NOTICE OF OPPOSITION

Commissioner for Trademarks
P.O. Box 1451
Alexandria, Virginia 22313-1451

TO THE TRADEMARK TRIAL AND APPEAL BOARD:

Marine Acquisition Corp., a Delaware corporation having an address of 600 Fifth Avenue, 24th Floor, New York, New York 10020 (hereinafter “Opposer”) believes that it has been or will be damaged by registration of the mark shown in application Serial No. 79/115,255 (hereinafter “the ‘255 application”) and hereby oppose same.

To the best of Opposer's knowledge, the current owner of the '255 application is Fugro N.V. (hereinafter "Applicant"), a "Naamloze Vennootschap", or public company, organized under the laws of the Netherlands, having an address of Veurse Achterweg 10, NL-2264 SG Leidschendam, Netherlands. An extension of time to oppose was timely filed and granted. This Notice of Opposition is being filed within the extension period and thus is timely.

As grounds of Opposition, it is alleged that:

1. Opposer is in the business of the design, manufacture, and supply of marine equipment and related goods and services.
2. Since at least as early as 1984, Opposer has provided goods and services in the marine equipment market under the mark SEASTAR.
3. Opposer maintains a website at <http://seastarsolutions.com/>, at which consumers can view and purchase marine equipment and related goods and services. See Exhibit 1, wherein a screenshot of a page of Opposer's website is provided on which Opposer's SEASTAR mark is displayed prominently.
4. Opposer is the owner of U.S. Trademark Registration No. 1,382,900 (hereinafter "the '900 registration") for the mark SEASTAR as applied to hydraulic fluid in International Class 001; gauges and instruments for boats, namely, tachometers and oil pressure gauges, in International Class 009; and hydraulic steering units for boats and components thereof - namely, helm pumps, linear actuating cylinders, trim tabs, stern-drive cylinders and outboard cylinders, in International Class 012. A current

status and title copy of Registration No. 1,382,900 is attached as Exhibit 2. The registration claims a first use date of January 1984 and a first use in commerce date of January 1984. The Section 8 and the Section 9 were accepted June 24, 2006, and the mark of the '900 registration is still in use on or in association with the goods and services. The '900 registration is now incontestable.

5. On May 14, 2012, Applicant filed an application under Section 66(a) of the Lanham Act, Application Serial No. 79/115,255 (hereinafter "the '255 application"), seeking registration of the mark SEASTAR as applied to telecommunications and data communication, namely, satellite transmission of location and navigation data, in International Class 038; and positioning and marine navigation services via satellite and other communication networks, in International Class 039.
6. The '255 application claims a priority date of February 6, 2012.
7. Among the goods offered by Opposer under the SEASTAR mark, Opposer manufactures and distributes GPS instruments. See Exhibit 3, wherein a screenshot of Opposer's website is provided. Since at least 2010, Opposer, through a predecessor in interest, has promoted and continues to promote GPS instruments. See Exhibit 4.
8. Since long prior to Applicant's priority date, Opposer has used, and continues to use, the mark SEASTAR in association with its marine equipment and related goods and services, including GPS instruments.

9. Upon information and belief, the consuming public is likely to view services provided under Applicant's SEASTAR mark as approved, endorsed or sponsored by Opposer, or that Opposer is a source of Applicant's services, or that the services of Applicant are in some other way associated with Opposer, all to Opposer's injury and harm.
10. Applicant's '255 application for the mark SEASTAR was filed May 14, 2012, claiming a priority date of February 6, 2012.
11. Upon information and belief, Applicant has not used the SEASTAR mark in United States commerce on or in association with the identified services.
12. Opposer's use of the mark SEASTAR (hereinafter "Opposer's Mark") identified in Opposer's pleaded registration predates the priority date of Applicant's SEASTAR application.
13. By virtue of its prior use of Opposer's Mark on at least the goods identified in the '900 registration, Opposer has priority with regard to use of the mark SEASTAR as applied to Applicant's SEASTAR application.
14. Upon information and belief, Opposer has been or will be damaged by Applicant's use of the mark of the '255 application because such use will support and assist Applicant in the confusing and misleading use of its mark, and will give color of exclusive statutory rights in Applicant in violation and derogation of the prior superior rights of Opposer.

COUNT I – LIKELIHOOD OF CONFUSION

15. The allegations of paragraphs 1- 14 are incorporated herein.
16. The '255 application filed by Applicant for the mark SEASTAR is identical in appearance, sound, connotation and commercial impression to Opposer's Mark, in that the '255 application and Opposer's Mark are for SEASTAR.
17. The services of the '255 application are related to the goods identified in the '900 registration of Opposer, and to the goods and services with which Opposer has used Opposer's mark and thus acquired trademark rights in SEASTAR, in that Applicant's identified services include marine related telecommunication and navigation services.
18. There are no restrictions on the channels of trade recited in the '255 application. As such, Applicant's services are presumed to be offered in all channels of trade in which the identified services are generally offered. Such channels of trade include the channels of trade in which Opposer offers its marine equipment and related goods and services under Opposer's Mark.
19. Given Opposer's prior superior rights in Opposer's Mark and the '900 registration, Applicant's use and registration of SEASTAR is likely to cause consumers to mistakenly believe that Applicant's services are approved, endorsed or sponsored by Opposer, or that Opposer is the source of Applicant's marine related services, or that the services of Applicant are in some other way associated with Opposer, all to Opposer's injury and harm.

COUNT II - DILUTION

20. The allegations of paragraphs 1-14 are incorporated herein.
21. Opposer's Mark SEASTAR is now famous and became famous prior to Applicant's filing of the '255 application and prior to Applicant's priority date.
22. Opposer's SEASTAR mark became famous long prior to any date available to Applicant.
23. Upon information and belief, the fame of Opposer's SEASTAR mark is substantially nationwide.
24. Applicant's SEASTAR mark is visually and phonetically the same as Opposer's SEASTAR mark, and provides the same commercial impression as Opposer's SEASTAR mark.
25. Upon information and belief, registration of Applicant's SEASTAR mark is likely to dilute the distinctiveness of Opposer's SEASTAR mark by blurring the considerable source-identifying power of Opposer's SEASTAR mark.
26. By reason of the foregoing, Opposer has suffered, or will suffer, harm by Applicant's use of the SEASTAR mark.

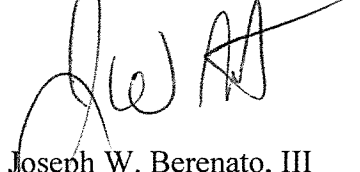

WHEREFORE, it is respectfully requested that this Opposition be sustained and that the registration sought by the Applicant in application Serial No. 79/115,255 be denied. The Office

is authorized to debit Deposit Account No. 50-0548 for the fee due for filing the Notice of Opposition and any other associated fees.

Please recognize as attorneys for Opposer in this proceeding Mr. Joseph W. Berenato, III and the law firm of Berenato & White, LLC, 6550 Rock Spring Drive, Suite 240, Bethesda, Maryland, 20817.

Please address all communications to Mr. Joseph Berenato, III at the above-noted address.

Respectfully submitted,

Joseph W. Berenato, III

GPS Speedometers

The GPS Range of Instruments

These GPS speedometers provide accurate speed over ground readings and heading information all in one attractive package. Available in various speed ranges to meet your application, the GPS speedometer is offered in a number of popular styles to match the colors in your boat like Premier Pro, White Premier Pro, Omega, Arctic and Eclipse instrument lines.

Our GPS speedometer can be connected to an existing NMEA 0183 receiver if you have one already installed or you can purchased separately our custom design GPS receiver/antenna. This product is ideal for all speed applications and is particularly useful for slower speed craft and higher speed craft where traditional speed sensors like pilot tubes and paddlewheels do not perform well. An added advantage is there is nothing in the water to corrode or break.
