Certificate of Service

The undersigned hereby certifies that a copy of this paper has been served upon all parties, at their address record by First Class Mail on this date.

Signature	/slh/
-----------	-------

Name	Susan L. Heller
Date	08/15/2012

date back prior to any date on which Respondent can rely. Petitioner owns the following U.S. federal trademark registrations for the IOFLEX Marks:

MARK	DATE OF FIRST USE	REG. NO. REG. DATE	CLASS: GOODS/SERVICES
IOFLEX	07-Oct-2009	3,894,968 21-Dec-2010	10: Surgical and medical devices and instruments, namely, surgical instruments for accessing, localizing and modifying tissue; Surgical and medical systems, comprised of a set of minimally invasive surgical instruments used in sequence for accessing, localizing and modifying tissue
IOFLEX	07-Oct-2009	3,887,573 07-Dec-2010	44: Medical services
iO-Flex	07-Oct-2009	3,894,969 21-Dec-2010	10: Surgical and medical devices and instruments, namely, surgical instruments for accessing, localizing and modifying tissue; Surgical and medical systems, comprised of a set of minimally invasive surgical instruments used in sequence for accessing, localizing and modifying tissue
iO-Flex	07-Oct-2009	3,887,574 07-Dec-2010	44: Medical services
	07-Oct-2009	3,894,970 21-Dec-2010	10: Surgical and medical devices and instruments, namely, surgical instruments for accessing, localizing and modifying tissue; Surgical and medical systems, comprised of a set of minimally invasive surgical instruments used in sequence for accessing, localizing and modifying tissue
	07-Oct-2009	3,894,971 21-Dec-2010	44: Medical services

These registrations are valid, subsisting, unrevoked and have not been cancelled, and constitute *prima facie* evidence of the validity of the IOFLEX Marks and of Petitioner's exclusive right to use the IOFLEX Marks on the goods and services identified in the registrations. A copy of the registration certificates and

corresponding TARR status reports are attached hereto as Exhibit A and are made part of the record in these proceedings.

4. Beginning at least as early as October 7, 2009, continuously through to the present and without abandonment, Petitioner has extensively advertised, promoted, marketed, offered, and sold its goods and services in commerce under the IOFLEX Marks, establishing valuable common law rights in the marks in addition to the rights afforded by its federal trademark registrations.

5. As a result, Petitioner's IOFLEX Marks are closely associated with Petitioner's long-standing reputation for quality and excellence, and the purchasing public has come to know, rely upon, and recognize the goods and services of Petitioner by such marks. Based on this extensive and prominent use, Petitioner's well-known and distinctive IOFLEX Marks have acquired enormous value and have achieved widespread recognition and fame among the relevant public as a symbol of Petitioner's goodwill and reputation as a leading provider of surgical and medical devices.

6. Upon information and belief, Respondent Extremity Medical, LLC ("Respondent") is a New Jersey limited liability company with a place of business at 300 Interpace Parkway, Suite 410, Parsippany, New Jersey 07054.

7. The mark that is the subject of this Petition for Cancellation is covered by Respondent's Registration No. 4,057,096 for the mark IO FIX INTRA OSSEOUS FIXATION and Design as depicted immediately below:

("Respondent's Mark" or the "IO FIX Mark").

8. Registration No. 4,057,096 for the IO FIX Mark covers "medical devices, namely, intramedullary fusion devices" in Class 10 (the "Respondent's Registration"), and was filed on an intent-to-use basis on April 13, 2010, registered November 15, 2011, with an alleged date of first use of May 2011.

9. Petitioner's first use of its IOFLEX Marks predate all of Respondent's filing, first use, and registration dates for the IO FIX Mark.

10. Respondent's IO FIX Mark is highly and confusingly similar to Petitioner's IOFLEX Marks. In particular, Respondent's IO FIX Mark bears a striking resemblance to Petitioner's IO · FLEX mark. For illustration purposes only, below is a side-by-side comparison of the two marks:¹

Petitioner's Mark	Respondent's Mark
	

As shown above, the two marks share the prefix "IO" and the wording "F_X" (both one syllable - FLEX vs. FIX). In addition, the marks both contain a stylized "X" at the end of the mark with curved line(s). Although Respondent's Mark also contains the descriptive wording "INTRA OSSEOUS FIXATION," this non-distinctive wording, which is depicted in much smaller lettering at the bottom of the mark, is insufficient to overcome the remarkably confusing similarities.² Visually and aurally, the two marks are strikingly and confusingly similar.

11. Accordingly, Respondent's IO FIX Mark directly evokes the distinctive commercial impression associated with Petitioner's IOFLEX Marks. Given the fame and reputation of Petitioner's Marks in the surgical and medical devices industry, Respondent's use of the confusingly similar IO FIX Mark is likely to cause consumer confusion in the marketplace as to Respondent's association with Petitioner.

¹ Petitioner notes that the standard for a likelihood of confusion is not a side-by-side comparison as ordinary consumers retain only a general impression of a mark. Therefore, courts tend to focus on the lesser standard of "general recollection" produced by the marks, and not a side-by-side comparison.

² The term "intraosseous fixation" is defined as "the reduction and stabilization of fractured bony parts by direct fixation to one another with surgical wires, screws, pins and/or plates." See <http://medical-dictionary.thefreedictionary.com/intraosseous+fixation>.

12. Moreover, the goods identified in Respondent's Registration are identical and/or highly related to the goods and services that are identified in Petitioner's federal trademark registrations and offered by Petitioner in connection with Petitioner's IOFLEX Marks. Significantly, both parties provide surgical and medical devices.

13. Upon information and belief, the goods identified in Respondent's Registration would be offered to the same, substantially similar, and/or overlapping classes of consumers as those to which Petitioner offers.

14. Upon information and belief, the goods identified in Respondent's Registration would be offered through the same, substantially similar, and/or overlapping channels of trade as those through which Petitioner offers its goods and services.

15. Respondent's Registration was filed on an intent-to-use basis on April 13, 2010, long after Petitioner's first use in commerce of its famous and distinctive IOFLEX Marks. Petitioner thus has priority of use over Respondent.

16. Moreover, based on Petitioner's extensive use, promotion, and advertising of Petitioner's Marks, Petitioner's Marks are and have become strong, distinctive, and famous in the United States within the meaning of the Lanham Act.

17. Due to the identical nature of the parties' marks and underlying goods, it is highly likely that the public will view Respondent's IO FIX Mark as a mere extension of the famous Petitioner's IO FLEX Marks. As such, the public will erroneously assume or believe that Respondent's Mark and/or goods offered under Respondent's Mark emanate from the same source or origin as Petitioner, or are in some other way associated, endorsed, licensed, authorized, sponsored by, or, connected with Petitioner, all to Petitioner's irreparable damage in violation of Section 2(d) of the Trademark Act of 1946, 15 U.S.C. § 1052(d).

18. Respondent's Registration and use of Respondent's Mark falsely suggests a connection with Petitioner and/or Petitioner's goods and/or services, thereby causing loss, damage and injury to Petitioner, in violation of Section 2(a) of the Trademark Act of 1946, 15 U.S.C. § 1052(a).

19. By reason of the similarity between Respondent's IO FIX Mark and Petitioner's IOFLEX Marks, the fame of the IOFLEX Marks, and the exclusive association between the IOFLEX Marks and Petitioner, continued registration of Respondent's IO FIX Mark will dilute Petitioner's IOFLEX Marks by impairing the distinctiveness of Petitioner's IOFLEX Marks to identify exclusively goods from Petitioner. Accordingly, continued registration of the IO FIX Mark violates the Federal Trademark Dilution Act, 15 U.S.C. § 1125(c).

20. For the reasons set forth herein, Petitioner believes and asserts that the continued registration of Respondent's IO FIX Mark for the goods identified therein is inconsistent with Petitioner's superior rights in Petitioner's IOFLEX Marks, and has caused and will continue to cause damage to Petitioner and Petitioner's rights in the same.

WHEREFORE, Petitioner prays that U.S. Registration No. 4,057,096 be cancelled and that this Petition for Cancellation be sustained in favor of Petitioner.

Respectfully submitted,

GREENBERG TRAURIG, LLP

A handwritten signature in blue ink, appearing to read "Susan Heller", is written over a horizontal line.
