NOTICE OF OPPOSITION

Opposer, Micron Technology, Inc., (“Opposer”) a Delaware corporation with a principal place of business at 8000 South Federal Way, Boise, Idaho 83706, believes that it will be damaged by registration of the mark MICRONAUT shown in Application Serial No. 87/869,523. Opposer hereby opposes same pursuant to Section 13(a) of the Lanham Trademark Act of 1946 (“Lanham Act”), 15 U.S.C. § 1063(a).

As grounds for opposition, Opposer alleges as follows:

1. Founded in 1978, Opposer is a global leader in the semiconductor industry, manufacturing innovative memory and storage solutions that have transformed how the world uses information. Through its worldwide operations, Micron manufactures and markets semiconductor memory components, modules and applications for use in leading-edge computing, consumer, networking and mobile

products. Detailed information on Micron and its products and services may be found at its corporate website at www.micron.com.

2. Opposer is the owner of valid and subsisting United States Trademark Registration No. 2,142,670 (the “670 Registration”) for the trademark MICRON (the “670 Mark”) for “semiconductor devices” in International Class 9, registered on the Principal Register on March 10, 1998. Opposer has used the ’670 Mark in interstate commerce in the United States continuously since July 1982. As a result, the ’670 Registration has become incontestable within the meaning of Section 15 of the Lanham Act, 15 U.S.C. § 1065. Attached as Exhibit 1 is a true and correct printout from the United States Patent and Trademark Office electronic database showing the current status and title of the registration as of November 27, 2018.

3. Opposer is also the owner of valid and subsisting United States Trademark Registration No. 2,732,782 (the “782 Registration”) for the trademark MICRON (the “782 Mark”) for “printed circuit boards incorporating semiconductor devices” in International Class 9, registered on the Principal Register on July 1, 2003. Opposer has used the ’782 Mark in interstate commerce in the United States continuously since January 15, 1987. As a result, the ’782 Registration has become incontestable within the meaning of Section 15 of the Lanham Act, 15 U.S.C. § 1065. Attached as Exhibit 2 is a true and correct printout from the United States Patent

and Trademark Office electronic database showing the current status and title of the registration as of November 27, 2018.

4. Opposer is also the owner of valid and subsisting United States Trademark Registration No. 3,174,793 (the “793 Registration”) for the service mark MICRON (the “793 Mark”) for “custom manufacture of memory and imaging semiconductor devices” in International Class 40 and “custom design of memory and imaging semiconductor devices” in International Class 42, registered on the Principal Register on November 21, 2006. Opposer has used the ’793 Mark in interstate commerce in the United States continuously since November 26, 2002. As a result, the ’793 Registration has become incontestable within the meaning of Section 15 of the Lanham Act, 15 U.S.C. § 1065. Attached as Exhibit 3 is a true and correct printout from the United States Patent and Trademark Office electronic database showing the current status and title of the registration as of November 27, 2018.

5. Opposer is also the owner of valid and subsisting United States Trademark Registration No. 2,660,429 (the “429 Registration”) for the trademark  (the “429 Mark”) for “semiconductor devices and printed circuit boards incorporating such semiconductor devices” in International Class 9, registered on the Principal Register on December 10, 2003. Opposer has used the ’429 Mark in interstate commerce in the United States continuously since December 1, 2000. As a result, the ’429 Registration has become incontestable within the meaning of Section 15 of the Lanham Act, 15 U.S.C. § 1065. Attached as Exhibit 4 is a true and correct

printout from the United States Patent and Trademark Office electronic database showing the current status and title of the registration as of November 27, 2018. The '670 Mark, the '782 Mark, the '793 Mark, and the '429 Mark, are collectively referred to as the "MICRON Marks."

6. As a result of its widespread, continuous, and exclusive use of the MICRON Marks to identify the source of its high-quality semiconductor goods and related services and Opposer as their source, Opposer owns valid and subsisting federal statutory and common law rights to the MICRON Marks.

7. Opposer's MICRON Marks are distinctive to both the consuming public and Opposer's trade.

8. Opposer has expended substantial time, money, and resources marketing, advertising, and promoting the goods and services sold under the MICRON Marks and has developed valuable goodwill associated with the MICRON Marks.

9. Upon information and belief, Applicant Object Computing Inc. DBA OCI, a Missouri corporation with a business address at 12140 Woodcrest Executive Dr., Suite 250, St. Louis, Missouri 63141, ("Applicant") filed trademark Application Serial No. 87/869,523 (the "Pending Application") to register the mark MICRONAUT for "downloadable free open source software used to build micro services" in International Class 9 (the "Pending Mark").

10. Applicant filed the Pending Application on April 9, 2018, based on an intent to use the Pending Mark under section 1(b). Upon information and belief, Applicant has not used the Pending Mark in U.S. commerce.

11. Opposer's MICRON Marks have priority over Applicant's Pending Mark because Opposer's use and/or registration dates predate Applicant's filing date or any other date on which Applicant may rely for purposes of priority.

12. The pending MICRONAUT mark is confusingly similar to Opposer's MICRON Marks in both appearance, sound, connotation, and commercial impression such that prospective purchasers are likely to be confused, mistaken, or deceived as to the source, sponsorship, or association of Applicant and Opposer and their respective goods and/or services.

13. The goods identified in the Pending Application are substantially similar, or closely related, to the goods and services Opposer offers under its MICRON Marks and are likely to travel in the same trade channels such that prospective purchasers are likely to believe that they emanate from a single source.

14. The Proposed Mark is barred from registration because it consists of or comprises a mark which so resembles Opposer's previously used and registered MICRON Marks as to be likely, when used in connection with the alleged goods of Applicant, to cause confusion, mistake, or deception within the meaning of 15 U.S.C. § 1052(d).

15. Opposer will be damaged by registration of Applicant's proposed mark as a result of the confusion, mistake, or deceit as to source, sponsorship, or association that will likely occur.

WHEREFORE, Opposer prays that its Opposition be sustained and that the registration of the Pending Application be refused.

DATED this 27th day of November, 2018.
