BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

In the Matter of Serial Nos. 97315103 and 97315107
Marks: MIRISK (and design) and MIRISK

MYRIAD GENETICS, INC.,

Opposer,

-against-

HUMMINGBIRD DIAGNOSTICS GMBH,

Applicant.

Opposition No. _____

CONSOLIDATED NOTICE OF OPPOSITION

Opposer, Myriad Genetics, Inc., a corporation organized under the laws of Delaware with a principal place of business of 322 N. 2200 West, Salt Lake City, Utah 84116 ("Opposer"), believes it would be damaged by the issuance registrations to Applicant Hummingbird Diagnostics GmbH ("Applicant") for the mark MIRISK (and design) and MIRISK (together, "Applicant's Marks") as applied for in U.S. Trademark Application Serial No. 97315103 and U.S. Trademark Application Serial No. 97315107, respectively (together, the "Applications"), and therefore opposes the same. As grounds for this opposition, Opposer, by its counsel, Fross Zelnick Lehrman & Zissu, P.C., alleges as follows:

FACTS

1. Opposer is a leading genetic testing and precision medicine company. Opposer develops and offers genetic tests that help assess the risk of developing disease or disease progression which, in turn, helps to guide medical professionals' treatment decisions across medical specialties.

2. Since as early as 2013, Opposer has used the MYRISK mark and other MYRISK-formative marks (collectively, the "MYRISK Marks") in connection with genetic testing and precision medicine related goods and services.

3. As a result of Opposer's reputation, use, and success, the MYRISK Marks have become strong trademarks identifying Opposer's products and services exclusively.

4. In addition to the common law rights accruing to Opposer in the MYRISK Marks, Opposer owns multiple federal registrations for the MYRISK Marks, including the following:

Mark	**Reg. No.**	**Reg. Date**	**Goods and Services**
MYRIAD MYRISK	4860135	11/24/2015	IC 10: Medical test kits consisting of test forms, mailing materials, user information inserts, and specimen collection tubes and containers for collecting patient specimens for detection of gene mutations, gene expression profiles or other molecular indicators or markers associated with disease or risk of developing disease, excluding cardiovascular disease IC 44: Testing for medical purposes, namely, providing reference and clinical laboratory tests which detect gene mutations, gene expression profiles or other molecular indicators or markers associated with disease or risk of developing disease; excluding cardiovascular disease; medical testing services for predicting disease and identifying risk factors of disease, excluding

Mark	Reg. No.	Reg. Date	Goods and Services
			cardiovascular disease
MYRISK	6939366	1/3/2023	IC 10: Medical test kits comprising specimen collection tubes and containers for collecting patient specimens along with printed test forms, mailing materials, and printed user information inserts for use in detection of gene mutations, gene expression profiles or other molecular indicators or markers associated with disease or risk of developing disease IC 44: Testing for medical purposes, namely, providing reference and clinical laboratory tests which detect gene mutations, gene expression profiles or other molecular indicators or markers associated with disease or risk of developing disease; medical testing services for predicting disease and identifying risk factors of disease

5. The above registrations (collectively, "Opposer's Registrations") are valid, subsisting, and in full force and effect and serve as *prima facie* evidence of the validity of the marks, of Opposer's ownership of the marks, and of Opposer's exclusive right to use the marks in connection with the goods and services identified in the registrations. *See* 15 U.S.C. § 1115(a). Moreover, Opposer's Registration No. 4860135 has become incontestable pursuant to Section 15 of the Lanham Act, 15 U.S.C. § 1065, and thus constitutes conclusive evidence of the validity of the mark, of Opposer's ownership of the mark, and of Opposer's exclusive right to use the mark

in connection with the goods and services identified in the registrations. *See* 15 U.S.C. § 1115(b). Opposer's trademark registrations also place others, including Applicant, on constructive notice of the aforementioned rights. *See* 15 U.S.C. § 1072. Printouts from the USPTO's TSDR online database for Opposer's Registrations are attached hereto as **Exhibit A**.

6. On March 16, 2022, Applicant filed Application Serial No. 97315103 to register the mark MIRISK (and design) in connection with "Chemicals for use in industry and science; reagents for use in industry and science; test and collection kits containing chemicals for use in industry and science; sampling kits containing chemicals for use in industry and science; diagnostic kits containing chemicals for use in industry and science" in International Class 1; "Diagnostic preparations for medical use; diagnostic preparations for medical use and pharmaceutical research use; diagnostic preparations for medical purposes; sampling kits containing preparations for medical or pharmaceutical purposes use, namely, chemical reagents for sampling bodily fluids and tissue; test kits consisting of chemical reagents for medical purposes; kits consisting of chemical reagents for medical purposes" in International Class 5; "Scientific and technological services, namely, scientific research, analysis, and testing in the field of disease diagnosis; scientific analysis and research services in the medical, biotechnological and equipment diagnostic fields; industrial analysis and research services in the medical, biotechnological and equipment diagnostic fields; research and related development of pharmaceutical products and substances; development of new medicines; scientific research services for diagnostic purposes; scientific research, namely, preparing scientific opinions; scientific research consulting; contract research in the field of pharmacological and clinical development of medicinal products; medical research services, namely, analysis of data and clinical trials" in International Class 42; and "Medical and veterinary services; health care for humans and animals; medical and veterinary diagnostic testing, monitoring and reporting

services in pre-clinical and clinical areas; medical and veterinary diagnostic testing, monitoring and reporting services for humans and animals; services of a medical diagnostic laboratory, namely, analysis, detection and identification of components in bodily samples and tissue; medical analysis services relating to the treatment of humans and animals; medical diagnostic services for determining diseases or disorders, monitoring diseases or disorders, and determining the therapeutic success of diseases or disorders; non-invasive medical diagnostic testing, monitoring and reporting services; blood and biopsy-based medical diagnostic testing, monitoring and reporting services; personalized medical diagnostic testing, monitoring and reporting services; medical services, namely, diagnostic health monitoring and health surveillance" in International Class 44, based on a claimed bona fide intent to use. As shown below, the applied-for mark depicts the letters "mi" in lowercase light-gray typeface followed by the letters "Risk" in initial caps in dark-gray typeface, which inevitably will lead consumers to pronounce the mark as "My Risk":

7. On March 16, 2022, Applicant filed Application Serial No. 97315107 to register the mark MIRISK in connection with "Chemicals for use in industry and science; reagents for use in industry and science; test and collection kits containing chemicals for use in industry and science; sampling kits containing chemicals for use in industry and science; diagnostic kits containing chemicals for use in industry and science" in International Class 1; "Diagnostic preparations for medical use; diagnostic preparations for medical use and pharmaceutical research use; diagnostic preparations for medical purposes; sampling kits containing preparations for medical or pharmaceutical purposes use, namely, chemical reagents for sampling bodily

fluids and tissue; test kits consisting of chemical reagents for medical purposes; kits consisting of chemical reagents for medical purposes" in International Class 5; "Scientific and technological services, namely, scientific research, analysis, and testing in the field of disease diagnosis; scientific analysis and research services in the medical, biotechnological and equipment diagnostic fields; industrial analysis and research services in the medical, biotechnological and equipment diagnostic fields; research and related development of pharmaceutical products and substances; development of new medicines; scientific research services for diagnostic purposes; scientific research, namely, preparing scientific opinions; scientific research consulting; contract research in the field of pharmacological and clinical development of medicinal products; medical research services, namely, analysis of data and clinical trials" in International Class 42; and "Medical and veterinary services; health care for humans and animals; medical and veterinary diagnostic testing, monitoring and reporting services in pre-clinical and clinical areas; medical and veterinary diagnostic testing, monitoring and reporting services for humans and animals; services of a medical diagnostic laboratory, namely, analysis, detection and identification of components in bodily samples and tissue; medical analysis services relating to the treatment of humans and animals; medical diagnostic services for determining diseases or disorders, monitoring diseases or disorders, and determining the therapeutic success of diseases or disorders; non-invasive medical diagnostic testing, monitoring and reporting services; blood and biopsy-based medical diagnostic testing, monitoring and reporting services; personalized medical diagnostic testing, monitoring and reporting services; medical services, namely, diagnostic health monitoring and health surveillance" in International Class 44, based on a claimed bona fide intent to use.

8. Applicant is not connected to Opposer in any way and has not been authorized by Opposer to use Opposer's MYRISK Marks or Applicant's Marks.

9. Upon information and belief, prior to any date on which Applicant can rely in support of its rights in Applicant's Marks, Applicant was on actual notice of Opposer's prior rights in and to the MYRISK Marks. At a minimum, as a matter of law, Applicant was on constructive notice of Opposer's rights in the MYRISK Marks based on Opposer's Registrations.

10. Opposer has used the MYRISK Marks since a date prior to any date on which Applicant can rely in support of its rights in Applicant's Marks. Opposer's rights in the MYRISK Marks are prior and superior to any rights Applicant may claim in Applicant's Marks.

11. Opposer has a statutory basis to assert the claims set forth herein and has standing to bring this opposition.

FIRST CLAIM FOR RELIEF:
LIKELIHOOD OF CONFUSION UNDER 15 U.S.C. § 1052(d)

12. Opposer repeats paragraphs 1 through 11 above as if fully set forth herein.

13. Opposer's rights in the MYRISK Marks preexist any date on which Applicant can rely for its claim of rights in Applicant's Marks.

14. Applicant's Marks are highly similar to Opposer's MYRISK Marks in appearance, sound, and overall commercial impression.

15. The goods and services in the Application are identical to and/or highly similar to the goods and services offered by Opposer under the MYRISK Marks.

16. The Application is unrestricted as to trade channels and consumers. Accordingly, it is presumed that Applicant's goods and services will be made available to all consumers for such goods and services and sold in all trade channels for such goods and services. Given the overlap between the goods and services identified in Opposer's Registrations and the Applications, it is presumed as a matter of law that the parties' consumers and trade channels overlap.

17. Based on Opposer's undisputed prior rights in the MYRISK Marks, the strength of Opposer's MYRISK Marks, the similarity of the parties' goods and services, and the presumed overlapping consumers and trade channels, and other factors, consumers are likely to falsely believe that the goods and services offered by Applicant under Applicant's Marks originate from or are otherwise associated with Opposer, or that there is some relationship between Applicant and Opposer or the goods and services of Applicant and Opposer, all to Opposer's injury and harm.

18. Registration of Applicant's Marks as applied for in the Applications is likely to cause confusion, to cause mistake, or to deceive the public into the false belief that the goods offered by Applicant under Applicant's Mark come from or are otherwise sponsored by or connected with Opposer, in violation of Section 2(d) of the Lanham Act, 15 U.S.C. § 1052(d).

19. As a result of the foregoing, registration to Applicant of Applicant's Marks would be inconsistent with Opposer's prior exclusive rights in the MYRISK Marks and would threaten to destroy Opposer's investment and goodwill in its MYRISK Marks. Opposer therefore will be injured by the registration of Applicant's Marks.

WHEREFORE, Opposer respectfully requests that this consolidated opposition be sustained, and that registrations of Applicant's Marks as applied for in the Applications be refused in their entirety.

Dated: New York, New York
May 27, 2026

Respectfully submitted,

FROSS ZELNICK LEHRMAN & ZISSU, P.C.
