**IN THE UNITED STATES PATENT AND TRADEMARK OFFICE
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

In re Application of: Evac+Chair North America LLC
Application Serial No.: 90/535903
Mark: PARA+EVAC
Filed: February 19, 2021
Published: December 21, 2021

Evac+Chair International Limited

Opposer,

v.

Evac+Chair North America LLC

Applicant.

Application Serial No. 90/535903

Opposition No. _____

NOTICE OF OPPOSITION

Evac+Chair International Limited (“Opposer”), a limited company duly organized and existing under the laws of the United Kingdom, having its principal place of business at Unit 4, Central Boulevard, Blythe Valley Park Solihull, West Midlands B90 8AW, United Kingdom, believes that it will be damaged by the registration of the PARA+EVAC mark shown in Application Serial No. 90/535903 and filed by Evac+Chair North America LLC (“Applicant”). Opposer, by its undersigned counsel, hereby opposes registration of the same.

As grounds for opposition, Opposer alleges and asserts the following:

1. Opposer is the owner of all right, title, and interest in and to the distinctive mark PAREVAC (the “PAREVAC Mark”).
2. Opposer filed an application for the PAREVAC Mark at the United States Patent and Trademark Office (“USPTO”) (the “PAREVAC Application”) through an extension of Opposer’s international registration no. 1646217 filed through the International Bureau and

based on Opposer's United Kingdom application for the PAREVAC Mark, filed on January 22, 2021.

3. Opposer's application for the PAREVAC Mark at the USPTO was assigned Ser. No. 79/334525.

4. Copies of the USPTO TESS printout and USPTO assignment database documents for the PAREVAC Mark, as well as the Request for Extension of Protection filed by Opposer at the USPTO, are attached hereto as **Exhibit A**.

5. Opposer is a global leader in evacuation and escape products, including evacuation chairs, stair climbers and mats. Opposer's products, including evacuation chairs, stair climbers and mats, have been sold in the United States since the 1980s, initially in partnership with Evac+Chair Corporation until 2007 and, thereafter until around 2020, by Applicant, which acquired the business of Evac+Chair Corporation in the United States and Canada in 2007.

6. Opposer and Applicant were formerly affiliated companies and, between 2007 and around 2020, Opposer was the supplier for certain products distributed by Applicant in North America. This supplier and distributor relationship ended when Applicant recently took steps that countered and ran against various registered and unregistered trademark rights owned by Opposer and previously recognized by Applicant.

7. Upon information and belief, Applicant's latest application for the PARA+EVAC mark (the "PARA+EVAC Mark") at issue in this proceeding is another attempt to impinge on the trademark rights of Opposer.

8. Notwithstanding Opposer's prior rights in the PAREVAC Mark afforded to it by the January 22, 2021 priority date established by its United Kingdom base application, Applicant filed U.S. Application Serial No. 90/535903 (the "PARA+EVAC Application") on February 19,

2021 for the PARA+EVAC Mark, which currently covers the goods in Classes 9, 10, 12, and 20 detailed below.

- Class 9: Safety harnesses other than for vehicles or sports purposes in the nature of patient safety apparatus, namely, safety harnesses, belts and restraints for use with patient carrying, patient lifting, patient handling and patient transporting apparatus
- Class 10: Orthopedic walkers, namely, carrier seats; orthopedic cushions, namely, chair seats; walkers for use by mobility-impaired individuals, namely, chair seats and carrier seats; patient handling apparatus, namely, stretchers; patient transporting and lifting apparatus, namely, stretchers; stretcher straps; stretcher straps, namely, retaining belts for restraining patients on stretchers; ambulance stretchers; stretchers; medical stretchers; emergency stretchers; patient stretchers; wheeled stretchers; stretchers for patient transport; patient litters in the nature of stretchers; patient examination tables; support mattresses for medical use, namely, mattresses for stretchers; support mattresses for medical use; medical products, namely, cushions and pillows for medical purposes; medical products, namely, seat pads for medical and evacuation chairs; patient lifts; patient safety restraints; patient lifting hoists; respiratory masks for medical purposes, namely, smoke hoods; medical patient treatment chairs; medical apparatus to assist patients into and out of bath tubs; patient monitoring sensors and alarms; hospital beds for use by burn patients; patient moving device, namely, a low friction pad for sliding patients to or from a stretcher and bed; patient hoists; medical apparatus, namely, slings for patient lifting hoists; medical apparatus, namely, assist poles for lifting patients; medical apparatus for the turning of patients; Surgical apparatus and instruments for medical use; stretchers, namely, aeromedical patient transporting apparatus; stretchers, namely, neonatal patient transporting apparatus; stretchers, namely, paediatric patient transporting apparatus
- Class 12: Transport chairs, namely, evacuation chairs; transit chairs, namely, evacuation chairs; transport chairs, namely, medical evacuation chairs; transit chairs, namely, medical evacuation chairs; transport chairs, namely, emergency evacuation; transit chairs, namely, emergency evacuation chairs; chair lifts, namely, stairway evacuation chairs; chair lifts, stairway descent and ascent chairs; transport chairs, namely, medical patient carrying chairs; transit chairs, namely, medical patient carrying chairs; transport chairs, namely, motorized medical and evacuation chairs; patient transporting, transferring, lifting and carrying apparatus, namely, carrying seats and chairs; medical chair lifts; rescue sleds; transport chairs, namely, emergency escape chairs adapted for patients
- Class 20: Steel cabinets; security cabinets

9. The PARA+EVAC Application was published on December 21, 2021.

10. The PARA+EVAC Application was filed under Section 1(b) on a intent-to-use basis and to date, no Statement of Use has been filed.

11. Upon information and belief, particularly given the parties' prior relationship, Applicant knew or had reason to know of Opposer's prior rights in the PARAEVAC Mark when Applicant filed its PARA+EVAC Application.

Count I — Likelihood of Confusion — Trademark Act Section 2(d) (15 U.S.C. § 1052(d))

12. Opposer hereby incorporates by reference the allegations contained in the paragraphs above as though fully set forth herein.

13. Opposer has prior and superior rights to its PAREVAC Mark by virtue of ownership of its senior PAREVAC Application.

14. Applicant's PARA+EVAC Mark is nearly identical, including in sound, appearance, and overall impression, to Opposer's PAREVAC Mark. Applicant's PARA+EVAC Mark is simply Opposer's PAREVAC Mark broken into two parts and connected by a plus sign.

15. The goods in the PARA+EVAC Application are identical to and highly similar to the goods in Opposer's PAREVAC Application, including overlapping goods in Class 10, such as patient lifting apparatus, slings for patient lifting hoists, and stretcher products.

16. Given that Applicant's Mark and the goods in the PARA+EVAC Application so closely resemble Opposer's PAREVAC Mark and the PAREVAC Application, and given the historic working relationship of the parties, any use or registration of Applicant's Mark is likely to cause confusion, mistake, and deception as to the source, origin, affiliation, approval, or sponsorship of Applicant's goods.

17. The use and registration of Applicant's Mark and the PARA+EVAC Application will injure and irreparably damage Opposer and the goodwill and reputation symbolized by the PAREVAC Mark.

18. Upon information and belief, Applicant applied for the PARA+EVAC Application with knowledge of the PAREVAC Mark and/or the PAREVAC Application.

19. Upon information and belief, likelihood of confusion is enhanced by the fact that purchasers of Applicant's goods will be purchasers or prospective purchasers of Opposer's goods and services, and vice versa, and that the parties' goods and services will be sold through the same channels of trade.

20. By reason of the foregoing, Opposer will be damaged by the registration of Applicant's PARA+EVAC Mark and the PARA+EVAC Application. Registration of the PARA+EVAC Application should therefore be refused.

WHEREFORE, Opposer respectfully requests that the registration sought by Applicant be refused and that this Opposition be sustained.

Dated: April 20, 2022

Respectfully submitted,

By: /diana s. bae/
