Application No. 79217670

**APPLICANT'S OPPOSITION TO OPPOSER'S  
MOTION TO COMPEL APPLICANT'S INITIAL DISCLOSURES**

Applicant served its initial disclosures on Opposer on July 6, 2019 along with 58 pages of documents detailing third-party registrations and applications incorporating the designation NOVA in the relevant field. See Exhibit 1. Applicant also served its first set of discovery on Opposer on that day and reminded Opposer that Opposer had not served its initial disclosures. See Exhibit 2.

Opposer did not object to Applicant's disclosures until Applicant again reminded Opposer about Opposer's failure to serve its initial disclosures. See Exhibit 3. On July 22, 2019, the day before the deadline for filing a motion to compel the disclosures, Opposer sent Applicant a single communication, stating for the first time that it believed Applicant's initial disclosures were insufficient as to witness and category identification. See Exhibit 4. This single communication is insufficient to demonstrate that a good faith effort was made by Opposer to resolve discovery issues. See Trademark Rule 2.120(f), TBMP §523.02, and *Hot Tamale Mama...and More, LLC v. SF Investments, Inc.* 110 USPQ2d 1080 (TTAB 2014).

Even though Applicant's disclosures identified a potential witness by name and four categories of documents (relating to Applicant's application, to Applicant's mark, to Opposer's asserted registration, and to third-party use, registrations and applications for NOVA-formative marks) and included 58 pages of documents relative to such third-party registrations and applications (see Exhibit 1), Opposer complained about Applicant's disclosures.

Opposer, in its single communication to Applicant on the deficiencies, objected to (1) Applicant's disclosures not including specific names for the "one or more officers or employees of Opposer" with knowledge of Opposer's marks and with knowledge of third-party use/registrations incorporating the designation NOVA and (2) the categories of documents referenced by Applicant. See Exhibit 4. Opposer made such objections on July 22, 2019 even though Opposer had not made any disclosures at all.

On the July 23, 2019 deadline to compel initial disclosures, Opposer finally served its own disclosures, improperly marking them as "confidential."<sup>1</sup> See Exhibit 5. Of note, Opposer included a reference to "unknown individuals" in its own disclosures. See end of unnumbered page 3 of Exhibits 5 and 6.<sup>2</sup> In response to Opposer's single communication to Applicant on the purported deficiencies of Applicant's disclosures, Applicant explained that the additional witness names were not provided as they are witnesses of **Opposer**, noting that their identity is not yet known to Applicant, and reminded Opposer that Opposer's own disclosures reference "unknown individuals." See communication at Exhibit 7. Applicant also noted that a category corresponding

---

<sup>1</sup> In response to Applicant's comments on the improper confidentiality designation, Opposer re-served Opposer's initial disclosures without the confidentiality marking. See Exhibit 6.

<sup>2</sup> Applicant is not seeking to compel Opposer's disclosures, but attaches Opposer's disclosures here to show that Opposer is improperly complaining of "deficiencies" that are present in Opposer's own disclosures.

to Applicant's mark (that is challenged in this proceeding) is a sufficient category. Indeed, Opposer's disclosures reference its own registration (forming the basis of this opposition) as a category. See Paragraph 1 of unnumbered page 4 of Opposer's initial disclosures at Exhibits 5 and 6.

While Applicant believes Opposer's objections were made merely for the sake of objecting, in the spirit of cooperation, Applicant on July 23, 2019 supplemented its disclosures, noting that the documents relative to the mark of Applicant's application are located at the Trademark Office, Opposer's office and Opposer's counsel's office. See Exhibit 8.

Opposer did not contact Applicant in response to Applicant's supplemental disclosures. Instead, despite contacting Applicant only a **single time** to complain of perceived deficiencies in Applicant's disclosures, Opposer moved forward with a Motion to Compel "full and complete initial disclosures by Applicant." Opposer's single July 22, 2019 communication to Applicant does not amount to a good faith effort to resolve discovery issues and this motion unnecessarily taxes the resources of the Board and Applicant.

Because Opposer did not act in good faith to resolve issues relative to Applicant's disclosures, because the parties are expected to supplement their initial disclosures as the parties move forward in the proceeding, because the purported infirmities of which Opposer complains are also present in Opposer's own late-produced disclosures (referencing "unknown individuals" and Opposer's own mark/registration as a document category), and because Applicant's initial disclosures and supplemental initial disclosures meet both the letter and spirit of Fed.R.Civ.P. 26(a), Applicant requests that Opposer's Motion to Compel Applicant's disclosures be denied and that the Board order Opposer to seek leave from the Board prior to filing any additional discovery motions.

Dear Greg:

Please find attached Applicant's Initial Disclosures, including Applicant's document production of active third-party NOVA marks in the relevant space, and Applicant's first set of discovery to Opposer.

We note that we have not yet received your Initial Disclosures. In addition, although we did informally meet by phone earlier to discuss settlement, we have not heard from you on completing the settlement/discovery conference. Our client intends to use the NOVARES mark for its Class 9 goods. Moreover, goods of this type, including a variety of electronic goods, appear on its website.

While we are happy to hear your proposal on possibly amending our client's Class 9 specification of goods to address your client's concerns, in view of the number of coexisting third-party NOVA mark, our client is not willing to delete Class 9 as a whole from its application. Indeed, against the backdrop of various NOVA-formative marks for electronic goods (and even for goods that directly overlap with those of your client's registration), it is clear that NovAtel does not possess exclusive rights in NOVA in this space.

In view of the foregoing, let us know when we can expect your Initial Disclosures and your availability for a conference.

Best regards, Mary Margaret

Hello, Greg.

Just following up with you on this. As you know, we sent you some additional information and representative third-party NOVA-formative marks.

We still need to have our settlement conference – please let us know if you are available tomorrow.

In addition, we do not believe we have received your Initial Disclosures. As our deadline to compel them is July 23, 2019, please advise if you plan on providing us with Opposer's initial disclosures by then.

Best regards, Mary Margaret

Dear Mary Margaret:

Attached is a copy of the Initial Disclosures Novares Group (Applicant) served on Novatel Inc. (Opposer) on July 6, 2019 ("Initial Disclosures"). The Initial Disclosures contain deficiencies on their face that require supplementation. Given that the deadline for filing a motion to compel full and complete disclosures is tomorrow and the late filing of Applicant's Initial Disclosures – which were due weeks earlier than they were served – please provide us with supplemental Initial Disclosures fully addressing our requests below by 2pm EDT tomorrow, July 23, 2019.

The Initial Disclosures are deficient in that the names and (if known) the address and telephone number of individuals referred to as having discoverable information are not provided. Specifically, in paragraphs 2 and 3 spanning pages 1-2 of the Initial Disclosures, no names or addresses are given for "one or more officers or employees of Opposer". Please supplement the Initial Disclosures with the identity of such officers or employees of Opposer. For all former (no longer employed by Opposer) officers and employees, please provide their address and telephone number (if known). If, however, the identity of such persons is presently unknown, please so state or remove paragraphs 2 and 3 from the disclosures.

The Initial Disclosures are also deficient in that a description by category and location of documents in the possession, custody, or control of Applicant identified for all documents to which the Initial Disclosures refer has not been provided. Specifically, paragraph 2 at the bottom of page 2 of the Initial Disclosures identifies "Documents relating to Applicant's NOVARES mark" so broadly and ambiguously as to encompass any document relevant to this opposition to registration of the NOVARES mark. Therefore, no "category" of document is provided whatsoever that could be reasonably distinguished from any other category of document. Additionally, the location of such "Documents relating to Applicant's NOVARES mark" is not provided. Please meaningfully specify in your supplemental Initial Disclosures the category or categories of documents and their location by category.

Your prompt supplementation will be greatly appreciated and will avoid the need to file a motion to compel.

Please let us know immediately if you have any questions.

Regards,  
Greg Carr

Greg:

Opposer's initial discloses that you served on us today July 23, 2019 are inappropriately marked as "confidential." Potential witness names are not confidential (and moreover the officer names are typically publicly available, including on the Internet). No confidential information or materials have been identified within the disclosures. In addition, you listed a number of individuals with titles, but did not specify the company, vaguely referred to such individuals being "engaged by NovAtel or a related company in any capacity." Applicant is entitled to know whether these individuals are currently employed by NovAtel. Please amend to remove the confidential designation and clarify the nature of employment with Opposer so that we may avoid motion practice on this issue.

With regard to Applicant's Initial Disclosures, you objected that Applicant did not provide the name and address of one or more of Opposer's officers/employees who may be called as witnesses. As you can see from Applicant's Initial Disclosures, these are witnesses of **Opposer** who have information regarding Opposer's NOVA marks and the copious third-party use of NOV, NOVA and NOVATEL marks and applications/registrations for marks incorporating NOVA. As Applicant does not yet know the specific identity of these witnesses, the disclosures do not provide that information. Moreover, we find this objection to be unfounded, particularly where Opposer's own disclosures reference unknown witnesses. As for documents regarding the NOVARES mark, this is indeed a sufficient category. Nonetheless, we have supplemented our disclosures as to category and location as per the attached.

In addition, we are still waiting on your confirmation for participation in the mandatory settlement/discovery conference. As we discussed at our initial settlement conference, we do not find the parties' marks to be confusingly similar, particularly against the landscape of extensive third-party use/applications/registrations of various NOVA-formative marks in Class 9 for relevant goods. Indeed, you have been provided with an extensive representative list of such third-party registrations as part of Applicant's Initial Disclosures.

We look forward to your amended Initial Disclosures addressing the issues noted above. Please advise when you are available to complete the conference.

Best regards, Mary Margaret
