Opposition No. 91217329

Cordis Corporation

v.

AngioDynamics, Inc.

Wendy Boldt Cohen, Interlocutory Attorney:

On September 9, 2014, applicant filed a proposed amendment to its application Serial No. 85655168. Thereafter, on September 29, 2014, opposer filed a motion to extend deadlines wherein it also provided its consent to applicant's proposed amendment.¹

By the proposed amendment applicant seeks to amend the identification of goods in International Class 10 as follows:

from

"Non-automated medical devices, namely, catheters, implantable ports, and access needles"

to

"Non-automated medical devices, namely, peripherally inserted central catheters, implantable ports, and access needles for use with the foregoing."

¹ The Board notes applicant's consented motion for an extension of time for filing its answer (filed September 29, 2014). In view of the Board's order herein, the motion is moot and will receive no further consideration from the Board.

Inasmuch as the amendment is clearly limiting in nature as required by Trademark Rule 2.71(a), and because opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

If the amendment resolves this proceeding, opposer is allowed until thirty days from the mailing date of this order to file a withdrawal of the opposition, failing which the opposition will go forward on the application as amended. *See* Trademark Rule 2.106(c).

If no response is filed, proceedings will be resumed and dates reset, as appropriate. Proceedings are otherwise suspended.
