By the Trademark Trial and Appeal Board:

On June 27, 2014, the parties filed a stipulation to amend applicant's involved application Serial No. 85658751 and to dismiss the opposition without prejudice upon entry of the amendment. By the proposed amendment applicant seeks to add the wording "**all the foregoing not related to sports or a sports team, league, mascot or stadium**" at the end of the identification of goods in both International Classes 12 and 20..

The amendments are limiting in nature as required by Trademark Rule 2.71(a). Because opposer consents thereto, they are approved and entered. *See* Trademark Rule 2.133(a).

In view of such entry, and because applicant has consented in writing to the withdrawal of the opposition, the opposition is dismissed without prejudice, in accordance with an agreement between the parties. *See* Trademark Rule 2.106(c).
