The VACATION ISSUE

With the August vacation season stretching ahead of us, we are happily shifting our attention to the joys of holiday dressing: cool kaftans, body-boosting bikinis, sexy sandals and easy summer dresses – all pieces guaranteed to deliver instant getaway chic.

The Edit's fashion team jetted off to the Croatian coast to shoot Solange Knowles – singer, style muse, super traveler and cool little sister to Beyoncé – in summer's most beautiful cover-ups, while our travel style special sees us escape to Capri, Sardinia and beyond with designers Michael Kors, Melissa Odabash and Miguelina Gambaccini, who share their expert advice on what to wear where.

We are also thrilled to present a very glamorous guest contributor this week, actress Penélope Cruz,

who, on the eve of the launch of her sultry underwear collection, L'Agent, writes exclusively about her love affair with lingerie. In seductive black and with a sense of Mediterranean drama, these covetable underpinnings will show off your tan to perfection.

SKIN COLOR MATTERS

Hyperpigmentation can affect all skin tones—but it runs rampant in those with darker skin. The reason: the darker the skin, the more active the melanocytes are because of naturally high melanin levels. "The cause of it doesn't influence the severity of your discoloration but the severity of your hyperpigmentation is shaped by your skin tone," says Dr. Tanzi. Hyperpigmentation can affect lighter skin (the discoloration is usually pink or red), but it is more prevalent in those with darker skin who are of Asian, Mediterranean or African descent, especially when the skin is exposed to the sun.

Summer sun protection, fragrances celebrating mom, our SXSW beauty recap with Kevyn Aucoin + more

INSIDE CONTENTS <

NM Beauty Cue

SPOTLIGHT ON: HAMPTON SUN

For an insider's take, we chatted with founder SALVATORE PLAZZOLLA about SPF myths, Summers in Southampton, and why sunscreen can be fabulous, too.

What started your devotion to sun protection?
Poolside at our house in Southampton, the idea came after a round of mojitos. The impetus was a basket filled with sunscreens; not a single one looked or felt luxurious, nor offered benefits beyond protection. Thus, Hampton Sun was born. Our standards are high: the finest ingredients, the silkiest formulas, the most advanced technology, the chicest packaging, and the highest protection with skin care benefits.

How does Southampton culture influence your collection?
The Hamptons is where the beauty of nature meets casual elegance. There's nothing like a beautiful sunny day spent at the beach, strolling through town, or lounging by the pool. When in the Hamptons, you can enjoy the best qualities of life, but with a uniquely subtle sophistication. That's what we've bottled up.

What's new this Summer?
A beautiful SUNLESS TANNING MIST. It takes everything lovely about our SUNLESS TANNING GEL—streak-free finish, gorgeous scent, naturally stunning color—and puts it into a fast-drying clear mist. It's genius; just glow and go!

AFTER SUN DAILY MOISTURIZER

How do you decide what active ingredients to use?
We work with our world-renowned chemist to ensure every ingredient is carefully chosen for its effectiveness and feel. We make selections keeping in mind high-powered protection and water resistance, as well as the ingredient's ability to mix well with vitamins and moisturizers. Our dedication to advanced SPF technology is noticed not only by our loyal customers, but also by top New York City dermatologist Lance Brown, M.D. who highly recommends our products.

Common misconception about sun protection?
Some people believe sunscreen should only be worn in the Summertime, when actually you should be protected from the sun year-round. Our OIL-FREE CONTINUOUS MISTS and SPF 15 SUPER HYDRATING FACE CREAM are easy ways to protect yourself 365 days a year. Another misconception is that all sunscreens feel tacky and goopy, but we pride ourselves on the incredible experience of wearing our products. To those most wary-of-SPF naysayers: we promise, you'll love it.

Can you tell us about the Privet Bloom?
The ubiquitous Hampton's flower, the ever-fragrant Privet Bloom, is our signature scent. Named after the flowered privacy hedges synonymous with the Hamptons lifestyle, it's a delicate, captivating scent. Unlike any other floral aroma, it touches upon crisp, green notes unexpected in a "floral" fragrance. It's reminiscent of a perfect Summer day in the Hamptons.

Favorite beach?
Absolutely Cooper's Beach. It's a Hampton's classic and we feel right at home there.

What's in your beach tote?
My Havaianas, favorite baseball cap, and our SPF 35 CONTINUOUS MIST SUNSCREEN. It's so easy to apply and I still find the scent intoxicating. And of course, my iPhone® with all my music. There's nothing more relaxing than listening to my favorite tunes watching the waves crash.

3. **Best New Product** ★★★★★

Posted by Molly on 25th Jun 2014

The quickest, easiest way to feel tan without the sun and no other product comes close to it! Hits every part of my body and I never get streaks or unevenness!

1. **LOVE IT!** ★★★★★

Posted by Unknown on 10th Apr 2014

This is the most effective sunblock I have used thus far. I am very pale skinned, and I burn very easily. After a all day on the beach in Florida, I was not burnt at all! I have never used a sunblock product that worked so incredibly well and smelt so fantastic!

1. **Excellent product!** ★★★★★

Posted by Tara on 14th Feb 2014

This sunscreen by far is the best! The texture is so light and creamy it made my skin feel so smooth. I cant believe someone came out with such a quality sunscreen. I will never use another sun brand!

3. **Finally!** ★★★★★

Posted by Lisa on 14th Feb 2014

I have three children and spend a lot of time on the beach and have been looking for a sunscreen company for years that offered a high quality product. I took the chance to purchase the SPF 70 Kids and fell in LOVE. My kids were so happy of the pleasant scent and I was excited to see that they didn't burn. This product is definitely a keeper!! I have turned every one in my kids school on this this amazing product. Love this company!

1. **BETTER THAN JERGENS!** ★★★★★

Posted by Jaymie on 25th Jun 2014

Couldn't believe the immediate effects!! I saw results the next day!!!!
Jergens takes at least a week, which is absurd! I love love love this
sunless tanning gel!

5. **FINALLY** ★★★★★

Posted by Gigi on 12th Jun 2015

This product is worth every penny. I cant tell you how long I have been trying to get away from the tanning beds, and looking for a self tanner. Everything I have tried has left streaks, lasted maybe a day, and just felt gross. The Hampton Sun tan develops so quickly and kept me feeling fresh and attractive for weeks (with a few reapplications of course).
THANK YOUUUUUUUUU

Hi Sal,

I know that this brand was on your radar a few weeks ago, and it was on our radar last year during the trademark situation with Hamptons Baby, but I think that Hamptons Glow needs to get more of our attention, they have expanded from just tanners to SPF products, as well. I'm not sure how they're getting away with saying "sunblock" – by the way, that's a huge No-No from the FDA!

Best,

Chanel This

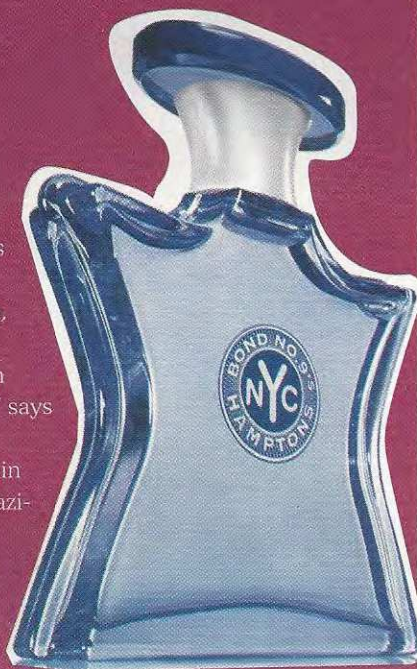

This summer, when it comes to toes, the question on everyone's lips will be "What shade of coral is best for my tootsies?" We have found the absolute must-apply nail polish of the season, **Chanel Orange Blossom** (\$17). Don't be afraid of the bright color in the bottle, it goes on a tad lighter and requires a few coats to achieve true brightness. That is the beauty of it—you choose the shade. Trust us, we have had so many compliments that we are beginning to wonder if the *Hamptons* staff has a foot fetish! Available at *Saks Fifth Avenue*, 1 Hampton Road, Southampton, 283-3500.—J.G.

“What shade of coral is best for my tootsies?”

Love Potion No. 9

Long known for its fragrance-mapping of New York's most glamorous and most infamous neighborhoods, Bond No. 9 has just claimed the *Hamptons* as the city's easternmost outpost with its latest potion, **Bond No. 9 Hamptons** (\$110 for 1.7 ounces). "[The *Hamptons*] are as much an enclave as SoHo or the Upper East Side," says Laurice Rahme, the brand's charismatic founder and president, "more so on certain summer weekends." Designed to linger lazily, Bond No. 9 Hamptons is definitely a wonderfully leisurely kind of scent. Savory green top-notes, followed by hints of floral in the middle, culminate in soft, woody base-notes, as if tracing the natural course of a perfect Sunday in the *Hamptons*. We can't get enough! *Bond No. 9*, 9 Bond Street, NYC, 212-228-1732.—BIR GANGULY

Hedgerow Glow

While lounging poolside at their Southampton estate, Grant Wilfley, casting director, and Salvatore Piazzolla, real estate mogul, noticed a certain "something" missing from their sun-care routine. It's that same something that makes Jimmy Choos worth \$600—delicious, covetable elegance. And so the duo, with the guidance of some big-name insiders, dove into the beauty industry with **Hampton Sun** (\$32-\$40), a vitamin-packed, hypoallergenic, SPF-fortified spray they like

to think of as the "Michael Kors" of the sun-safe world; crisp, clean, and reeking of opulence. And what's more luxurious than the *Hamptons*? "It's a posh community with an upscale crowd that knows quality," says Wilfley. And did we mention how Hampton

Sun's signature scent, *Privet Bloom*, came about? It was inspired by the smell of East End hedges. Available at *East Hampton Pharmacy*, 106 North Main Street, East Hampton, 324-3887.

REV IT UP

Summer is the season for bronzers, and you can bet that we have road-tested them all. What surprised us most is that, from fair skin to perma-tan, only one bronzer was universal in achieving that J.Lo glow—**Revlon Bronze All-Over in Glow** (\$6.99). Don't be intimidated by the gold color—it looks great on any skin tone. You won't tell, we won't tell. Available at drugstores *Hamptons-wide*.—J.G.
