable rules and statutory provisions (37 CFR § 2.71-37 CFR § 2.75), and as a result the request is normally approved by the Board. See TBMP § 514.02. This amendment is directed exclusively to the description of goods in class 9. In particular, both parties consent that clarifying and limiting the description of the goods from:

Computer software for the management of
application delivery controllers through computer
network provisioning systems

to

Computer software for virtual data centers for the
management of application delivery controllers
through computer network provisioning systems,
namely, an Application Delivery Controller (ADC)
management plug-in for integration with data
center management systems

will settle this single inter partes proceeding before the Board.

We look forward to receiving the Board's approval regarding this amendment to the description of goods for this application.

Respectfully submitted,

Roach Brown McCarthy & Gruber, P.C.
