Opposition No. 91245790

Schott AG

v.

Scott Electronics, Inc.

By the Trademark Trial and Appeal Board:

On January 29, 2020, Opposer filed the parties' stipulation containing Applicant's proposed amendment to its application Serial No. 87675611, with Opposer's consent, and Opposer's withdrawal of the opposition with prejudice, contingent upon entry of the amendment.

By the proposed amendment, Applicant seeks to amend the identification of goods in International Class 9 as follows (additions shown in bold).

From:

Electrical components, namely, electrical cables, electrical connectors, coaxial cables, ribbon cables, shielded cables, unshielded cables, electrical cable subassemblies, cable wiring harnesses, and electrical power supplies

To:

Electrical components, namely, electrical cables, electrical connectors, coaxial cables, ribbon cables, shielded cables, unshielded cables, electrical cable subassemblies, cable wiring harnesses, and electrical

power supplies; all of the foregoing not made of or containing glass for the assembly and repair of electronic devices for consumers.

Because the amendment is limiting in nature, as required by Trademark Rule 2.71(a), and because Opposer consents to its entry, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

The contingency in Opposer's withdrawal having now been met, the opposition is dismissed with prejudice in accordance with the parties' agreement.
