Opposition No. 91246211

Blaser Group GmbH

v.

*Hangzhou Hikvision Digital Technology Co.,
Ltd*

**M. Catherine Faint,
Interlocutory Attorney:**

On May 10, 2019, Applicant filed a proposed amendment to its application Serial No. 87214360, with Opposer's consent.¹

By the proposed amendment, Applicant seeks to amend the identification of goods in International Class 9.²

From: data processing apparatus; computer memory devices; computers; computer programs, recorded for collecting data, sound and images in the fields of surveillance and security; computer peripheral devices; recorded computer software for use in capturing and collecting data, sound, and images in the fields of surveillance and security; data processing equipment, namely, couplers; interfaces for computers; microprocessors; computer monitors; television monitors; video monitors; computer central processing units for processing information, data, sound or images; computer central processing units (CPU); optical readers; computer programs for use in the management of video systems

¹ Only the goods in International Class 9 were opposed. The recitation of services in International Class 42 remains unchanged.

² Applicant's consent motion filed May 17, 2019, to extend trial dates is noted.

in the field of surveillance and security; computer programs for use in license plate recognition; computer programs for use in POS integration; computer programs for use in providing business information in the field of surveillance and security; computer programs for use in surveillance; integrated circuit cards; blank smart cards; flashing safety lights; audio-and video-receivers; sound transmitting apparatus; sound recording apparatus; sound reproduction apparatus; video recorders; camcorders; baby monitors; video baby monitors; enlarging apparatus; shutter releases; shutters; cameras; camera filters; speedometers; diaphragms, in the nature of iris diaphragms for cameras; flashlights for use in photography; speedometers for vehicles; objectives for cameras; optical lanterns; optical lamps; optical lenses; magnifying glasses; inspection mirrors; scientific and technical apparatus, namely, optical mirrors; prisms; optical apparatus and instruments, namely, optical scanners, telescopes, optical readers, optical lenses, optical shutters, optical reflectors, optical scanners, optical and telescopic lens sights; cables, electric; wires, electric; integrated circuits; computer chips; fluorescent screens; video screens; remote control apparatus for televisions, cameras, and computers; locks, electric

To: data processing apparatus; computer memory devices; computers; computer programs, recorded for collecting data, sound and images in the fields of surveillance and security; computer peripheral devices; recorded computer software for use in capturing and collecting data, sound, and images in the fields of surveillance and security; data processing equipment, namely, couplers; interfaces for computers; microprocessors; computer monitors; television monitors; video monitors; computer central processing units for processing information, data, sound or images; computer central processing units (CPU); optical readers; computer programs for use in the management of video systems in the field of surveillance and security; computer programs for use in license plate recognition; computer programs for use in POS integration; computer programs for use in providing business information in the field of surveillance and security; computer programs for use in surveillance; integrated circuit cards; blank smart cards; flashing safety lights; audio-and video-receivers; sound transmitting apparatus; sound recording apparatus; sound reproduction apparatus; video recorders; camcorders; baby monitors; video baby monitors; enlarging apparatus; shutter releases; shutters; cameras; camera filters; speedometers; diaphragms, in the nature of iris diaphragms for cameras; flashlights for use in photography; speedometers for vehicles; objectives for cameras; optical lanterns; optical lamps; optical lenses; magnifying glasses; inspection mirrors; scientific and technical apparatus, namely, optical mirrors; prisms; optical apparatus and instruments, namely, optical scanners,

telescopes, optical readers, optical lenses, optical shutters, optical reflectors, optical scanners, optical and telescopic lens sights; cables, electric; wires, electric; integrated circuits; computer chips; fluorescent screens; video screens; remote control apparatus for televisions, cameras, and computers; locks, electric, **none of the aforementioned optical products primarily intended for the hunting and sports shooting industries.**

The amendment is limiting in nature, as required by Trademark Rule 2.71(a). Because Opposer consents thereto, the amendment is approved and entered. *See* Trademark Rule 2.133(a).

If the amendment resolves this proceeding, Opposer is allowed until **THIRTY DAYS** from the date of this order to file a withdrawal of the opposition, failing which the opposition will go forward on the application as amended. *See* Trademark Rule 2.106(c).

If no response is filed, proceedings will be resumed and dates reset, as appropriate. Proceedings are otherwise suspended.³

³ Applicant's motion for an extension of time, filed May 17, 2019 is noted. The motion is **denied** in light of this order.
