Application Serial No. 88/726,903
by TMRW Foundation IP & Holding S.a.r.l.

ZERODENSITY YAZILIM ANONIM
SIRKETI,

Opposer,

v.

TMRW FOUNDATION IP & HOLDING
S.A.R.L,

Applicant.

Opposition No. _____

NOTICE OF OPPOSITION

Zerodensity Yazilim Anonim Sirketi (“Zerodensity” or “Opposer”), a joint stock company of Turkey, having a place of business at Zafer SB Mah. Nilufer Sk. No:29/11, Ege Serbest Bölgesi Sit., Esbas B Blok, Turkey, believes that it will be damaged by registration of Application Serial No. 88/726,903 (the “Application”) for the mark REALITYOS (“Applicant’s Mark”) filed by TMRW Foundation IP & Holding S.a.r.l (“Applicant”) and hereby opposes the same under the provisions of 15 U.S.C. § 1063.

As grounds for opposition, Zerodensity asserts that:

1. Since at least as early as 2016, Opposer has adopted and continuously used the mark REALITY as a mark, in various stylizations and forms, in connection with a real-time broadcast compositing system. This system is composed of a group of integrated sub-systems including multiple specialized software programs and hardware platforms being utilized in combination with production studio hardware, such as cameras, physical sets, green screen hardware and construction and operational technology.

2. Opposer also uses the REALITY mark in connection with offering engineering, design, consultancy, software development, training, rental, and production services that are provided in connection with its visual effects compositing system.

3. As a result of Opposer’s use of the REALITY mark, Opposer has acquired valuable common law rights in the REALITY mark throughout the United States.

4. Since 2016, Opposer has also used the REALITY ENGINE mark in connection with its real-time broadcast compositing system.

5. Opposer offers a number of proprietary software programs under a family of marks that incorporate the REALITY mark, including Reality Keyer, Reality Control, Reality Hub, Reality Cook Server, Reality Mixer, Reality Action Builder, Reality Onair Control, Reality Launcher and Reality Setup. These software programs are used in connection with Opposer’s real-time broadcast compositing system.

6. Opposer holds the following U.S. trademark applications and one registration that incorporate Opposer’s REALITY mark:

Application No. & Mark	Goods & Services
REALITY ENGINE Serial No. 90/061,530	38: Television broadcasting services; Rental and leasing of equipment for broadcasting; Television broadcasting consultation 42: Design of Audio-visual television studio and broadcast production computer systems; development of computer platforms; Computer software engineering and architectural design; computer programming services; computer system design, rental and leasing of Audio-visual

	television studio and broadcast production computer systems; consultancy in the design and development, implementation and use of Audio-visual television studio and broadcast production computer systems; And maintenance and support for computer Audio-visual television studio and broadcast production computer systems
REALITY ENGINE 90/061,527	9: Audio-visual television studio and broadcast production computer systems
REALITY KEYSER 79/272,376	9: Recorded computer software namely, computer software for matte extraction of green-screen or blue-screen images and compositing with virtual graphics rendered in real-time for use with audio-visual television studio and broadcast production computer systems
REALITY CONTROL 79/283,033	9: computer software and programmes recorded thereto, namely downloadable application software for facilitating manual or automated control of audio and video production equipment 42: computer services, namely, computer programming
REALITYHUB 6,443,512	9: Downloadable software for facilitating manual or automated control of audio and video production equipment; downloadable software for enabling users to create graphic animations of all kinds with a view to editing, management of workflows for different stakeholders, integration of all video or other content, and preview of the result

	<p>42: Design, installation, maintenance, updating, repair and remedial maintenance of software; technical support services provided online, via a telephone answering hot line service, and on-site, for computers and software, namely, troubleshooting in the nature of diagnosing computer hardware and software problems and monitoring technological functions of computer network systems; computer programming; technological advisory and consultancy services in connection with computer hardware and software for use in the field of graphics systems for dissemination, for digital media asset and resource management, and publishing on the internet and on websites; Digitization of documents and document data transfer from one computer format to another, namely, digital processing of documents, images and information in preparation for storage thereof in databases for media asset and resource management, namely, conversion of data, images or documents from physical to electronic media and conversion of electronic information</p>
<p>REALITY ENGINE 79/269,543</p>	<p>9: Measurement apparatus and equipment including those for scientific, nautical, topographic, meteorologic, industrial and laboratory purposes, thermometers, not for medical purposes, barometers, ammeters, voltmeters, hygrometers, testing apparatus not for medical purposes, telescopes, periscopes, directional compasses, speed indicators, laboratory apparatus, microscopes, magnifying glasses, stills, binoculars, ovens and furnaces for laboratory experiments; apparatus for recording, transmission or reproduction of sound or images, cameras,</p>

photographic cameras, television apparatus, video recorders, CD and DVD players and recorders, MP3 players, computers, desktop computers, tablet computers, wearable technological devices, namely, smart watches, smart wristbands, head-mounted cameras; microphones, loudspeakers, earphones, telecommunications apparatus, apparatus for the reproduction of sound or images, computer peripheral devices, cell phones, covers for cell phones, telephone apparatus, computer printers, scanners [data processing equipment], photocopiers; magnetic and optic data carriers and computer software and programmes recorded thereto, downloadable and recordable electronic publications, encoded magnetic and optic cards, movies, tv series and video music clips recorded on magnetic, optical and electronic media; antennas, satellite antennas, amplifiers for antennas, parts of the aforementioned goods; ticket dispensers, automatic teller machines (ATM); electronic components used in the electronic parts of machines and apparatus, semi-conductors, electronic circuits, integrated circuits, chips [integrated circuits], diodes, transistors [electronic], magnetic heads for electronic apparatus, electronic locks, photocells, remote control apparatus for opening and closing doors, optical sensors; counters and quantity indicators for measuring the quantity of consumption, automatic time switches; clothing for protection against accidents, irradiation and fire, safety vests and life-saving apparatus and equipment; eyeglasses, sunglasses, optical lenses and cases, containers, parts and components thereof; apparatus

	<p>and instruments for conducting, transforming, accumulating or controlling electricity, electric plugs, junction boxes [electricity], electric switches, circuit breakers, fuses, lighting ballasts, battery starter cables, electrical circuit boards, electric resistances, electric sockets, transformers [electricity], electrical adapters, battery chargers, electric door bells, electric and electronic cables, batteries, electric accumulators, solar panels for production of electricity; alarms and anti-theft alarms, other than for vehicles, electric bells; signalling apparatus and instruments, luminous or mechanical signs for traffic use; fire extinguishing apparatus, fire engines, fire hose and fire hose nozzles; radar apparatus, sonars, night vision apparatus and instruments; decorative magnets; metronomes</p>
<p>REALITY ENGINE 79/254,744</p>	<p>42: Scientific and industrial analysis and research services in the fields of visual design, architectural design, engineering; engineering; engineering and architectural design services; testing, analysis, and evaluation services of the goods and services of others for the certification of quality and standards in the field of engineering, architectural design, software design, computer programming; computer services, namely, computer programming, computer virus protection services, computer system design, creating, maintaining and updating websites for others, computer software design, updating and rental of computer software, providing search engines for the internet, hosting websites, consultancy in the design and development, implementation</p>

	<p>and use of computer hardware, rental of computer hardware; industrial design services, namely, computer computer network design for others, computer website design, computer system design and architectural design; graphic arts designing</p>
--	---

Printouts from the TSDR database for each of these marks are enclosed as **Exhibit A** and entered into the record.

7. According to the online records of the United States Patent and Trademark Office (“USPTO”), Applicant is a société à responsabilité limitée (sarl) formed under the laws of Luxembourg and has an address of 54, Route De Mondorf, Bettembourg, Luxembourg 3260.

8. According to the online records of the USPTO, Applicant holds the Application to register REALITYOS under Section 1(b) of the Lanham Act on the basis of an alleged intent to use the mark in U.S. commerce in connection with “Downloadable computer software for virtualizing computing resources, augmenting the real and virtual world through spatial, AI and simulation functions, and to manage interactions between people, machines and virtual elements; Downloadable computer games software; Computer hardware; Computer software platforms for virtualizing computing resources, augmenting the real and virtual world through spatial, AI and simulation functions, and to manage interactions between people, machines and virtual elements, recorded or downloadable; Smart glasses; Virtual reality headsets” in class 9 and “Virtual reality software design and development; Computer software design; Software as a service (SAAS) services featuring software for virtualizing computing resources, augmenting the real and virtual world through spatial, AI and simulation services, and to manage interactions between people, machines and virtual elements; Cloud computing, namely, providing virtual computer systems and

virtual computer environments through cloud computing; Computer programming; providing on-line non-downloadable computer software for virtualizing computing resources, augmenting the real and virtual world through spatial, AI and simulation services, and to manage interactions between people, machines and virtual elements; providing on-line non-downloadable computer programs for virtualizing computing resources, augmenting the real and virtual world through spatial, AI and simulation services, and to manage interactions between people, machines and virtual elements” in class 42.

9. Applicant filed the Application on December 13, 2019 and also claimed a foreign registration basis under Section 44(e) of the Lanham Act.

10. Applicant was required to have a *bona fide* intent to use the mark REALITYOS in U.S. commerce in connection with each and every product and service identified in Applicant’s Application at the time it filed the Application.

11. Upon information and belief, Applicant did not in fact have a *bona fide* intent to use the mark REALITYOS in U.S. commerce in connection with each and every product and service identified in Applicant’s Application at the time it filed the Application.

12. Upon information and belief, Applicant does not have any documents that establish a *bona fide* intention to use the mark REALITYOS in U.S. commerce in connection with each and every product and service recited in Applicant’s Application.

13. To Opposer’s knowledge, Applicant has not used the mark REALITYOS in U.S. commerce.

14. Applicant’s filing of the Application was therefore in violation of Section 1(b) of the Lanham Act, 15 U.S.C. § 1051, and Applicant’s Application was void *ab initio*.

15. When Applicant filed the Application on December 13, 2019, Applicant's U.S. attorney and representative, Thomas W Adams, signed and filed a declaration ("the Declaration") stating that "[t]he applicant has a bona fide intention to use the mark in commerce on or in connection with the goods/services in the application."

16. The Declaration also stated that "[t]o the best of the signatory's knowledge, information, and belief, formed after an inquiry reasonable under the circumstances, the allegations and other factual contentions made above have evidentiary support."

17. Upon information and belief, Applicant directed its signatory to sign and file the Declaration with the Application.

18. Upon information and belief, Applicant did not have a bona fide intention to use Applicant's Mark with each of the goods and services identified in the Application when it filed the Application.

19. Upon information and belief, Applicant intended to deceive the U.S. Patent and Trademark Office that it had a bona fide intention to use Applicant's Mark in commerce when it directed its signatory to sign and submit the Declaration with the Application.

20. Upon information and belief, Applicant's signatory knew that Applicant did not have a bona fide intention to use Applicant's Mark when he signed and filed the Declaration with the Application.

21. Upon information and belief, Applicant's signatory, Thomas W Adams, signed the declaration in the Application with reckless disregard for the truth in the declarant's statement.

22. Accordingly, Applicant has committed fraud during the prosecution of its Application for registration and the Application should be refused registration.

23. In the Application that Applicant filed on December 13, 2019, Applicant also indicated that certain goods and services identified in the Application were entitled to registration under Section 44(e) of the Trademark Act on the basis of European Union Trademark Registration No. 016933368 (the “EU Registration”).

24. However, as the examining attorney indicated in the office actions issued in connection with the Application on March 17, 2020 and October 19, 2020, Applicant was not the sole owner of the EU Registration at the time the Application was filed and therefore was not entitled to register Applicant’s Mark on the basis of the EU Registration.

25. The Declaration that Applicant’s signatory signed and filed with the Application stated that “[t]o the best of the signatory’s knowledge and belief, the facts recited in the application are accurate.”

26. Upon information and belief, Applicant’s signatory, Thomas W Adams, signed this Declaration in the Application with the knowledge that Applicant did not individually own the EU Registration at the time it filed the Application.

27. Upon information and belief, Applicant’s signatory, Thomas W Adams, signed the Declaration in the Application with the knowledge that Applicant was not entitled to registration of Applicant’s Mark under Section 44(e) of the Trademark Act based on the EU Registration.

28. Upon information and belief, Applicant’s signatory, Thomas W Adams, signed the Declaration in the Application with reckless disregard for the truth in the declarant’s statement.

29. Upon information and belief, Applicant and its signatory made knowing false statements as to Applicant’s ownership of the EU Registration and entitlement to a foreign registration basis

under Section 44(e) of the Trademark Act for the purpose of procuring a registration to which Applicant is not entitled.

30. Accordingly, the signature of the Declaration in the Application constituted fraud, and the Application should be refused registration.

31. Applicant's Mark is also merely descriptive of the goods and services in the Application, in violation of Section 2(e)(1) of the Lanham Act, 15 U.S.C. § 1052(e)(1).

32. On March 17, 2020, the examining attorney issued an office action refusing registration of Applicant's Mark under Section 2(e)(1) of the Trademark Act on the basis that REALITYOS is merely descriptive of the goods and services identified in the Application.

33. In the computer software industry, the term "os" is a generic term of art that refers to an "operating system," or a system software that manages computer programs.

34. The goods and services in the Application refer to "virtual reality" and "augmented reality" applications in multiple places: "downloadable computer software for . . . augmenting the real and virtual world through spatial, AI and simulation functions"; "virtual reality headsets"; "virtual reality software design and development"; "providing on-line non-downloadable computer programs for virtualizing computing resources, augmenting the real and virtual world through spatial, AI and simulation services, and to manage interactions between people, machines and virtual elements."

35. The term REALITYOS is merely descriptive of software products and services used in connection with virtual reality and augmented reality.

36. Upon information and belief, Applicant's Mark is merely descriptive of the goods and services identified in the Application and therefore is not capable of registration under Section 2(e)(1) of the Lanham Act, 15 U.S.C. § 1052(e)(1).

37. The registration of REALITYOS to Applicant in connection with the goods and services set forth in Applicant's Application threatens to cause injury and damage to Opposer.

38. If Applicant is granted the registration herein opposed, it would thereby obtain at least a *prima facie* exclusive right to the use of its alleged mark. Such registration would be a source of damage and injury to Opposer.

39. Registration of Applicant's Mark would be a source of damage to Opposer, as it would confer upon Applicant various statutory presumptions to which it is not entitled.

40. By reason of the foregoing, Opposer is likely to be damaged by registration of REALITYOS to Applicant.

41. WHEREFORE, Opposer prays that this Opposition be sustained, that Application Serial No. 88/726,903 to register Applicant's Mark be rejected, and that registration of Applicant's Mark therein be refused.

42. The filing fee in the amount of \$800 as required by 37 C.F.R. § 2.6(a)(17) is being paid electronically via credit card with this Notice of Opposition. The Commissioner of Trademarks is authorized to draw on the deposit account of Norton Rose Fulbright US LLP, Account No. 50-1212/11507599, in the event that anything prevents the successful completion of electronic payment of the filing fee.

Date: December 22, 2021

Respectfully submitted,

/s/ Felicia J. Boyd
