v.

Beaulieu Group, LLC

Elizabeth A. Dunn, Attorney:

The Board notes that since August 7, 2006, respondent has filed six consented motions to extend its testimony period to negotiate stipulations of fact in lieu of taking numerous third party testimony depositions.

To save the Board having to process further consented motions, proceedings herein are suspended pending the resolution of the parties' negotiations, subject to the right of either party to request resumption at any time. See Trademark Rule 2.117.

In the event that there is no word from either party concerning the progress of their negotiations within the next three months, the Board will issue an order resuming proceedings and resetting respondent's trial period.

Respondent's consented motion to extend its testimony period, filed December 22, 2006, is granted.
