**IN THE UNITED STATES PATENT AND TRADEMARK
OFFICE BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD**

Probst Handling Equipment GmbH,

Petitioner,

v.

Windy Ridge Corporation,

Registrant.

Cancellation No.: 92069700

**MOTION TO SUBSTITUTE PROPER
PARTY IN INTEREST**

**PETITIONER’S MOTION TO CORRECT MISIDENTIFICATION OF PROPER
PARTY IN INTEREST**

Pursuant to TBMP 512.04 and Fed R. Civ. P 15(a), Probst Handling Equipment GmbH (“Petitioner”) respectfully makes this Motion to Correct the Misidentification of the Petitioner, Probst GmbH, from the previous “Probst Handling Equipment GmbH” to correctly identify the Petitioner in this proceeding. The Petitioner was misidentified by mistake.

In support of this Motion, Petitioner states as follows to establish that the misidentification of the Petitioner, Probst GmbH as Probst Handling Equipment GmbH was a non-substantive mistake:

1) Probst Handling Equipment GmbH is an English Translation of Probst Greiftechnik - Verlegesysteme GmbH, a company with limited liability and legally formed under the laws of Germany via Articles of Association dated January 2, 1987. This company was assigned number HRB 310453 in the German company registry. See Exhibit A, a true and accurate copy of the German registry record dated September 22, 2015. A translation of this document is also provided.

2) In December of 2015, Probst Greiftechnik - Verlegesysteme GmbH changed its name to Probst GmbH and recorded this name change with the Commercial Register of the Stuttgart District Court as evidenced by Exhibit B, a true and correct copy of the registry record for company number HRB 310453, dated December 21, 2015. A translation of this document is also provided.

3) As evidenced by Exhibit C, the registry record for company number HRB 310453, the name of this company remains Probst GmbH (dated January 8, 2019). A translation of this document is also provided.

4) "Probst Greiftechnik Verlegesysteme GmbH" announced on November 16, 2015 it was changing to "Probst GmbH." The words "Greiftechnik Verlegesysteme" (translating to "Handling Equipment" in English, the translation selected by Petitioner to better refer to the goods offered by Probst GmbH) would be eliminated from the company name effective at the turn of the 2015/2016 year, leaving the short and concise name "Probst GmbH" for ease of pronunciation, especially for international customers. See Exhibit D, a true and correct copy of a release first published on Petitioner's website on November 16, 2015.

5) The Probst Handling Equipment name is used as a tradename and trademark on the International-English website for Petitioner, www.probst-handling.com as well as on social media pages owned and/or controlled by Petitioner (<https://www.facebook.com/ProbstHandlingEquipment/>) contributing to the misidentification by mistake of the Petitioner as Probst Handling Equipment GmbH.

6) No entity having the name Probst Handling Equipment GmbH that is not in privity with Probst GmbH exists. That is, Probst GmbH was misidentified through mistake pursuant to 37 C.F.R. § 2.102(b). The mistake was and is in the form of the Petitioner's name. The mistake

was not the result of naming a different existing legal entity that is not in privity with Probst GmbH. Thus, correction is respectfully requested and proper pursuant to TBMP § 512.04.

7) Petitioner respectfully requests the Board allow amendment of the complaint, pursuant to Fed. R. Civ. P. 15(a) and TBMP § 512.04 to correct this misidentification and to update the proper party in interest to Probst GmbH.

8) Probst Handling Equipment GmbH and Probst GmbH are one and the same, a single, continuing commercial entity and as such, this is not the scenario where the wrong party filed the cancellation. Instead, the party was misidentified by mistake.

9) Probst GmbH and Registrant Windy Ridge have been negotiating for amicable settlement of this matter. The parties have nearly reached an agreement as to settlement of this matter with the only outstanding issue being the name of the Petitioner. The mistake in identification of the Petitioner was not noticed or brought to the attention of counsel for Petitioner until Probst GmbH was reviewing the final settlement agreement for its signature. Thus, there has been no undue delay in filing this Motion to Substitute. There is no prejudice to Registrant in the granting of this Motion. On the contrary, granting of this Motion allows the parties to more concretely agree that the matter has been finally settled upon execution of the settlement agreement and confirms that the matter is concluded with finality.

WHEREFORE, Petitioner respectfully requests the Board correct Petitioner's mistake and update the name of the proper part in interest, Probst GmbH as the Petitioner in this proceeding.

Respectfully submitted,

WESTMAN, CHAMPLIN & KOEHLER, P.A.

Changes to the Probst brand identity

[Back to overview](#)

16. November 2015

We follow the motto "Probst gets things moving". Even tried and true solutions are reviewed for potential improvements time and again. Naturally, this dynamic approach also applies to the company's brand identity. Due to the growing international presence of Probst, aligning the company name, domain and logo correspondingly is the next logical step.

"Probst Greiftechnik Verlegesysteme GmbH" is changing to "Probst GmbH"

The words "Greiftechnik Verlegesysteme" will be eliminated from the company name effective at the turn of the 2015/2016 year, leaving the short and concise name "Probst GmbH" which will be much easier to pronounce for the international customers.

A website move and logo update are also part of the new brand identity

The future international domain is: www.probst-handling.com. By switching from www.probst.eu to the new .com extension, the company has selected the world's most common and best established domain extension.

The individual country pages will use the respective country code as the domain extension. The German Probst website will be found at www.probst-handling.de and the French site at www.probst-handling.fr, for example.

Matching the new domain name, the word "handling" is now found in the logo as well. The longstanding claim "the better solution" is being replaced with "handling equipment", in order to make the company's product range more readily apparent to the customers.

made in Germany Probst worldwide offers the broadest range of handling and laying equipment for the building and construction industry. Probst gets things moving - innovative, efficient and ergonomic [Click for Service Center](#)
