NOTICE OF OPPOSITION

Via Transportation, Inc. (“Via”), a New York corporation having a principal place of business at 10 Crosby St, 2nd Floor, New York, New York 10013, believes that it will be damaged by registration of the subject marks of Application Serial Nos. 90/785,117 and 90/785,097 (the “Challenged Applications”) for VIA RENEWABLES (“Applicant’s Marks”), and hereby opposes those applications. On information and belief, the owner of the Challenged Applications is Spark Energy, Inc. (“Applicant”), a Delaware corporation having a principal place of business at 12140 Wickchester Lane, Suite 100, Houston, Texas 77079.

The grounds for opposition are as follows:

1. Via is a leading ridesharing, public transportation and technology company that provides transit technology that powers on-demand ridesharing services in cities and metropolitan areas around the world.
2. Since August 2013, Via has provided over 90 million rides, has entered into approximately 500 partnerships to deliver public transportation solutions, and has expanded its

operations to over 35 countries. See **Exhibit A** (printouts of <http://ridewithvia.com> and <http://ridewithvia.com/solutions>).

3. Using its cutting-edge technology, Via has developed innovative and effective mobility solutions for private companies, as well as universities, school districts, rural towns, and large cities throughout the world, to solve pressing mobility needs with demand-responsive technology.

4. At its core, Via is a technology company focused on providing sustainable transportation options. Via's technology is highly effective. For example, in Gainesville, Georgia, Via's technology allowed the city to cut their cost per trip in half while increasing adoption of public transit by more than 20%.

5. Via's technology is focused on helping to reduce emissions through the use of shared rides and electric or low-emissions vehicles. For example, one of Via's flagship deployments in Arlington, Texas includes the use of electric autonomous vehicles in partnership with May Mobility.

6. Via's advanced technology and algorithm are used by customers as a logistics platform to efficiently manage fleets and schedule deliveries, and efficiently group, in real time, multiple passengers or packages headed in the same direction, significantly reducing congestion and emissions while providing a high-quality, inexpensive, and eco-friendly transportation alternative.

7. Via's software enables the effective and efficient use of greener vehicles, reducing the number of miles traveled and the associated emissions per passenger.

8. Via works with clients, including cities, to build efficient, equitable, and sustainable transportation systems to serve individual communities. For example, Via has a

partnership with Sustainable Westchester and Tri-State Transportation Campaign, pursuant to which Via provides on-call consulting services for Sustainable Westchester’s Bee-Line On Demand initiative to implement an innovative and electric, on-demand transit service that will improve access to clean transportation and mobility in the economically disadvantaged community of Peekskill, New York.

9. Via’s technology has been used by its customers for delivery and logistics use cases.

10. For nearly a decade, Via has used its VIA trademark in connection with goods and services related to transit technology, transportation, and mobility, including products with features relating to energy efficiency and energy usage management (the “VIA Mark”).

11. Via owns the following federal trademark registrations for the VIA Mark (the “VIA Registrations”):

Mark	Reg. No.	Goods/Services	Status
VIA	5,958,489	<p><u>Class 9</u>: Mobile application software for connecting drivers and passengers; mobile application software for automated scheduling and dispatch of motor vehicles; mobile application software for coordinating transportation services; mobile application for engaging transportation services</p> <p><u>Class 38</u>: Telecommunications services, namely, routing calls, SMS messages, and push-notifications to transportation providers and riders</p> <p><u>Class 39</u>: Transportation of passengers by motorized vehicle, namely, automobiles, buses, and vans; transportation of passengers</p>	Registered on January 14, 2020. Priority as of August 2013.

Mark	Reg. No.	Goods/Services	Status
		by automobiles, buses, and vans through a network of transportation providers, namely, on-demand ride-sharing programs	
	5,958,490	<p><u>Class 9</u>: Mobile application software for connecting drivers and passengers; mobile application software for automated scheduling and dispatch of motor vehicles; mobile application software for coordinating transportation services; mobile application for engaging transportation services</p> <p><u>Class 38</u>: Telecommunications services, namely, routing calls, SMS messages, and push-notifications to transportation providers and riders</p> <p><u>Class 39</u>: Transportation of passengers by motorized vehicle; transportation of passengers by vehicle through a network of transportation providers</p>	Registered on January 14, 2020. Priority as of August 2013.

Printouts of the TSDR Database records for the foregoing registrations are annexed hereto as

Exhibit B.

12. All of the VIA Registrations are valid and subsisting.
13. The VIA Registrations constitute prima facie evidence of the validity of the subject marks thereof, the registrations therefor, and of Via's exclusive right to use those marks in connection with the goods and services set forth in those registrations.
14. Via owns common law rights in the VIA Mark for consulting services in the field of energy usage management and energy efficiency that are prior to any rights Applicant may

claim in Applicant's Marks.

15. Via owns common law rights in the VIA Mark for consulting services in the fields of energy consumption and usage conservation to improve energy efficiency that are prior to any rights Applicant may claim in Applicant's Marks.

16. Since its adoption and first use of the VIA Mark in 2013, Via has devoted and continues to devote substantial time, money, and effort in promotion of its VIA Mark to identify Via as the source of the goods and services.

17. By virtue of Via's longstanding use, the VIA Mark has developed substantial and valuable goodwill that belongs exclusively to Via.

18. Via is entitled to a broad scope of protection for its VIA Mark.

19. On June 21, 2021, Applicant filed the Challenged Applications based on an intent to use the marks VIA RENEWABLES (disclaiming "renewables") for the following services ("Applicant's Services"):

Class 35: Consulting services in the field of energy usage management and energy efficiency; energy management services, namely, providing a service that allows customers to purchase energy from various energy providers; procurement services, namely, procurement of contracts for others for the purchase of energy; retail energy provider services that allow customers to purchase energy, natural gas, electricity, fuel, and renewable energy as part of a competitive retail energy market; consulting services in the fields of energy consumption and usage conservation to improve energy efficiency

Class 36: Financing loans for development of renewable energy generation facilities and related processes; financing of loans

20. Via's rights in and to its VIA Mark are long prior to any rights Applicant may have in the United States with respect to Applicant's Marks.

COUNT I
Likelihood of Confusion
15 U.S.C. § 1052(d)

21. Paragraphs 1-20 above are realleged and incorporated herein by reference as if set

forth in full.

22. Applicant's Marks wholly incorporate Via's VIA Mark and are so similar as to be likely, when used in connection with Applicant's Services, to cause confusion, to cause mistake, or to deceive as to the affiliation, connection, or association of Applicant and its services with Via, or as to the origin, sponsorship, or approval of Applicant and its services by Via.

23. Applicant's Marks create the same, or essentially the same, commercial impression as Via's VIA Mark and are similar thereto in sight, sound, and meaning.

24. Applicant's Marks will be used in connection with services that are the same or substantially similar to goods and services offered by Via under the VIA Mark.

25. On information and belief, services branded with Applicant's Marks would be offered through some of the same channels of trade and to the same general class of purchasers as those through and to which Via's goods and services sold under its VIA Mark are offered.

26. Via believes that it will be damaged by the registration of Applicant's Marks because such registrations would support and assist Applicant in the confusing and misleading use of the designation it seeks to register, and would give color of exclusive statutory rights to Applicant, in violation and derogation of the prior and superior rights of Via.

27. Applicant's Marks so resemble Via's VIA Mark as to be likely, when used in connection with Applicant's Services, to cause confusion, or to cause mistake, or to deceive under Section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d).

WHEREFORE, Via requests that its Opposition be sustained and that the Challenged Applications be refused registration, and that the Trademark Trial and Appeal Board grant such other relief as it deems just and proper.

Please recognize as attorneys for Via in this proceeding Catherine M.C. Farrelly and Kristina D'Angelo (members of the Bar of the State of New York), and the law firm of Frankfurt Kurnit Klein & Selz, P.C., 28 Liberty, New York, NY 10005. Kindly direct all correspondence to the attention of Catherine M.C. Farrelly via e-mail to cfarrelly@fkks.com and trademark@fkks.com.

Dated: September 16, 2022
