**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE  
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

QSC, LLC

Opposer,

v.

QSIC PTY LTD,

Applicant.

Opposition No. \_\_\_\_\_

Application No.: 79/285834

Mark: QSIC

**NOTICE OF OPPOSITION**

Commissioner for Trademarks  
P.O. Box 1451  
Alexandria, VA 22313-1451

QSC, LLC, a California limited liability company, located and doing business at 1675 MacArthur Blvd, Costa Mesa, California 92626 (“Opposer”), believes that it will be damaged by registration of U.S. Trademark Application Serial No. 79/285834 (the “Application”) for the mark QSIC (“Applicant’s Mark”) filed by QSIC Pty Ltd (“Applicant”) and therefore opposes the same. As grounds for opposition, it is alleged:

1. By the Application filed on February 27, 2020, Applicant seeks to obtain registration on the Principal Register for Applicant’s Mark for “Business data analysis services; computer assisted business information services; company data information services, namely, providing analysis of business data and analysis of customer data for business purposes; business intelligence services; market intelligence services; compilation of statistics; business statistical

information services; collection and systemisation of business data; advertising services; advertising analysis; consultancy relating to advertising; production of advertising materials; research services relating to advertising; information, consultancy and advisory services relating to the aforesaid” in International Class 35; and “Computer software design and development; software as a service (SAAS) featuring software for use in relation to business data analytics, customer data analytics, music curation and streaming music for analysing and processing business and customer data, analysing and processing customer behaviour metrics and processing digital music files; providing temporary use of online non-downloadable web-based applications and software for use in relation to business data analytics, customer data analytics, music curation and streaming music for analysing and processing business and customer data, analysing and processing customer behaviour metrics and processing digital music files; platform as a service (PAAS) featuring computer software platforms for use in relation to business data analytics, customer data analytics, music curation and streaming music for analysing and processing business and customer data, analysing and processing customer behaviour metrics and processing digital music files; technical data analysis services, namely, data mining in the field of business data and customer data; data analysis services, namely, data mining in the field of business data and customer data; providing temporary use of non-downloadable software to store, manage, analyse and report data; development of systems for the processing of data; development of systems for the transmission of data; product development; electronic data storage; provision of information, advisory and consultancy services in relation to the foregoing” in International Class 42.

2. Since at least as early as March 19, 1973, long before the filing date of the Application, Opposer has been continuously engaged in the development, marketing, and/or sale of computer hardware, computer software, loudspeakers, amplifiers, consumer electronics, audio

products, and other goods and services under the mark QSC®. Opposer’s family of QSC marks

include, for example, the following: QSC®, ®, ®, QSCONTROL®, and QSC WORLD OF K® (hereinafter collectively the “QSC Marks”).

3. Since long before the filing date of the Application, Opposer has used and continues to use its famous QSC Marks extensively in connection with computer software, computer hardware, audio products, loudspeakers, amplifiers, consumer electronics, video products, as well as many other goods and services. Examples of some of Opposer’s software and products bearing Opposer’s QSC Marks are shown below:

QSC > Resources > Software and Firmware

# Software and Firmware

TouchMix Software

Cinema Software

Q-SYS Designer Software

NS Series Firmware/Configuration

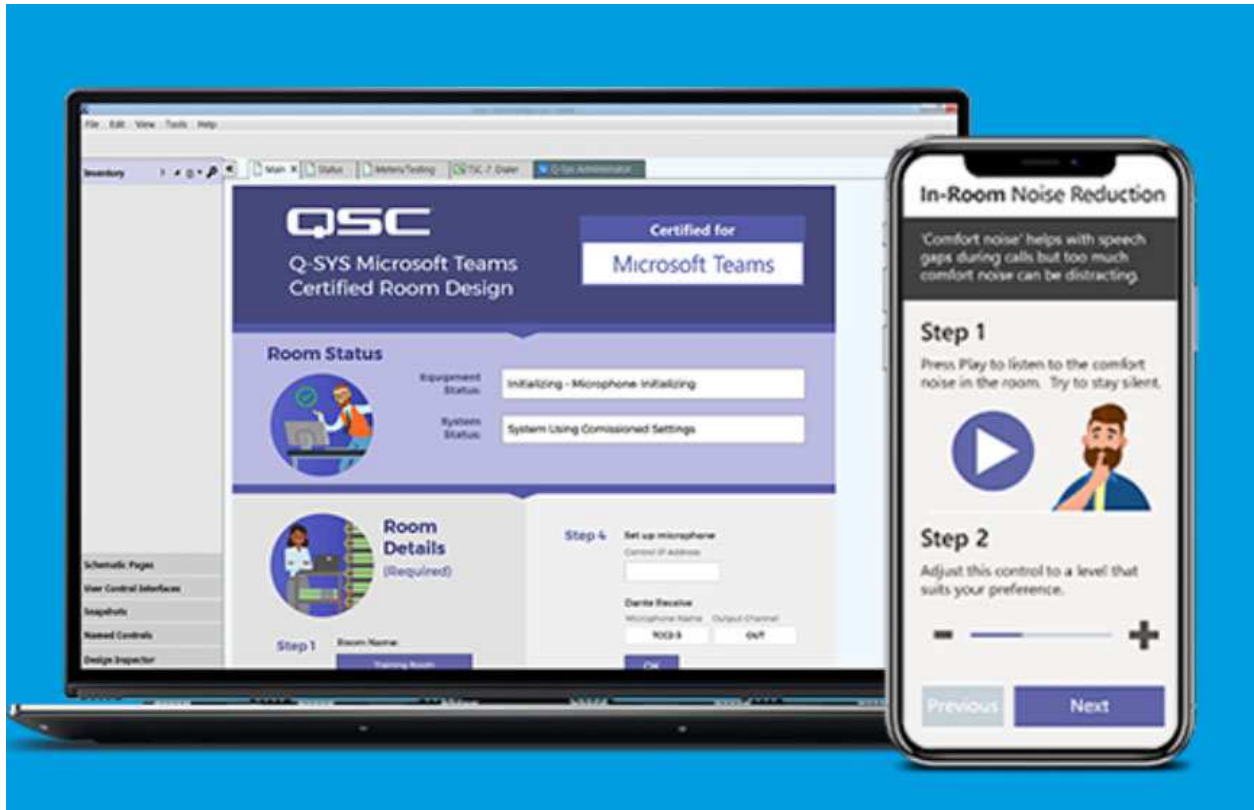

Amplifier Navigator

EASE

4. By virtue of Opposer’s continuous and substantial use, the QSC Marks have become well-known identifiers of Opposer since long before the filing date of the Application.

5. Opposer has built up, at great expense and effort, valuable goodwill in its QSC Marks and has developed strong common law rights in the QSC Marks. Opposer has offered and sold computer software, computer hardware, consumer electronics, audio products, video products, and other goods and services under Opposer’s QSC Marks continuously for almost half a century. Opposer’s common law rights in its QSC Marks predate the filing date of the Application, and Opposer relies on these common law trademark rights in this Opposition.

6. In addition to its common law rights, Opposer owns and relies on incontestable U.S. Trademark Registration No. 1,833,155 (the “155 Registration”) for the mark QSC® for “amplifiers, audio signal processors and related electronic audio equipment; namely, mixers, crossovers, compressors; namely, devices used to compress audio signals to minimize distortion, limiters, gates, equalizers, noise reduction devices, line amplifiers, routing devices, synthesizers, signal generators, transducers, speakers, transformers, microphones, computer hardware or software which runs a network of audio products, networking hardware; namely, optic and

electric cabling, computer software for use in monitoring, operating and controlling and audio system and control panels and displays” in International Class 9, which registration issued April 26, 1994, and is based on an application filed in the United States Patent and Trademark Office (“PTO”) on November 22, 1991. The filing and registration dates of Opposer’s ’155 Registration are prior to the filing date of the Application. True and correct copies of the specifics of the ’155 Registration obtained from the PTO’s TSDR database are attached hereto as Exhibit 1 and made of record.

7. Opposer owns and relies on incontestable U.S. Trademark Registration No.

2,146,181 (the “’181 Registration”) for the mark  ® for “amplifiers, audio signal processors and related electronic audio equipment, namely, mixers, crossovers, compressors, namely, devices used to compress audio signals to minimize distortion, limiters, gates, equalizers, noise reduction devices, line amplifiers, routing devices, signal generators, transformers, computer hardware or software which runs a network of audio products, networking hardware, namely, optic and electric cabling, computer software for use in monitoring, operating and controlling an audio system and control panels and displays” in International Class 9, which registration issued March 24, 1998, and is based on an application filed in the PTO on February 14, 1997. The filing and registration dates of Opposer’s ’181 Registration are prior to the filing date of the Application. True and correct copies of the specifics of the ’181 Registration obtained from the PTO’s TSDR database are attached hereto as Exhibit 2 and made of record.

8. Opposer owns and relies on incontestable U.S. Trademark Registration No.

2,911,428 (the “’428 Registration”) for the mark  ® for “analog and digital equipment used to amplify, modify, combine, process and transport audio signals, namely,

amplifiers, power amplifiers, analog and digital audio signal processors, mixers, and crossovers; audio speakers; audio networking controllers and audio transport networking apparatus, which enable the routing of audio and audio control data using a variety of network protocols via network hardware and cabling between and among audio equipment; audio control and processing software and audio control network operating systems” in International Class 9, which registration issued December 14, 2004, and is based on an application filed in the PTO on October 3, 2002. The filing and registration dates of Opposer’s ’428 Registration are prior to the filing date of the Application. True and correct copies of the specifics of the ’428 Registration obtained from the PTO’s TSDR database are attached hereto as Exhibit 3 and made of record.

9. Opposer owns and relies on U.S. Trademark Registration No. 6,119,155 (the “’9155 Registration”) for the mark QSC WORLD OF K® for “analog and digital amplifiers to route and produce different wavelengths of audio signals; analog and digital audio signal processors and crossovers all for use in modifying, combining, processing and transporting audio signals; computer software for monitoring, managing and controlling amplifiers on a network; computer software for processing and controlling audio; electronic transmitters and receivers for audio signals for routing audio via networking controllers and peripheral devices” in International Class 9 and “newsletters, brochures, printed products, namely, product guides, user manuals, paper banners and pamphlets concerning the subjects of analog and digital amplifiers, analog and digital audio signal processors and crossovers, computer software, and, transmitters and receivers” in International Class 16, which registration issued August 4, 2020, and is based on an application filed in the PTO on March 8, 2016. The filing date of Opposer’s ’9155 Registration is prior to the filing date of the Application. True and correct copies of the specifics of the ’9155

Registration obtained from the PTO's TSDR database are attached hereto as Exhibit 4 and made of record.

10. Opposer owns and relies on incontestable U.S. Trademark Registration No. 2,902,087 (the "'087 Registration") for the mark QSCONTROL® for "computer hardware and software used to accept, modify, process, mix, route, transport, amplify, monitor, interface with and control audio signals and control data, and to control audio, video, lighting, MIDI-based, and special effects equipment on a network; signal transport systems and remote management equipment that enables and governs the routing of audio and control data using a variety of network protocols via network hardware and cabling and wireless connection between and among audio equipment (namely, computers, audio and networking controllers and peripherals and audio transport networking equipment); audio control and processing software; digital cinema monitors; amplifier network monitors, video routers" in International Class 9, which registration issued November 9, 2004, and is based on an application filed in the PTO on March 31, 2003. The filing and registration dates of Opposer's '087 Registration are prior to the filing date of the Application. True and correct copies of the specifics of the '087 Registration obtained from the PTO's TSDR database are attached hereto as Exhibit 5 and made of record.

11. Opposer owns and relies on incontestable U.S. Trademark Registration No. 2,902,088 (the "'088 Registration") for the mark QSCONTROL.NET® for "computer hardware and software used to accept, modify, process, mix, route, transport, amplify, monitor, interface with and control audio signals and control data, and to control audio, video, lighting, MIDI-based, and special effects equipment on a network; signal transport systems and remote management equipment that enables and governs the routing of audio and control data using a variety of network protocols via network hardware and cabling and wireless connection between and among

audio equipment (namely, computers, audio and networking controllers and peripherals and audio transport networking equipment); audio control and processing software; digital cinema monitors; amplifier network monitors, video routers” in International Class 9, which registration issued November 9, 2004, and is based on an application filed in the PTO on March 31, 2003. The filing and registration dates of Opposer’s ’088 Registration are prior to the filing date of the Application. True and correct copies of the specifics of the ’088 Registration obtained from the PTO’s TSDR database are attached hereto as Exhibit 6 and made of record.

12. The foregoing registrations are valid, subsisting, unrevoked and uncancelled; as such they constitute *prima facie* evidence of the validity of the registered marks and of the registrations thereof, and of Opposer’s ownership of the marks shown therein. Opposer’s registrations also constitute notice to Applicant of Opposer’s claim of ownership of the marks shown therein as provided in Sections 7(b), 22 and 33(a) of the Trademark Act.

13. Opposer’s U.S. Trademark Registration Nos. 1,833,155, 2,146,181, 2,911,428, 2,902,087, and 2,902,088 are incontestable. As such, they constitute conclusive evidence of the validity of the registered marks and of the registration of the marks, of Opposer’s ownership of its marks, and of Opposer’s exclusive right to use the registered marks in commerce as provided in Section 33 of the Lanham Act, 15 U.S.C. § 1115.

14. Since long before the filing date of the Application, Opposer has continuously used and promoted Opposer’s QSC Marks in interstate commerce in connection with its goods and services, including the goods identified in the foregoing registrations.

15. Applicant seeks an unrestricted federal registration for Applicant’s Mark covering the services set forth in the Application in International Classes 35 and 42. As such, if a registration issues for the mark shown in the Application, such registration will constitute *prima facie*

evidence of Applicant's exclusive right to use the registered mark in commerce on or in connection with the listed services throughout the United States with no limitation thereon.

16. Opposer will be damaged by registration of the Application in that Applicant's Mark is confusingly similar to Opposer's QSC Marks. Potential purchasers, upon seeing Applicant's Mark, are likely to mistakenly believe that such mark, and the services identified in the Application offered thereunder, originated with or are connected or associated with, or sponsored, licensed or approved by Opposer, when they are not. Thus, the registration by Applicant of Applicant's Mark in connection with Applicant's services is likely to cause confusion, or to cause mistake, or to deceive within the meaning of Section 2(d) of the Trademark Act, 15 U.S.C. § 1052(d).

17. In view of Opposer's prior common law and statutory rights in its QSC Marks, Applicant is not entitled to federal registration of Applicant's Mark pursuant to Section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d).

WHEREFORE, Opposer requests that U.S. Trademark Application Serial No. 79/285834 be rejected and stricken, that no registration be issued thereon to Applicant, and this opposition be sustained in favor of Opposer.

Please charge Deposit Account No. 11-1410 to cover the opposition fee and any additional fees which may be required, or credit any overpayment to this account.

Respectfully submitted,

KNOBBE, MARTENS, OLSON & BEAR, LLP
