EXHIBIT A

**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

CUMMINS ENGINE IP, INC.,

Opposer,

v.

HONEYWELL INTERNATIONAL, INC.,

Applicant.

Opposition No. 91231360

Application No. 87036427

**STIPULATION TO AMEND APPLICATION, SUSPEND THE OPPOSITION, AND TO
DISMISS OPPOSITION UPON ENTRY OF AMENDED DESIGNATION OF GOODS**

The parties, by their undersigned attorneys, hereby stipulate that the above application be amended so that the complete identification of goods in Class 9 will read as follows:

Class 9: Electrical instruments, namely, devices employing computer software for use in acquiring, analyzing and displaying rotating rotor and propeller blade track and balance data, from helicopter and fixed wing aircraft to determine blade out-of-track or unbalance for use in connection with hardware boxes and sensors for helicopter aircraft part diagnostics

Applicant is adding the limiting language "in connection with hardware boxes and sensors for helicopter aircraft part diagnostics" to the identification of goods in Class 9.

The parties respectfully point out that because the amendment merely limits, rather than alters or expands, the identification of goods, this stipulation can be approved by the Board and need not be submitted to the Patent and Trademark Office Examining Attorney. The parties respectfully request that

the present opposition proceeding be suspended, pending the Board's decision upon entry of the amended designation of goods.

The parties further respectfully request that if the amended designation of goods is entered by the Board, that the present opposition proceeding be dismissed, and that the mark be allowed.

In the event that amended designation of goods is not entered, the parties request that the suspension be vacated, and that the opposition proceeding resume with a resetting of the discovery and trial periods.

Respectfully submitted,

LEASON ELLIS LLP
