Opposition No. 91251142

Senseonics, Incorporated

v.

6Sense Biotech Inc.

Tyrone Craven, Supervisory Paralegal:

Opposer's consented motion, filed August 19, 2022, to further suspend this proceeding for 60 days is granted.

Any future motion to extend, suspend, or reopen must be supported by a detailed report to establish good cause by reciting (1) the dates on which the parties have communicated since the last motion, (2) the method of each communication (e.g., telephone, email, in-person, etc.), (3) the general nature of each communication, (4) a list of issues that have been resolved, (5) a list of issues that remain to be resolved or remain for trial, and (6) a proposed timetable for resolution of the unresolved issues; failing which, the prospective motion may not be approved, even if consented by the parties. See TBMP § 510.03(a).

Because the parties are negotiating for a possible settlement of this case, proceedings are suspended up to, and including October 18, 2022, subject to the right

of either party to request resumption at any time.¹ *See* Trademark Rules 2.117(c) and 2.127(a); and TBMP § 605.02.

If, during the suspension period, either of the parties or their attorneys have a change of address or email address, the Board should be so informed. *See* Trademark Rule 2.18(b)(1).

In the event that there is no word from either party concerning the progress of their negotiations, upon conclusion of the suspension period, **proceedings shall resume without further notice or order from the Board**, upon the schedule set forth below.

The Board requires each submission to meet the following criteria before it will be considered: 1) pages must be legible and easily read on a computer screen; 2) page orientation should be determined by its ease of viewing relevant text or evidence, for example, there should be no sideways or upside-down pages; 3) pages must appear in their proper order; 4) depositions and exhibits must be clearly labeled and numbered – use separator pages between exhibits and clearly label each exhibit using sequential letters or numbers; and 5) the entire submission should be text-searchable.
