NOTICE OF OPPOSITION

The Chamberlain Group, Inc., a Connecticut corporation, located and doing business at 300 Windsor Dr., Oak Brook, Illinois 60523 ("Chamberlain"), believes that it will be damaged by registration of the MQY trademark Application No. 90150320, and hereby opposes the same on the following grounds:

COUNT I - TRADEMARK INFRINGEMENT/LIKELIHOOD OF CONFUSION

1. In Application Serial No. 90150320 Wang Qiang ("Applicant"), is seeking to obtain registration on the Principal Register for the mark MQY for use on "Access control and alarm monitoring systems; Alarm installations and alarms; Baby monitors; Computer monitors; Covers for smartphones; Data processing apparatus; Digital projectors; Earphones; Electric navigational instruments; Goggles for sports; Headphones; Infrared thermometers, not for medical purposes; Inverters; Liquid crystal displays; Loudspeakers; Protective films adapted for computer screens; Protective films adapted for smartphones; Selfie sticks; Set-top boxes; Smartwatches; Stands adapted for mobile phones; Stands adapted for tablet computers; Tape

measures; Video monitors; Wireless cellular phone headsets; Wireless chargers; Wireless ear buds.”

2. Since at least as early as May 1, 2011, Chamberlain adopted and began using the mark MYQ for use on software and access control systems and related products which are and have been marketed in commerce throughout the United States.

3. On June 26, 2012, the United States Patent & Trademark Office registered on the Principal Register and issued Registration No. 4165481 for the mark MyQ for use on “Power Controllers; Remote controls for doors or gates; Electric door opening and closing system; Electronic security devices, namely, electronic controls for granting access and egress through doors or gates; Radio receiver units, radio transmitter units, keypads and card readers; Access control systems for providing, and restricting access to electronically monitored and secured enclosures; Facilities management software, namely, software to control building access and security systems; Home, office and industrial automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, security, safety and other home, office and industrial monitoring and control applications; Lighting controls; computer hardware; Computer hardware and software system for remotely monitoring controlling devices within a building, facility, grounds, or designated spatial area; Computer hardware and computer peripheral devices; Computer hardware and software systems for remotely controlling lighting devices, access devices, security devices within a building or building perimeter; Security alarm controllers; Security alarms; Security control panels; Security lights for outdoor use; Security products, namely, entry door systems comprising touch pads; Electric monitoring apparatus, namely, computer hardware and software used to transmit electronic messages and data via communications networks \*, none of the aforesaid goods being for home automation systems and apparatuses relating to window coverings, including window screens, draperies, blinds, and other window-related coverings \*. A current printout of information from the USPTO electronic database records showing the current status and title of Registration No. 4165481 appears in Exhibit A. Said Registration is presently valid and subsisting and is now

owned by Chamberlain and is *prima facie* evidence of Chamberlain's exclusive right to use said mark in commerce on the goods. Said Registration is also incontestible under 15 U.S.C. § 1065.

4. On November 11, 2014, the United States Patent & Trademark Office registered on the Principal Register and issued Registration No. 4638156 for the mark MyQ Garage for use on “Electric door opening and closing system” in International Class 7 and “Power Controllers; Remote controls for doors or gates; Electronic security devices, namely, electronic controls for granting access and egress through doors or gates; Radio receiver units, radio transmitter units, keypads and card readers; Access control systems for providing, and restricting access to electronically monitored and secured enclosures; Facilities management software, namely, software to control building access and security systems; Home, office and industrial automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, security, safety and other home, office and industrial monitoring and control applications; Lighting controls; computer hardware; Computer hardware and software system for remotely monitoring controlling devices within a building, facility, grounds, or designated spatial area; Computer hardware and computer peripheral devices; Computer hardware and software systems for remotely controlling lighting devices, access devices, security devices within a building or building perimeter; Security alarm controllers; Security alarms; Security control panels; Security lights for outdoor use; Security products, namely, entry door systems comprising touch pads; Electric monitoring apparatus, namely, computer hardware and software used to transmit electronic messages and data via communications networks, \* none of the aforesaid goods being for home automation systems and apparatuses relating to window coverings, including window screens, draperies, blinds, and other window-related coverings \*\*” in International Class 9. A current printout of information from the USPTO electronic database records showing the current status and title of Registration No. 4638156 appears in Exhibit B. Said Registration is presently valid and subsisting and is now owned by Chamberlain and is *prima facie* evidence of Chamberlain's exclusive right to use said mark in commerce on the goods.

5. On January 6, 2015, the United States Patent & Trademark Office registered on the Principal Register and issued Registration No. 4666227 for the mark  for use on “Electric door opening and closing system” in International Class 7 and “Power Controllers; Remote controls for doors or gates; Electronic security devices, namely, electronic controls for granting access and egress through doors or gates; Radio receiver units, radio transmitter units, keypads; Access control systems for providing, and restricting access to electronically monitored and secured enclosures; Facilities management software, namely, software to control building access and security systems; Home, office and industrial automation systems comprising wireless and wired controllers, controlled devices, and software for lighting, security, safety and other home, office and industrial monitoring and control applications; Lighting controls; computer hardware; Computer hardware and software system for remotely monitoring controlling devices within a building, facility, grounds, or designated spatial area; Computer hardware and computer peripheral devices; Computer hardware and software systems for remotely controlling lighting devices, access devices, security devices within a building or building perimeter; Security products, namely, entry door systems comprising touch pads; Electric monitoring apparatus, namely, computer hardware and software used to transmit electronic messages and data via communications networks, \* none of the aforesaid goods being for home automation systems and apparatuses relating to window coverings, including window screens, draperies, blinds, and other window-related coverings \* ” in International Class 9. Said Registration is presently valid and subsisting and is now owned by Chamberlain and is *prima facie* evidence of Chamberlain's exclusive right to use said mark in commerce on the goods. A current printout of information from the USPTO electronic database records showing the current status and title of Registration No. 4666227 appears in Exhibit C. Said Registration is also incontestible under 15 U.S.C. § 1065.

6. Chamberlain is the owner of all right, title and interest in the foregoing Federal trademark registrations.

7. The aforesaid marks of Chamberlain have been promoted together and constitute the “MyQ” family of marks.

8. Applicant intends to use the MQY trademark without the consent of Chamberlain and on information and belief with the intent to trade and capitalize on the goodwill generated by Chamberlain’s extensive and exclusive use of its “MyQ” family of marks.

9. Long prior to Applicant’s adoption and use of the MQY mark, Chamberlain was actively engaged in interstate and foreign commerce in the business of manufacturing, distributing, advertising and software and access control systems and related products bearing the “MyQ” family of marks.

10. Chamberlain has expended millions of dollars in advertising and promoting its products and services, and has sold tens of thousands of dollars of products and services bearing the “MyQ” family of marks in the United States and throughout the world.

11. On information and belief, Applicant’s adoption of the MQY trademark with full knowledge of Chamberlain’s use of the “MyQ” family of marks and Registrations therefore, at the time Applicant filed Application No. 90150320 for registration of the MQY mark.

12. On information and belief, the earliest date of actual or constructive use for the goods specified in the subject application upon which the Applicant can rely is August 31, 2019, the use dates claimed in the subject application.

13. On information and belief, Chamberlain’s priority in its “MyQ” family of marks and Registrations therefore are earlier than any priority that the Applicant can establish in its MQY mark.

14. Based on the foregoing and upon information and belief, Applicant’s intended adoption, use, distribution, offer for sale, and sale of goods bearing the MQY mark are likely to cause confusion, mistake or deception as to the origin of the goods among the relevant

consuming public such that the public is likely to believe that Applicant's products originate with Chamberlain, are licensed by Chamberlain, or are sponsored, authorized, endorsed, or are otherwise related to or approved by Chamberlain.

15. On information and belief, the goods for which Applicant seeks registration of the MQY trademark are similar or related to the goods which Chamberlain distributes bearing the "MyQ" family of marks.

16. On information and belief the goods for which Applicant seeks registration of the MQY mark are likely to be sold to the same customers or channels of trade to which Chamberlain sells its goods bearing the "MyQ" family of marks.

17. On information and belief the Opposer and Applicant are competitors in many of the same markets.

18. If the Applicant is granted registration of its MQY mark as shown in Application No. 90150320, the Applicant will thereby obtain the *prima facie* exclusive right to use the MQY mark, and such registration of the MQY mark will impair, diminish, and dilute Chamberlain's goodwill and rights in its "MyQ" family of marks causing irreparable injury to Chamberlain.

#### COUNT II - FEDERAL TRADEMARK DILUTION

19. Paragraphs 1-18 are incorporated by reference herein.

20. Chamberlain has expended substantial monies in marketing, advertising and promoting its "MyQ" family of marks on its goods.

21. Chamberlain possesses extremely valuable goodwill in the "MyQ" family of marks by reason of its extensive use, marketing, publicity, advertising and geographic extent of its use and promotion. This goodwill was established long prior to the filing of this Application Serial No. 90150320.

22. Chamberlain has sold goods bearing the “MyQ” family of marks in excess of hundreds of thousands of dollars.

23. The “MyQ” family of marks are famous and distinctive within the meaning of the Lanham Act, and are entitled to the protection of the anti-dilution provisions of the Lanham Act, including 15 U.S.C. § 1125(c).

24. Applicant filed the Application No. 90150320 after the “MyQ” family of marks became famous and distinctive.

25. If the Applicant is granted registration of its MQY mark as shown in Application No. 90150320, the Applicant will thereby obtain the *prima facie* exclusive right to use the MQY mark, and such registration of the MQY mark will impair, diminish, and dilute Chamberlain’s goodwill and rights in its “MyQ” family of marks causing irreparable injury to Chamberlain.

PRAYER FOR RELIEF

WHEREFORE, Chamberlain prays that this Opposition be sustained, that Application No. 90150320 be rejected, and that registration of the MQY trademark for the goods specified therein be refused.
