1. Opposer is a leading producer of highway and consumer deicing products, primarily distributed in North America. For more than 30 years, Opposer has been continuously using its well-known FREEZGARD mark in connection with liquid deicing compositions for use on vehicular driving surfaces.

2. Opposer is the owner of valid and subsisting United States Trademark Registration No. 1492784 on the Principal Register in the United States Patent and Trademark Office for the trademark FREEZGARD (hereinafter "FREEZGARD Mark") for liquid deicing composition for use on vehicular driving surfaces in International Class 1. The registration issued on June 21, 1988 and has since become incontestable within the meaning of Section 15 of the Lanham Act, 15 U.S.C. § 1065. Attached as Exhibit 1 is a true and correct printout from the United States Patent and Trademark Office electronic database showing the current status and title of the registration for the FREEZGARD Mark as of February 6, 2020.

3. Opposer or its predecessors in interest have used the FREEZGARD Mark in interstate commerce in the United States continuously since at least as early as January 1986 in connection with the manufacture, distribution, offer for sale, sale, marketing, advertising, and promotion of liquid deicing composition for use on vehicular driving surfaces.

4. As a result of its widespread, continuous, and exclusive use of the FREEZGARD Mark to identify its goods, Opposer's FREEZGARD Mark is well-known and distinctive to both the consuming public and within Opposer's trade.

5. Upon information and belief, Applicant, The Fuel Ox LLC, having an address at 1022 Route 173, Asbury, New Jersey 08802, filed Trademark Application Serial No. 88/450,327 on May 29, 2019 to register the proposed mark FREEZE GUARD for "chemical additives for fuel treatment" in International Class 1.

6. Upon information and belief, Applicant's attorney of record is Jason D. Sanders of Jason Sanders Law, PLLC, 68 3rd Street, Suite 242, Brooklyn, New York 11231. Mr. Sanders's email addresses are jason@jasonsanderslaw.com and docket@jasonsanderslaw.com.

7. Applicant allegedly began using the proposed mark at least as early as January 31, 2015, which is 29 years after Opposer began using its FREEZGARD Mark.

8. As set forth above, Opposer's FREEZGARD Mark has priority over Applicant's mark because Opposer's use and registration dates predate the Applicant's filing and stated first use dates, and, upon information and belief, any other date on which the Applicant may rely for purposes of priority.

9. Applicant's proposed mark FREEZE GUARD is nearly identical to Opposer's FREEZGARD Mark. Phonetically and with regard to commercial impression, the two marks are identical. Visually, Applicant's mark is nearly identical to Opposer's FREEZGARD Mark as it includes only an additional space and two vowels.

10. The goods listed in Applicant's FREEZE GUARD application ("chemical additives for fuel treatment") appear to be highly related to the goods on which Opposer uses its FREEZGARD Mark ("liquid deicing composition for use on vehicular driving surfaces") as Applicant's FREEZE GUARD mark suggests that the associated chemical additives function to prevent fuel from freezing in cold weather conditions. Both products are liquid chemical compositions used to improve the performance of vehicles operating in winter weather conditions.

11. Upon information and belief, there are no other marks similar to Opposer's FREEZGARD Mark registered for similar goods. Opposer is the only owner of a registration for

the mark FREEZGARD (and its phonetic equivalents) in International Class 1, and now Applicant seeks to register the proposed mark FREEZE GUARD in International Class 1.

GROUND FOR OPPOSITION -- LIKELIHOOD OF CONFUSION

12. Opposer incorporates by reference each of the above allegations in paragraphs 1-11 as if the same were fully set forth herein.

13. Registration of FREEZE GUARD is specifically barred by 15 U.S.C. § 1052(d) because the mark consists of or comprises elements that so resemble a mark registered in the United States Patent and Trademark Office and previously used in the United States by Opposer as to be likely, when applied to Applicant's goods, to cause confusion, mistake, or deception.

14. Granting registration of FREEZE GUARD would injure Opposer in that purchasers, persons in the trade, and the public will likely be confused as to the source of the goods Applicant offers under the mark or will erroneously assume Applicant's goods are sponsored or endorsed by or affiliated or otherwise associated with Opposer. The significant goodwill and reputation Opposer has built in its FREEZGARD Mark over the last 34 years would be irreparably harmed, as the quality of Applicant's goods are not under Opposer's control.

WHEREFORE, Opposer respectfully prays that its opposition be sustained and that registration of the mark shown in Application Serial No. 88/450,327 be refused.

February 12, 2020

Respectfully submitted,

/Colin W. Turner/
