IN THE UNITED STATES PATENT AND TRADEMARK OFFICE  
BEFORE THE TRADEMARK TRIAL AND APPEAL BOARD

Application serial no.	97177734
Applicant	Fellowship IP Holdings Corp.

## Notice of Appeal

Notice is given that Fellowship IP Holdings Corp. appeals to the Trademark Trial and Appeal Board the refusal to register the application or the cancellation of the registration. A request for reconsideration has been filed. A suspension of the appeal is requested pending reconsideration.

The following goods or services are at issue on appeal:

- Class 009. First Use: None First Use In Commerce: None  
All goods and services in the class are appealed, namely: - downloadable computer software for blockchain-based platforms; downloadable computer software platforms for developing and building of distributed platforms and software applications; downloadable computer application software for creating, executing, and enforcing contracts that are published, managed, and verified using computer protocols; downloadable Software for securing, maintaining consistency and tamper-proofing data that represents digital currency, data assets and contracts that are published; downloadable software for creating, executing, and enforcing contracts that are published, managed, and verified using computer protocols; downloadable Computer application software for blockchain-based platforms, namely, software for using a consensus engine incorporating blockchain technology for securing data with cryptographic information; downloadable Computer software platforms for distributed ledger technology, namely, software for developing, implementing, executing and managing secure data transactions; downloadable Computer software platforms for distributed ledger technology, namely, software for management and provisioning of shared and/or distributed ledgers; Downloadable E-commerce software enabling users to carry out commercial transactions by electronic means via a global computer network; downloadable Software for creating, executing, and enforcing contracts that are published, managed, and verified using computer protocols; downloadable Computer software platforms for distributed computing platforms, namely, downloadable computer application software for distributed public ledger-based platforms; downloadable Software for using a consensus engine incorporating distributed ledger technology for cryptographically securing data; downloadable Software for representation of data involved in and/or described in data transactions; downloadable Computer software for creating, managing, and verifying cryptocurrency transactions using consensus protocols which are protocols for obtaining agreement on data values among several processes, agents, or participants; downloadable Computer software platforms for developing, building, and operating public ledger or blockchain applications, namely, an electronic financial platform that allow users to create and manage virtual assets and contracts that are published, managed, and verified using computer protocols, financial instruments, and financial transactions downloadable Application programming interface (API) software for development, testing, and integration of blockchain software applications to shared and/or distributed ledgers; downloadable software and software applications to enable cryptological authenticated transmission, access, organization, and management of network messaging, instant messaging, online blog journals, text, weblinks, and images via the internet and other communications networks; downloadable computer software used to enhance the capabilities and features of other software and non-downloadable online software
- Class 036. First Use: None First Use In Commerce: None  
All goods and services in the class are appealed, namely: Cryptocurrency services, featuring consensus protocols which are protocols for obtaining agreement on a data values among a number of processes, agents or participants, namely, providing a digital currency or digital token for use by members of an online community via a global computer network; cryptocurrency services, namely, a digital currency or digital token, incorporating cryptographic protocols, used to operate and build applications and blockchains on a decentralized computer platform and as a method of payment for goods and services; Cryptocurrency exchange services; providing secure payment options to members of an online community via a global computer network using traditional currency and virtual currency, namely, financial transaction services being the providing of secure commercial transactions and payment options; electronic commerce pay-

ment services, namely, establishing funded accounts used to purchase goods and services on the Internet; Financial services, namely, virtual, digital and cryptocurrency exchange transaction services for transferrable electronic cash equivalent units having a specified cash value; financial cash management, namely, facilitating and tracking transfers of electronic cash equivalents; virtual, digital and cryptocurrency exchange transaction services for transferrable electronic cash equivalent units having a specified cash value; financial services, namely, electronic funds transfer via electronic communications networks; providing financial information via a web site; providing an online computer web site that provides commercial financial transaction data, account management, financial reporting, accounting features and related reference information; financial exchange services; virtual, digital and cryptocurrency monetary exchange services; Payment and funds verification services; Charge card and credit card payment processing services; Electronic commerce payment services, namely, establishing funded accounts used to purchase goods and services on the Internet; Electronic foreign exchange payment processing; Electronic processing of insurance claims and payment data; Merchant services, namely, payment transaction processing services; Wireless telephone payment services, namely, wireless mobile telephone rate plans; Bill payment services; Issuing of commercial collateral liability insurance for cryptocurrency smart contracts

- Class 041. First Use: None First Use In Commerce: None

All goods and services in the class are appealed, namely: Educational services, namely, developing, arranging, and conducting educational conferences and programs and providing courses of instruction in the field of distributed computing platforms; Educational services, namely, developing, arranging, and conducting educational conferences and programs and providing courses of instruction in the field of blockchains; Educational services, namely, conducting classes, seminars, conferences, workshops, retreats, camps and field trips in the field of distributed computing platforms and distribution of training material in connection therewith; Educational services, namely, conducting classes, seminars, conferences, workshops, retreats, camps and field trips in the field of blockchain software and distribution of training material in connection therewith; Educational services, namely, conducting online, distant and in-person classes, presentations, seminars, conferences, workshops, meet-ups, retreats, camps and field trips in the field of the distributed computing platform, creating documentation for decentralized computer applications, creating decentralized computer applications and blockchain software; Arranging and conducting business conferences in the field of promoting public awareness of distributed ledgers technology, blockchains, and computer networks

- Class 042. First Use: None First Use In Commerce: None

All goods and services in the class are appealed, namely: Software development services; design, development, and implementation of software for distributed computing platforms; design, development, and implementation of software in the field of blockchains; design, development, and implementation of software in the field of public ledgers; research and development of computer software; software development and product development consulting in the field of distributed computing platforms; software development and product development consulting in the field of blockchains; computer programming services in the field of information technology in connection with software for e-commerce; services provided by consultants in the field of software design, namely, consultancy in the field of software design; design and development of software for video games; services provided by consultants in the field of computer hardware design, namely, consultancy in the design of computer hardware; services provided by consultants in the field of product testing, namely, product testing consulting; design and development of electronic data security systems; computer programming services for electronic data security; design and development of computer systems relating to computer data recovery; provision of advice and services provided by consultants relating to software, namely, computer software consultation; provision of Internet search engines for e-commerce; provision of computer programs for e-commerce, namely, providing online non-downloadable e-commerce software to allow users to perform electronic business transactions via a global computer network; Application service provider featuring application programming interface (API) software for providing a platform for the development, testing, and integration of blockchain software applications; Computer software design; Computer services featuring software for use in telecommunications, data encryption and internet security related to blockchain and distributed ledgers; Computer network configuration services; computer programming; Computer software consulting; Computer software development; computer software technical support services, namely, in the fields of data encryption, and data security related to blockchain and distributed ledgers; data encryption services; ; Maintenance of computer software; Information services relating to the development of computer networks; Programming of operating software for accessing and using a cloud computing network for others related to blockchain and distributed ledgers; Providing information about the design and development of computer hardware and software; Software design and development; technological advisory services relating to computer programs; Electronic storage of archived data; Platform as a Service (PaaS), namely, a software platform for distrib-

uted ledgers

Respectfully submitted,
