Carefusion 2200, Inc.

v.

entrotech, inc.

**George C. Pologeorgis,  
Interlocutory Attorney:**

Proceedings are **suspended** pending disposition of opposer's motion to compel filed on February 24, 2014, except as discussed below.<sup>1</sup> The parties should not file any paper which is not germane to the motion to compel. *See* Trademark Rule 2.120(e)(2).

This suspension order does **not** toll the time for either party to make any required disclosure, to respond to discovery requests which had been duly served prior to the filing and service of the motion to compel, or to appear for a discovery deposition which had been duly noticed prior to the filing and service of the motion

<sup>1</sup> The Board notes that the certificate of service of opposer's motion to compel indicates that the motion was served by electronic transmission upon applicant's counsel. The Board assumes, therefore, that the parties have stipulated to accept service of papers by email. In light of such assumed stipulation, the parties may no longer avail themselves of the additional 5 days for service provided under Trademark Rule 2.119(c) that is afforded to parties when service is made by first-class or express mail. *See McDonald's Corporation v. Cambridge Overseas Development, Inc.*, 106 USPQ2d 1339 (TTAB 2013). Accordingly, applicant's response to opposer's motion to compel is due by **March 11, 2014**.
