v.

Barry M. Epstein

Michael B. Adlin, Interlocutory Attorney:

Petitioner's motion to remand so that the examining operation may review respondent's consent to registration of petitioner's pending application Serial No. 77249420, filed September 4, 2009, is denied, because petitioner's pending application is not before the Board. However, proceedings herein are hereby **SUSPENDED** pending review of the already-filed consent to registration by the examining operation. Within **TWENTY DAYS** after the examining operation's decision with respect to the consent, the parties shall notify the Board so that appropriate dates may be reset herein, if necessary.
