

2. Furthermore, during settlement discussions prior to service of the Requests for Admission, Registrant informed Petitioner's counsel that Respondent would be out of the State of California, i.e., traveling to Hawaii, for several weeks towards the end of February and early March, 2015. Petitioner's service of the Requests for Admission was intentionally timed so that Registrant would not physically receive the Requests for Admission until Registrant's return from Hawaii, thereby decreasing the amount of time Registrant would have to respond thereto.

3. Prior to filing this Motion, and based on the foregoing facts, Registrant respectfully requested Petitioner's counsel to Stipulate to an extension of time to respond to the Requests for Admission. However, Petitioner's counsel refused to do so.

4. Because of the numerous Requests for Admission, the wide scope of information sought, and the nature of the Requests for Admission, it is apparent that many, if not all, are not pertinent to the issues in the proceedings, and that it will require preparation and study to object to the answering of any of the Requests for Admission.

5. Therefore, Registrant respectfully requests an extension to respond to Petitioner's First Set of Requests for Admission until April 25, 2015.

Dated: March 18, 2015

U.S. Patent & TMO/TM Mail Rpt Dt. #22

---

Registrant, Anthony William Jones moves the court for a thirty (30) day extension until April 25, 2015 within which to file objections to interrogatories or within which to answer interrogatories for the following reasons:

1. Interrogatories under Rule 33 of the Federal Rules of Civil Procedure were served via U.S. Mail on Registrant on or about February 20, 2015 (mailing date set forth on the Proof of Service). There were 44 interrogatories, many of which contained numerous sub-parts, seeking such detailed information that it is impossible, if the interrogatories were answered without objection, to answer them within thirty (30) days after service.

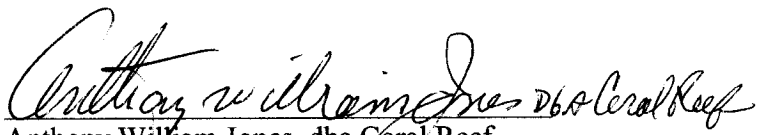

2. Furthermore, during settlement discussions prior to service of the interrogatories, Registrant informed Petitioner's counsel that Respondent would be out of the State of California, i.e., traveling to Hawaii, for several weeks towards the end of February and early March, 2015. Petitioner's service of the interrogatories was intentionally timed so that Registrant would not physically receive the interrogatories until Registrant's return from Hawaii, thereby decreasing the amount of time Registrant would have to respond thereto.

3. Prior to filing this Motion, and based on the foregoing facts, Registrant respectfully requested Petitioner's counsel to Stipulate to an extension of time to respond to the interrogatories. However, Petitioner's counsel refused to do so.

4. Because of the numerous interrogatories, the wide scope of information sought, and the nature of the interrogatories, it is apparent that many, if not all, are not pertinent to the issues in the proceedings, and that it will require preparation and study to object to the answering of any of the interrogatories.

5. Therefore, Registrant respectfully requests an extension to respond to Petitioner's First Set of Interrogatories until April 25, 2015.

Registrant, Anthony William Jones moves the court for a thirty (30) day extension until April 25, 2015 within which to file objections to Request for Production or within which to answer Request for Production for the following reasons:

I. Request for Production under Rule 33 of the Federal Rules of Civil Procedure were served via U.S. Mail on Registrant on or about February 20, 2015 (mailing date set forth on the Proof of Service). There were 43 Request for Production, many of which contained numerous sub-parts, seeking such detailed information that it is impossible, if the Request for Production were answered without objection, to answer them within thirty (30) days after service.

---

This cause was heard upon the motion of the Registrant for an enlargement of time within which to file objections to Request for Production propounded to the Registrant under Rule 33 of the Federal Rules of Civil Procedure and for an enlargement of time within which to answer Request for Production that may not be objected to. For good cause shown, it is, therefore,

ORDERED AND ADJUDGED, that the Registrant is granted until April 25, 2015 in which to file objections to such Request for Production and in which to file answers to Request for Production to which there may be no objections made.

Dated: 3/17/15

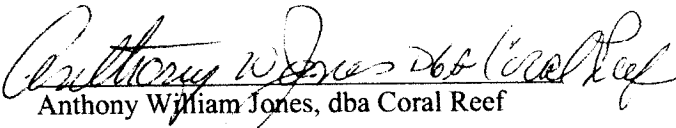

2. Furthermore, during settlement discussions prior to service of the Request for Production, Registrant informed Petitioner's counsel that Respondent would be out of the State of California, i.e., traveling to Hawaii, for several weeks towards the end of February and early March, 2015. Petitioner's service of the Request for Production was intentionally timed so that Registrant would not physically receive the Request for Production until Registrant's return from Hawaii, thereby decreasing the amount of time Registrant would have to respond thereto.

3. Prior to filing this Motion, and based on the foregoing facts, Registrant respectfully requested Petitioner's counsel to Stipulate to an extension of time to respond to the Request for Production. However, Petitioner's counsel refused to do so.

4. Because of the numerous Request for Production, the wide scope of information sought, and the nature of the Request for Production, it is apparent that many, if not all, are not pertinent to the issues in the proceedings, and that it will require preparation and study to object to the answering of any of the Request for Production.

5. Therefore, Registrant respectfully requests an extension to respond to Petitioner's First Set of Request for Production until April 25, 2015.
