Joh. Winklhofer Beteiligungs GmbH & Co.KG Opposer	:	Opposition No. 91250931
v.	:	
Martin Sprocket & Gear, Inc. Applicant	:	

DECLARATION OF BRIAN K. YOST

I, Brian K. Yost, declare and state as follows:

1. I am an attorney representing Applicant, Martin Sprocket & Gear, Inc., in the above styled proceeding. I am over the age of 21 and fully competent to testify regarding the facts set forth in this Declaration. I am familiar with the facts and circumstances of the above-captioned proceeding, and I make these statements based on my own personal knowledge.
2. On September 20, 2021, I accessed the following websites (the references corresponding with the Exhibit reference letters):

Power Cutters

Husqvarna K 7000 Chain

Husqvarna K 7000 Chain is the new version of Husqvarna's versatile PRIME™ chain power cutter. This machine is very useful in all handheld applications where you demand high precision without over-cutting, such as narrow plunge cuts and corner-cutting of openings for doors and windows. The 16 in (400 mm) cutting depth adds even more versatility to the potential applications for this machine. Husqvarna K 7000 Chain comes with several new features including the updated, intelligent motor control software that enables increased cutting performance.

Cutting depth, max	**18 in**

PRx Elite Pulley System
8 reviews
$ 139.00
ADD TO CART
As low as $4.48 / Month *
DESCRIPTION
DETAILS
Bring a cable machine into your home gym without sacrificing space and money. Simply attach the PRx Elite Pulley System to any pull-up bar, and get ready to do all the lat pulldowns and tricep extensions your muscles can handle.
The pulley wheel is 4" in diameter - bigger than other systems on the market. A larger wheel makes for a smooth pull and keeps the weights more stable.
Best part? It's made right here in the USA.
The PRx Elite Pulley System comes with a rope handle, cable, attachment strap, and a weight post (weights not included).

Products For Industry Relius Elite lift table

Lift large products with electric lift table

The Relius Elite all-electric premium lift table by Products For Industry incorporates a mechanical ball screw drive for quiet, extreme duty use with no hydraulic fluid required.

Rated for industrial use, the lift is warranted for 5 years. Two tables may be synchronized for lifting large products at a single speed.

Equipped with a 100,000 up/down cycle motor engineered for heavy industry use, the table can lift loads up to 2,200 pounds.

PRODUCT LINE
ABOUT
PRODUCT LINE / ELITE CONTROL SYSTEM™
ELITE
CONTROL SYSTEM™
Con-Tech's Elite Mixer Control System™ is a giant leap forward in mixer controls. One-step "Auto-Mix" function allows the driver (once loaded) with a single press of a button to raise the engine RPM and put the drum into full charge to properly mixer the load. It will automatically return (after the set revs are achieved) the engine to idle and put the drum into constant speed. In transit speed (customizable from 10-25 mph), triggered functions also include hopper down, chute locked, and drum constant speed
improve your shopping experience.
The driver interface display screen in the cab is mounted high enough to stay in the driver's field of vision but does not obstruct his view of the road and surroundings. Large display icons also include drum rpm/direction, hydraulic system temperature, mix slump, drum counter, hopper up, and chute lock. All this information is EASILY interpreted from one simple to read display!
The ergonomically designed joystick includes only jobsite functions. This keeps his hands near the steering wheel and in a comfortable position.
In times where driver retention and safety are paramount, Con-Tech's Elite Mixer Control System provides the solution.

ELITE 3500

DELIVERS A LIFETIME OF DURABILITY

The Titan Elite™ 3500 is a gas-powered, sealed hydraulic paint sprayer that offers a lifetime of durability. The Elite 3500 uses the revolutionary PermaStroke™ Technology that has no piston, packings or clutch to replace, and is backed by the Elite™ lifetime fluid pump warranty. The Elite 3500 is a versatile direct drive sprayer that delivers a consistent finish and is easy to operate and is field serviceable, keeping contractors on the job.

Sprays stains, lacquers, enamels, latex and block fillers

- PermaStroke Technology Delivers top performance at pressures from 300 to 3300 PSI and when using small or large tip sizes
- No piston or packings, cylinder or clutch to wear or burn out
- FlatLine Pulsation Dampener™ eliminates all pressure fluctuations and dead band in the system providing smooth operation and a consistent finish
- Sureflo™ pusher valve that makes priming easy
- Elite lifetime warranty on fluid pump
- Perfect for spraying coatings prone to shearing
- Powered by Honda®
  - Exceptionally quiet running engine
  - Smooth performance with lower vibration
  - Low oil alert system prevents engine seizure

Home / Equipment / Washout Equipment / AquaBlast® Elite

AquaBlast® Elite

With Patented SmartFlo Technology, Save Water. Save Time. ***Save Money.***

The AquaBlast Elite was designed using valuable feedback from experienced professionals who were unhappy with the limitations, mess, and running costs of their existing machines. With the Patented SmartFlo Design, the AquaBlast Elite is the industry's cleanest and most efficient automated washout machine. Combining the SmartFlo Eco-Pump technology with SmartFlo Nozzles, the AquaBlast Elite washes out masks faster than existing models, while using up to 80% less water, making the AquaBlast Elite the first truly Green automatic washout machine. In addition to faster washouts and significant water savings, the SmartDrain System keeps the surface of the machine clean and dry, allowing full and easy view of the SmartFlo Ergo-Clean control panel, which is located at eye-level.

The Hcr Elite ® Cementing Unit

Supplied by: Halliburton Energy Services

Document Brief

The HCR Elite Cementing Unit...

The Industry's Only Automatic Density Control Mixing System with Twin HT-400TM Pumps for a Combined 1,025 Trailer Horsepower...

Halliburton's proven cement mixing and pumping systems...

offer unmatched performance and dependability. This unique combination of innovative technology and customer-driven features includes ...

Auxiliary horsepower is dedicated to mixing energy Mixing efficiency is not compromised by downhole rate and pressure changes The RCM IIIr cement mixer is designed to mix highdensity and high-viscosity slurries at high pump rates Increased mixing tub capacity enhances cement volume retention and reduces density fluctuations Multiple cement slurries can be programmed into the ADC computer...

Health, Safety and Environmental Protection...

Dual deck areas allow the customer to witness operations outside the mixing zone and allow the Elite operator ample room to work Improved dual stairways provide safe and easy access to the deck areas Quieter engines for operation in noise-sensitive areas Covered mixing tubs reduce dust on location Zero discharge manifold and displacement tanks Platform work area around the HT-400TM pumps All engines are Tier II emission certified...

Advanced Instrumentation and Control...

All job information is displayed on a single graphic screen Pressure readings are recorded in 0.5-second increments User friendly touch-screen controller simplifies inputting changes All job parameters, including totalizing bulk cement, are recorded in real-time mode in a Windows based system Visual display of pressure kick-out settings Cement density optimization bar details pre-mix and downhole density. The bar displays in green for "optimal density", yellow for "acceptable" and in red when set parameters are not being executed...

Improved Mixing Capabilities...

The EliteTM Automatic Density Control (ADC) system is the only cement mixing system that controls both mix water and bulk cement rate, resulting in superior mixed slurries which help in achieving better cement bonds...

HALLIBURTON...

Pumps and Engines...

Twin HT-400 pumps deliver increased pump rate and, in certain cases, eliminate the need for a second cement unit on location...

Pressure psi...

12,000 11,000 10,000 9,000 8,000 7,000 6,000 5,000 4,000 3,000 2,000 1,000 0 0 2...

EliteTM Theoretical Pumping Performance...

All engines are Tier II emission certified Constant pump rate capability allows jobs to be pumped...

SCANNER ELITE
The Scanner Elite is a follow-up of our most successful Scanner System which Egripment introduced in 1997. The "Elite" is lo
higher and carries a larger payload then the original Scanner system. The "Elite continues with the use of an adjustable leng
telescopic arm. The Scanner Elite is still a compact package of a camera crane that can be operated using either one persor
operate the crane and all camera and head controls located at the rear of the crane arm, or by two persons with a separate
crane operator and camera operator who can be located at a distance from the Crane. The Scanner Elite systems offers a wi
range of accessories such as. Rotating handgrips, LCD supports, Extra bars on the side, table support etc. The Scanner Elite is
offered with our heavy duty Super MaxiDolly that includes built-in track wheels.
