**LENOVO PC INTERNATIONAL  
LIMITED**

**OPPOSITION NO. \_\_\_\_\_**

**SERIAL NO. 79257794**

**and**

**LENOVO (SINGAPORE) PTE. LTD.,**

**MARK: **

**Opposers**

**PUBLISHED: December 17, 2019**

**vs.**

**THINK-LANDS CO., LTD.**

**Applicant.**

**NOTICE OF OPPOSITION**

Opposers Lenovo PC International Limited and Lenovo (Singapore) Pte. Ltd. (hereinafter, “Lenovo”) will be damaged by the registration of the above-captioned mark for THINK LANDS and Design (“THINK LANDS”) as applied for by Applicant Think-Lands Co., Ltd. (“Applicant”) in the United States Patent and Trademark Office (“USPTO”) application no. 79257794. As a result, Lenovo opposes registration of THINK LANDS on the USPTO’s Principal Register, on the following grounds:

**THE PARTIES**

1. Lenovo PC International Limited is a Hong Kong limited liability company, organized under the laws of Hong Kong, having an address and principal place of business of 23/F Lincoln House, 979 King's Road, Quarry Bay, Hong Kong.

2. Lenovo (Singapore) Pte. Ltd. is a company organized under the laws of Singapore, having an address and principal place of business of 151 Lorong Chuan #02-01, New Tech Park, Singapore 556741.

3. Lenovo, with its affiliated Lenovo entities (collectively, “Lenovo”), comprise a global and well-known technology business with customers located in over 160 countries and with over 52 thousand employees, worldwide.

4. Lenovo offers a wide array of technology-related products and services to consumers, including but not limited to, servers, computer hardware, server storage, networking, and software products and services; virtual reality and smart device products and services; smartphones and related accessories; work stations; electrical and electronic connectors, wires, couplers, chargers, docks, and other computer peripherals, and computers, tablets, laptops, notebooks and ultrabooks, and related products and services.

5. Based upon information and belief and USPTO records, Applicant is a Japanese joint stock company organized under the laws of Japan, having a business address of 75-1, Ono-cho, Tsurumi-ku, Yokohama-city Kanagawa 230-0 046 Japan.

#### **LENOVO’S FAMILY OF THINK MARKS AND APPLICABLE REGISTRATIONS**

6. By way of valid assignment and for adequate consideration (Exhibit A, Trademark Assignment Abstracts of Title), Lenovo is the assignee and/or owner of a family of federally registered trademarks that contain the word THINK as a dominant word element (collectively, “THINK Marks”) and the goodwill associated with those marks.

7. Lenovo uses the THINK Marks in connection with the advertising, promotion, and sale of its computer hardware and other computer and technology-related goods in international classes 009 [IC 009] and 042 [IC 042], as well as in other classes containing computer and technology-related goods and services, as described below:

MARK	REG. NO.	GOODS/SERVICES	EXHIBIT (TESS FORM)
THINK PAD	1738861	computers, computer adapter boards, computer peripheral devices and manuals supplied therewith [IC 009]  instruction manuals for use with computers, computer adapter boards and computer peripheral devices [IC 016]	B

THINKVISION	2931692	<p>computer hardware; computer monitors; video projectors; data projectors; data/video projectors; hand held video/data projectors; and instruction manuals sold as a unit therewith [IC 009]</p> <p>printed matter, namely, books, brochures, magazines, instructional manuals, written presentations and teaching materials, all in the field of computers [IC 016]</p>	K
THINKSYSTEM	5503764	Computer servers; computer storage apparatus; Data storage systems and accessories, namely, electronic information storage server systems for use in enterprise storage applications, network storage, network attached storage and storage area networks, consisting of computer hardware, computer peripherals, and operating system software; network interface modules for servers, switch modules, transceivers and computer accessories; computer switches that enable enhanced input/output (I/O) for an entire rack of computer servers; computer switches consisting of hardware and software and capable of facilitating or enabling virtual servers and virtual computers through software or hardware design; electrical and electronic connectors, couplers, wires, cables, chargers, docks, docking stations, interfaces and adapters for use with all the aforesaid goods; transceivers; racks for servers; mounting racks for computer hardware and related installation kits; ethernet switches; computer communications software for connecting computer network users and global computer networks; computer software for use in database management; computer software development tools; computer software for application and database integration; computer software and hardware for the management, control and networking of servers; computer software for use with computer servers, data storage devices and computer memory devices; operating systems software; computer software for systems administration; software for managing the network configurations of a network entity based on the location of a computational entity in the network; computer software for performing automatic communications switching in computer networks; computer systems composed of servers, storage and networking	L

		software for the development of virtual computing environments; software for telecommunication and communication via local or global communications networks, including the internet, intranets, extranets, mobile communication, cellular and satellite networks; user manuals in electronically readable, machine readable or computer readable form for use with and sold as a unit with all the aforementioned goods [IC 009]	
THINKAGILE	5863523	Computer servers; computer storage apparatus, namely, external computer hard drives, blank flash drives, high-speed storage sub-systems for storage and backup of electronic data either locally or via a telecommunications network; Data storage systems and accessories, namely, electronic information storage server systems for use in enterprise storage applications, network storage, network attached storage and storage area networks, consisting of computer hardware, computer peripherals, and computer operating system software; network interface modules for servers, network switch modules and transceivers; computer switches that enable enhanced input/output (I/O) for an entire rack of computer servers; computer switches consisting of hardware and software used for facilitating and enabling virtual servers and virtual computers through the software or hardware design; electrical and electronic connectors, couplers, wires, connection cables, computer chargers, computer docks and docking stations, computer network interface devices and power adapters for use with all the aforesaid goods; transceivers; portable digital electronic devices, namely, portable digital electronic devices for recording, organizing, transmitting, manipulating, and reviewing text, data, images, and audio files and software related thereto; racks for computer servers; Ethernet switches; computer communications software for connecting computer network users and global computer networks; computer software for use in database management; computer software development tools; computer software for application and database integration; computer software and hardware for the management, control and networking of computer servers; computer software for use with computer servers, data storage devices and computer memory devices for database management; computer operating systems software; computer software for systems administration of computer local area networks; computer software for managing the network configurations of a network entity based on the location of a computational entity in the network; computer software for performing automatic communications switching in computer networks; virtualization and infrastructure software, namely, software used to consolidate applications, servers, and storage media and software for automating the provisioning and management of IT infrastructure; computer software for database management for use in the telecommunication and communication industries and instructional user manuals in electronically readable, machine readable or computer readable form for use with and sold as a unit with all the aforementioned goods [IC 009]	M

(collectively, the “THINK Registrations”).

8. Since at least as early as the “first use” and “use in commerce” dates set forth in each of the THINK Registrations, there has been continuous use in interstate commerce of each THINK mark through the prior owners of those registrations and/or Lenovo, in connection with the goods and services described in the THINK Registrations.

9. Based upon this continuous use, Lenovo owns the exclusive right to use each THINK Mark since the priority date for each, in connection with the goods and services described in the THINK Registrations and any natural expansions of those goods and services.

10. Based upon this continuous use, Lenovo also owns common law rights to the THINK Marks in connection with the goods and services described in the THINK Registrations and any natural expansions of those goods or services.

#### **APPLICANT’S APPLIED-FOR MARK**

11. According to USPTO records, Applicant applied for registration of THINK LANDS pursuant to 66(a) application, USPTO serial no. 79257794 (the “Application”), in connection with International Registration No. 1464389 (the “International Registration”), thereby rendering a U.S. application date of January 11, 2019. (See Exhibit N, TESS Form on the Application, and Exhibit M, WIPO Register for THINK LANDS).

12. The dominant element of Applicant’s THINK LANDS trademark is the word element “THINK.”

13. Applicant claims to use THINK LANDS in connection with technology and computer-related goods in IC 009, namely, “Laser measuring system; measuring and hardness testing machines and instruments; computer hardware for telecommunications; electronic control system for machines; photographic projectors; instruments for detecting electromagnetic waves; industrial X-ray apparatus” (hereinafter, the “Applicant’s Goods”).

14. Applicant's Goods, in particular, "computer hardware for telecommunications," "electronic control system for machines," and "photographic projectors" are identical and/or confusingly similar to the goods and services that Lenovo and its predecessors have been advertising, promoting, and selling under the THINK Marks for years, especially the IC 009 goods covered under THINK Registration nos. 1738861, 2934258, 2550628, 1977221, 3541810, 3800025, 3731901, 3009301, 2931692, and 5863523.

15. Applicant's International Registration has a filing date of January 11, 2019.

16. January 11, 2019 is after the filing dates and dates of first use in interstate commerce for the THINK Registrations and as a result, Lenovo has priority over Applicant, which is not in dispute.

#### **COUNT I—OPPOSITION OF APPLICATION BASED UPON LIKELIHOOD OF CONFUSION**

17. Lenovo re-alleges paragraphs 1-16 of this Complaint as if fully rewritten herein.

18. THINK LANDS is confusingly similar in appearance, sound, and commercial impression to each of Lenovo's registered THINK Marks, which contain the dominant element "think" in connection with a secondary word element.

19. Moreover, and as also described above, Applicant applied for registration of and is intending to use THINK LANDS in connection with computer hardware related goods in IC 009.

20. Applicant's Goods, in particular, "computer hardware for telecommunications," "electronic control system for machines," and "photographic projectors", are so similar to Lenovo's computer hardware and other computer and technology-related goods and services in IC 009, IC 016, IC 037, and IC 042, which Lenovo and its predecessors have been advertising, marketing, promoting, and selling under the THINK Marks for many years that there is a high likelihood of consumer confusion. Consumers are likely to mistakenly believe that Applicant's

Goods emanate from Lenovo because of the wide array of computer and technology-related goods and services offered by Lenovo.

21. Because of these confusing similarities, Applicant's registration of THINK LANDS will cause Lenovo damage.

22. Applicant's registration of THINK LANDS is likely to cause consumers to be confused and mistakenly believe that Lenovo is the source of Applicant's Goods when such is untrue, in violation of the Lanham Act, including but not limited to, 15 U.S.C. §1052(d) and 15 U.S.C. § 1114.

23. Applicant's registration of THINK LANDS will lead consumers to wrongfully believe that Applicant's Goods are affiliated or associated with, or are sponsored or endorsed by Lenovo, when such is untrue, in violation of the Lanham Act, including but not limited to, 15 U.S.C. §1052(d) and 15 U.S.C. § 1114.

24. Applicant's registration of THINK LANDS will lead consumers to wrongfully believe that Applicant, not Lenovo, is the owner of the THINK Marks and THINK Registrations, when such is untrue, in violation of the Lanham Act, including but not limited to, 15 U.S.C. §1052(d) and 15 U.S.C. § 1114.

Accordingly, and pursuant to 15 U.S.C. §1063(a), Lenovo respectfully requests that its opposition be sustained and the Application be refused registration the following goods in IC 009: "computer hardware for telecommunications," "electronic control system for machines," and "photographic projectors."
